

# MAYER MAY TAKE STAND

## San Francisco Affidavits to Disprove Bradley Statement.

### Trial of Haywood Nearing Close of the Defense—Strong Testimony is Claimed for Rebuttal.

(Special to The Daily News)  
Boise, July 4.—Introduction of testimony for the defense in the Haywood case is now nearing close. There are a number of minor witnesses to go on tomorrow, but it is expected they will be finished before night. On Saturday the defense will introduce depositions secured from W. Bradley and others at San Francisco to disprove the statement made by Orchard, relative to blowing up the Bradley house.

That will conclude the defense, excepting the testimony of Moyer and Haywood. Pettibone will not be put on the stand, but it is stated positively Moyer is to testify. There have been many rumors that Moyer would equal, but the defense scouts the idea and announces it will use him as a witness. It is not known how long these two witnesses will take, that will depend upon the extent to which either or both go into matters playing a part in the trial. If they do so exhaustively the cross-examination will be long, but it seems to be the idea that both will be disposed of on Monday and Tuesday of next week.

After the conclusion of the defense's testimony the state will probably make a motion to strike out the larger part of what has been introduced by the defense. It claims this has not so far been connected up with the case as promised at the opening of the defense. It is not believed such a motion will be granted, the matter being covered by the judge in his instructions to the jury.

The state claims it will have a great deal of strong testimony on rebuttal and this may take a week. Many witnesses are on their way here to take the stand to contradict statements made by the witnesses for the defense and some of them are men of prominence. One of the claims is that rebuttal testimony of great importance will come from the Coeur d'Alene, especially with relation to the whereabouts of Orchard on the day of the destruction of the Bunker Hill and Sullivan mill, and to the participation by W. F. Davis in that crime.

Dr. McGee will be contradicted, according to the attorneys for the prosecution, in a number of important particulars. James McPherson will take the stand to make a statement about the copies of reports presented by Morris Friedman, former stenographer in the Pinkerton agency. The last witness on the stand will be Harry Orchard. He will be called to answer a few questions raised by the testimony of some of the witnesses.

There continues to be much talk about Jack Simpkins. One story is that the defense hopes to bring him in to take the stand and another is that the defense has decided that a belief prevails that he is dead. A number of witnesses brought here by the defense have gone home without going on the stand. It is said they refused to testify as was anticipated.

## WEEK'S ORE SHIPMENTS

BOUNDARY MAKES RECORD OUTPUT OF 36,781 TONS  
TOTAL SMELTER RECEIPTS ARE WELL ABOVE AVERAGE

The Boundary district made a new shipping record last week, the output being 36,781 tons, or 200 tons larger than the previous week's satisfactory output.

The returns from the other districts show a distinct gain and the whole total is well above the average for the year.

Appended will be found the ore shipments and smelter receipts in detail for the past week and year to date in tons

BOUNDARY SHIPMENTS		
MINE	Week	Year
Granby	18,883	222,340
Emma	80	2,504

Other mines	20	3,440
Total	80	18,440

ROSSLAND RECEIPTS		
Roseland, June 18—The Centre Star, since the new hoist was installed, has considerably increased its tonnage. Should the smelter at Trail be able to handle a still larger quantity it could easily be furnished by the Centre Star and its allied mines, which have very large quantities of ore in sight.		

The California-Giant company today received its electric motor from Phoenix where it was installed in the Snowshoe mine, to which it was loaned some time since. The pipe line is being laid from the California compressor to the Ulan's lower tunnel in about four days, and the necessary preliminary work will have been completed and the work of development will be commenced.

FLOOD RELEASED		
Toronto Baseball Player Gets Out of Jail—Umpire's Statement		
Toronto, July 4.—After serving nine of the fifteen days' sentence imposed upon him by Police Magistrate Denison, for his assault on Umpire Conway, Tim Flood, the Toronto baseball player, was this morning released from jail.		

The order for his pardon, which was signed by Sir Charles Fitzpatrick, acting governor-general, reached the jail in the form of a telegram.

Conway made a long declaration in which he stated that the assault was accidental and that he was satisfied Flood did not intend to kick him. This statement was sent to the minister of justice along with many petitions, all of which were signed by prominent citizens.

Flood's release, Conway did not appear against Flood in the police court proceedings, the police authorities doing the prosecuting.

ICE STRIKERS		
New York, July 4.—Street battles between the striking ice wagon drivers and strike-breakers, which the police quelled after several participants had sustained minor injuries, followed another attempt of the American Ice company to break the strike in Brooklyn today. The appearance of a number of the old drivers, who had returned to work today, declaring that they feared they would be injured by firework hurled at them by strike sympathizers.		

PRISONERS CAPTURED		
(Special to The Daily News)		
Fernie, July 4.—The prisoners who escaped from the local jail on Dominion day, were captured last night by constable Wainwright of the provincial force, about three miles below Morrisville and were brought back to the city this morning. When captured they were in an exhausted condition, having been unable to procure food since their escape, as they still wore prison clothes and were afraid to appear at any house for assistance.		

# AT CROSS PURPOSES

## City Council Protesting Attitude Taken by School Board.

### Mayor Gillett Will Not Sell Debentures at Present—Improvement of City Roads Suggested—M. H. Supply.

The business transacted at the city council last night revealed a very serious state of affairs still existing between the council and the school trustees and further that the council are determined to maintain their own view of the matter, which is that they have not been treated fairly by the school trustees and as guardians of the public purse do not propose to sell the new school debentures until such time as some satisfactory arrangement has been arrived at. This is evidently the opinion of the majority, but on the other hand at least one of the council is rather backing the school trustees than the attitude taken by the mayor. Another important matter coming up was that of water supply, to points outside of the city, for irrigating and industrial purposes. A grant was made to certain applicants, but the council was careful to advise that the favorable action taken was not to be taken as a precedent, for while the water supply, with the relief now given to the pressure of the demands upon the power plant, is now more than sufficient for the city's needs still it is merely a question of time before, with an increasing population, the city council is again faced with a water shortage. A third point was that of the report of the health officer on the milk supply which has been the cause of complaint more than once in the past.

There were present Mayor Gillett and Aldermen Irving, McMorris, Annable, Selous and Rose.

After the reading of the minutes the council adopted the report of the finance committee and passed the payroll.

The report of the fire department was read and adopted. The chief recommended the adoption of a better system of insuring the men of the department. There were several methods of doing this put forward by various insurance companies, the chief recommended the one of the Imperial company. This portion of the report was referred to the fire, water and light committee.

Another part of the report which provoked some discussion was the request of J. H. Ellis, a former fireman, who has lately been readmitted to the department, that he be paid \$10 for taking care of the uniform. His retirement cost him \$10, and he is now asking for the same amount.

The report of the city engineer was read and adopted. The chief recommended the adoption of a better system of insuring the men of the department. There were several methods of doing this put forward by various insurance companies, the chief recommended the one of the Imperial company. This portion of the report was referred to the fire, water and light committee.

It would be difficult to dispose of them in a few months. The mayor intimated it was within his power to give an option on the debentures for six months.

Ald. Annable thought it was of no use going in for child's play. The mayor retorted it was not a child's play but he did not propose being treated like an overgrown kid.

Ald. Rose said that a question had been asked of the trustees which had not been answered and that until it was no action should be taken by the council.

Just Selous thought advertising waste of money, as the matter had already been published.

Ald. Rose was of the opinion that the disposing of the debentures was in the hands of the mayor.

City clerk Wason said that there had been filled out information blanks for the equipping financial agents and others and to these only one reply had been received which stated that the money market was tight but the writer wanted an option for two weeks at 80.

Ald. Annable said that school debentures were a better security than power plant debentures.

Ald. Selous did not see why, inasmuch as a sixth mortgage was a better security than a seventh and moreover the municipality in any case would have to foot the bill.

Ald. Rose amended that the matter be left in the hands of the mayor.

On the amendment being put it was carried, aldermen Rose and Selous voting against the amendment and Ald. Annable, the mayor casting a vote in favor. Ald. McMorris did not vote, having a few minutes before excused himself for a short period.

The question of replying to the trustees' letter was then gone into. Ald. McMorris returned at this juncture. The mayor and Ald. Irving said the city council committee had been refused a vote but to this though he was threatened seriously on several occasions. Gloss would speak, attempting to make up the small red herring but he was not allowed to do so.

aginary line second, Nelson third, Seattle fourth and Victoria last. From the instant the Portland crew caught the water they were ahead, putting clear water between themselves and the next fastest boat before they had got full swing on.

Portland forged ahead, little by little, increasing the clear water space ahead of the trailing bunch. With a long steady stroke they passed away between S. and F. over the entire course, rowing in splendid form and when they finished they were able to cheer in evidence that they were not all in. The crew consisted of: Strode, B. E. Loomis, A. C. McMillan, J. A. D. Labouch, A. A. Allen.

The other crews were: Vancouver—N. C. Swans, stroke, J. R. P. A. Moore, C. G. Laing, T. Pettison, A. Nelson—C. Lee, stroke, N. McIntosh, A. H. Ferguson, A. Bishop.

Seattle—Lovejoy, stroke, Sagier, Cooper, Smith.

Victoria—K. T. Hughes, W. W. Laing, F. Baylis, W. H. Jesse.

Victoria won the junior doubles, which had been postponed the day before by exchange, promissory notes, by the kinds of security as an individual may, and to take and receive in respect thereof, mortgages in real or personal estate or other securities, and to sell and convey such mortgages or other securities; to collect rents, manage estates, and buy and sell property of all kinds on commission, and to act as valuers, financial agents, general and special agents and real estate brokers; to acquire and hold timber limits, timber licenses and timber lands and sell and dispose of the same; to engage in the cutting and manufacture of timber and lumber and their products of any and every kind and description, and to carry on the business of timber and lumber merchants by way of retail and wholesale.

He had a desperate struggle with Gloss of Portland all the way, but managed to keep the tip of his shell ahead of the challenger, and he exercised all rights and powers incidental to the ownership thereof, including the power to vote on such shares; to assume and carry out the obligations and responsibilities of the corporation, and to enter into contracts for any such purpose; to sell, lease or otherwise dispose of the Company's real and personal property and assets, or any part or parts thereof, at any time, from time to time, and for such considerations as the Company may see fit, and in part or by way of security for the purchase money or rent, mortgages or liens thereon, all the shares, bonds or debentures of any of the Company, or any other form of security whatever that the Company may deem proper, and also to sell, dispose of and assign any such securities to any purchaser or assignee.

(g) To engage in and carry on any other business which may be deemed desirable to be carried on in conjunction with any of the Company's business, and to take, to all acts, deeds and things necessary or convenient for the exercise of all or any part of the powers of the Company, or that may be deemed conducive to its interests.

(h) To apply for and obtain in any other Province or in any of the Territories of Canada, a license to enable the Company to carry on its business, to begin in accordance with the laws or ordinances of such Province or Territory.

(i) To engage in and carry on any other business which may be deemed desirable to be carried on in conjunction with any of the Company's business, and to take, to all acts, deeds and things necessary or convenient for the exercise of all or any part of the powers of the Company, or that may be deemed conducive to its interests.

(j) To apply for and obtain in any other Province or in any of the Territories of Canada, a license to enable the Company to carry on its business, to begin in accordance with the laws or ordinances of such Province or Territory.

(k) To engage in and carry on any other business which may be deemed desirable to be carried on in conjunction with any of the Company's business, and to take, to all acts, deeds and things necessary or convenient for the exercise of all or any part of the powers of the Company, or that may be deemed conducive to its interests.

(l) To apply for and obtain in any other Province or in any of the Territories of Canada, a license to enable the Company to carry on its business, to begin in accordance with the laws or ordinances of such Province or Territory.
