

ceeds in throwing light upon the points which had remained in the dark, its chief aim however remains the treatment, if not the absolute cure of the diseased organism.

I hope that this brief sketch of the history of the object of our meetings has proved to be of some interest to you. It has been only a few words in so vast a question, but I had made up my mind this address would be a short one. The success of our Provincial Association now rests upon you and the interest you will take in it. If you want to see it achieved and well established you must bear in mind that you must attend the meetings faithfully and try and increase our membership by bringing in your friends into our association.

Such an organization was a great lack in our Province, now that we have got it, founded, we owe to ourselves to keep it going a foundation that we have entirely to the perseverance and efforts of the remarkable men who belong to the McGill University.

PROGRAMME

Au ROYAL VICTORIA HOSPITAL, jeudi, 11 mai 1932, (séance du matin).
