MR. SLIPP'S FIFTY DOLLARS.

Sad Tale from Fredericton About Half-a-Hundred That's a Mystery.

The telegram from Mr. A. R. Slipp to Mr. H. F. McLeod, from Canterbury, which we published vesterday, has attracted a great deal of attention among the readers of the Gleaner. Mr. Slipp asked Mr. McLeod to send him \$50, as he could make good use of it. could make good use of it. As Mr. Slipp was working in Canterbury in the interests of the opposition, the presumption is that the use he intended to put this money to was to purchase votes. What will the respectable citizens who are believers in working on the same side with Mr. Mc-Leod and Mr. Slipp, say to this? Ever since the general election took place the defeated opposition have been shouting that bribery was used against them. Yet here we have the plainest evidence from one of their own workers in the county of York, one who knew really what the committee was atoing, that they were using money in the late election. We commend this matter to the attention of the editor the Sun, who has been presenting that to money was used by the opposition, at

WILL GIVE ACADIA

COLLEGE \$100,000

DR. COLTER GETS HOME. That Is, He Will Meet Every Dollar Subscribed Up to

That Amount.

DR. TROTTER TELLS OF IT

Energetic President of the University at Wolfville Writes from Clifton Springs, Where He is Recuperating - College Has Five Years to Make Up the Amount.

Halifax, March 10. To the Editor of The Telegraph:-Sir,—May I ask the favor of your publica-tion of the enclosed letter from the presi-dent of Acadia University. The letter speaks for itself and will no doubt interest many of your readers.

Yours truly,
B. H. EATON. Clifton Springs (N. Y.), Mar. 6, 1903.

My Dear Mr. Eaton:-Owing to the absence of Mr. Rockefeller from New York on a trip to the south, there from New York on a trip to the south, there has been some delay in obtaining his final word with respect to the recently his final

Owing to the absence of Mr. Rocketeller from New York on a trip to the south, there has been some delay in obtaining his final word with respect to the recent proposal of the board of governors. At last, however, I am in a position to inform you definitely that he has endorsed the proposal, and has promised to give to the governors of Acadia it for every dollar raised by them not later than January 1, 1908, up to \$100,000.

There are certain provisos, with which I need not now trouble you, all of them, however, entirely satisfactory.

In order that the moneys may be available for the board as soon as possible. Mr. Rocketeller has arranged that remittances shall be made from New York at intervals of three months, beginning with April 1 next, each remittance to equal in amount the amount certified as having been raised by the board for the three months preceding.

For the board to raise \$100.000 within the next five years means a heavy undertaking; but in view of the noble enthusiasm and generous giving of our people in connection with the recent forward movement; in view of the inspiring and assuring character of the recent meeting of the governors, and in view of the imperative demand for some comprehensive scheme such as is now contemplated, in order that the permanence of the college may be secured and its efficiency guaranteed—in view of all this, I do not doubt for a moment that the undertaking will be faced with faith, courage and determination, and that with God's blessing it will be carried to a successful issue.

In accordance with the board's considerate arrangement, I am taking a few weeks of rest at Clifton Springs. I hope shortly to be in the enjoyment of full vigor, and to be ready to enter upon the new campaign. When I return home I shall desire to meet the executive committee of the board, and with their approval I will then address an open letter to the constituency, explaining in full the situation and outlining the plan of campaign.

full the situation and outlining the plan of campaign.

Lest there should be a misgiving in the minds of any of our people as to the effect of this new undertaking upon the twentieth tentury missionary fund, I think it would be well that they should understand from the first that, in all probability, the churches as such will not be canyassed till the term assigned to that fund by the convention shall have expired. A campaign among individuals with larger means will pecessarily be demanded, as the first stage of the new undertaking.

I shall leave it with you, as chairman of the board, to make public announcement of the facts as given above, in such form as may seem best to yourself.

Yours very truly,

THOS. TROTTER:

AN AWFUL NIGHT.

Street Has a Terrible Experience.

MET WITH ACCIDENT.

Fell Monday Night and Broke Her Leg While Going Up-stairs -- Was Alone and Help Did Not Come Until Tuesday Morning, Ten Hours After She Was Hurt.

Mrs. Mary Brady, who conducts a grory business at 236 Union street, just be errible experience Monday night, and it Lewisville, a few miles from Moncton, and a wonder that she lives to tell it. She ng apartments up stairs and broke her leg. All through the night she lay there, nd it was not until 9 o'clock yesterday

norning that help arrived. Mrs. Brady and her daughter, Miss Rose Brady, who is a school teacher, live to-gether, but on Monday the young lady was in the country and her mother was alone. Shortly after 11 o'clock Monday night Mrs. Brady closed her store and started or her living apartments. She carried a lighted lamp and was very careful in do-ing so, as she feared fire. As she started to ascend the stairs to

her residence, she was paying close atten-tion to the lamp shade and, because of amiliarity with the stairway, did not give nuch thought to herself until she made a

Even then her first thought was to avoid fire, and after some effort she succeeded in extinguishing the light. Then she tried to but found it an impo She retained consciousness and tried to drag herself up stairs, but it was a terrible undertaking; and all through the long hours, while others slept near her, yet knowing nothing of her sad plight, she struggled with desperation to get up stairs to her bedroom. Darkness gave way to dawn before she had mastered the 17 steps and when she then succeeded in en she then succeeded in

She tried to get to bed, but found it impossible, so pulled the clothing to the floor and sought to make herself a little comfortable until the time when she could hope to arouse the neighbors.

A little later she attempted to reach the door and succeeded, but her cries for help remained unheard, and the unfortunate

woman did not know what to do.

It had been Mrs. Brady's custom to oper her store at an early hour every morning and neighbors thought it strange when they came from their homes to find the shop closed. As time wore on they became anxious and finally decided to force an entrance. Just at this time, some one heard Mrs. Brady groaning, and quickly they got in. This was 9 o'clock, some 10 hours after

in. This was 9 o'clock, some 10 hours after the accident had happened.

They had her placed in bed and sent for her daughter and Dr. John M. Barry. Dr. A. A. Lewin was also called, and they found that Mrs. Brady's thigh had been broken. She will be confined to bed for some weeks, but she will look back upon Monday night as the most terrible part of Monday night as the most terrible part of

ANNUAL HOUSE-

Messrs. Manchester Robertson Allison, Limited, Are Showing Handsome Lines of Carpets and Dra-

The house furnishing departments of Manchester Robertson & Allison's estabishment is the objective point of many housekeepers this week where the unual opening is in progress. Rich fabrics, deep glowing colors, dainty and hold effects, all artistically intermingled and displayed in tasteful profusion make the departments veritable scenes of beauty. The display surpasses in magnificence and extent anything ever attempt-

ed in this city, and attracted hundreds of ladies yesterday. In the curtain and drapery room are shown some exquisite effects in furniture overings of linen tapestry, dimities, pongees, silkolines, mer silks in floral and stripe design. The newest curtains are those in the dark Arabian laces, while the dainty frilled muslins continue as popular as ever. Here are also shown

This year the firm makes the largest This year the firm makes the largest and most varied carpet display ever seen in the maritime provinces. In floor covering, strong colors in blues, greens and reds prevail and make a splendid effect of artistic blendings of dark and light tones. This seems to be a year of rugs including the much sought for eastern rugs with their quaint designs. Upstairs is shown the copy of a cashmere rug in the British museum,, the original valued to the copy of and there is no end to the variety shown, at £1,000. In the upstairs room are excellent facilities for showing goods, he number of new stands having been added equipped with large samples.

A novelty in floor covering, desirable both from a tasteful and economic standpoint, are the new Hodges fibre carpets and the grass matting called crex. Both are very pretty and said to be most durable.

M. Maunsell, or Montreat, and W. DeL. O'Grady, of Chicago. Mrs. Maunsell and child will accompany the panty to Chicago where they will stay for a few months. Mr. Maunsell's party is composed of the following:

Benjamin Robleston, Frank Grbson, Jas.

In the carpet workrooms upstairs a hive of workers are busy making the carpets ordered by patrons, and a visit to this ordered by patrons, and a visit to this room alone would demonstrate that the business of the firm in this respect is rapidly on the increase. The opening of this city, Frank and Friert Jewett of Keswick.—Fredericton Ceaner.

The new British licensing act seems to have given fresh impulse in many places to the movement for the restriction in the number of public houses.

Coughs, colds, hearsen as, and other threed ailments are quickly r lieved by Oresolene tablets, ten cents per how. All druggists.

CROOKS IN HARD LUCK

at Work in New Brunswick.

SOME LOCAL CRACKS.

Same Fate Here as Was Met in Lewisville Where a Break Was Made Some Days Ago -- John O'Regan's Store Entered; Damage Done, But Little Cash Obtained.

There is every reason to believe that few robbers and safe crackers are makin a round of the country. A few nights ago they got in their work effectively at early yesterday morning, with some clever owing of the safe in the office of John O'Regan's wholesale liquor establishmen at the foot of Union street, off Smythe. The Lewisville robbery was a mysterious ne and the officials working on the case ould get but very little to work on. The robber or robbers took a good time of

the morning for breaking into John O'Regan's establishment, as there is little oubt that the break was made about clock. As far as can be ascertain they first visited the premises of Bradley unk store in the same building on Smy treet, opposite York Point slip, and although it is not known that anything was stolen from the Myers store it is known that a turning chisel was taken from the block makers', and that may have bee effectively used in the O'Regan robbery. About 4 o'clock Tuesday morning Policemen Totten and Thorne, while the Grand Union Hotel, heard a sour Chief Jenkins and Detective Killen were

open and there was great disorder in the office. the lock was a small hole neatly bored, into which the explosive had been inserted, and the parts of the door were left lying about the office floor.

A number of drawers near the safe were

lying about the office floor.

A number of drawers near the safe were forced and a small iron cash box which had been in the safe had been taken way. Mr. O'Regan was notified and found that all that had been stolen in cash was \$6.17—all the money that had been left in the safe Monday night.

There were, however, taken away a number of valuable papers, but in a water tub near the rear of the office the missing papers were found. About \$10 in coppers was left on top of the safe undisturbed. In front of R. P. & W. F. Starr's of fice, which adjoins the O'Regan quarters, was found the steel chisel stolen from Bradley Bros. When the tide receded the police were able to locate the small iron box stolen from Mr. O'Regan's safe. The box had been taken to the wharf in the rear of the store, pried open and, after the contents had been removed, was fold like to know the where his wife, she having left her had thrown into the slip.

thrown into the slip.

The robbery presents the work of crook The robbery presents the work of crooks not by any means new at the business, and there seems to be a possible chance that the Lewisville robbers are the same as those who cracked Mr. O'Regan's safe.

The police have very little to work on, but have lost no time and Chief Clark with Deputy Chief Jenkins and Detective Killen have been working hard to round an the groods.

up the crooks.

The burglars have evidently been keeping a watchful eye on Mr. O'Regan's as well as on the police. There being no watchman in the building there was seem ingly a good chance for the burglars.

There was nothing new regarding the robbery last night.

N. B. Military Veterans' Association Will Memorialize the Government.

The New Brunswick Military Veterans' Association will memoralize the local government during the next session in reference to a grant of land for each. This matter has been referred to before but a a meeting of the association Thursday it was decided to present the memorial

signed by the members.

HIS PROBABLE FATE.

Went on Deck During Storm and Likely Washed Over the Side Was a Norwegian Bound for Winnipeg - Steamer Had 1300

The Elder-Dempster line steamer Lake Ontario, Captain Evans, with 1,300 passengers, arrived in part Thursday morning after lying at anchor at the island through

the night.
Captain Evans reports that he has had a very rough passage out from Liverpool, from which port the steamer sailed on February 25. The sensational disappear ance of one of the passengers during the voyage is puzzling the officials of the teamer. The steamer had been out from Liverpool only a few days when she encountered a terrific gale with high seas. About the third day out one of the steer

night, was about 35 years of age, a Norwegian, and was en route to Winnipeg. He had been bunking during the first part of the passage with another emmi-grant, and on the night in question left his berth and started for the deck never to return. At the time the ship was bat-tling with a wild storm and the sea was very rough. It is thought that the man had reached the deck and was washed overboard without any one seeing him to

over board with over the side.

The Ontario, besides a large general cargo, brought out 1,300 passengers. Those who traveled first cabin were Dr. W. T. P. Douglas, Mrs. C. H. Douglas, John Lytle, Mrs. Lytle, Mrs. J. F. Bird, Mrs. E. L. Bird, Samuel Howell B. H. Belson, W. S. Bromhead, Mr. Thompson, C. M. Montgomerie and Arthur Jones. About notified and on investigation found that the O'Regan safe had been cleverly blown About half of the numb About half of the number arriving are

en route to the United States and the repassengers were examined yesterday by the officials and more than 100 will. detained on account of various caused.

Those not detained were sent west last Measies was prevalent in a number families and as a result some 70 steerage were taken to Partridge Island quarantine

MISSING FROM HOME

Mrs. Henry Day Disappeared Thursday Afternoon, Leaving Her

There is a North End gentleman who would like to know the whereabouts of his wife, she having left her home Thursday at noon without specifying why she departed or where she was going The missing woman is the wife of Henry. Day, a laborer, residing at 73 Victoria, street. Since early in the week, according to her husband, Mrs. Day has been

acting in an unusual manner, which oc-casioned him some anxiety.

It would appear that latterly the ques-tion of moving had arisen, and husband tion of moving had arisen, and husband and wife held opposite views concerning the matter. He wished to move across the street, and she, apparently, had op-

Thursday Mr. Day left for work after linner, and on his return in the evening, ound his seven year old daughter alone. She said that early in the afternoon, her mother gave her a ring with instructions to keep it. then kissed her, and remarking that she would never see her again, left the house. Mr. Day at once instituted a search but up to 10 o'clock last night was

LETTERS TO THE EDITOR.

A Suggestion.

To the Editor of The Telegraph: Sir,-It appears to have been decided that an exhibition is not to be held in St. John this year, and it is thought by many that some attraction should be provided in order that the business value of the annual exhibition may not be altogether lost. Montreal, Toronto, London (Ont.), Boston (Mass.), have decided that the greatest attraction of the season is the "Horse Show." The writer thinks it can be made a success here, just as well as at any other place. If the exhibition associaing into and there is no doubt we have here enough material to make a good, strong try. If the associations named are not disposed to take the matter up and will lend their aid and patronage to any private individuals who may be desirous of carrying on the work, a company will be formed with a view of bringing the business to a successful issue.
Yours truly,
FOUR IN HAND,

Organizing Non-union Miners Fairmont, W. Va., March 12. United Mine Workers' organizers are in the New River districts in this state for the pur-pose of assisting organizers already there in bringing out the miners. It is reported here that at least 10.000 miners will go out in less than two months. Local organizers have been laboring for months to form locals here and are meeting with

some success. It is proposed to appoint a teacher of vaccination at Cambridge University.
