ble conditions for settlement.

The able and scientific men who have lately explored British territory between us and the Pacific have reported favourably on the agricultural capabilities of that region, and also of the existence of coal-beds, and the feasibility of constructing a line of rail-way to the Pacific. Should their anticipa-tions be correct, Canada, must be curlehed by being made the highway for the traffic of that immense territory.

Washington, Sept. 22.
A refuge from the rebels gives the follow ing account of the condidion and movem of the rebels. He says:—The number of troops from Richmond to the Potomac at Leesburg in one direction, and Acquia Creek and Mathias Point, in another, may be safely put down at 175,000-50,000 of them were at Richmond three days ago, another 50,000 at Manassas, while the remaining 75,000 are scattered along from that point to Munson's Hill to the vicinity of Noland's Ferry to Harper's Ferry, and on the Potomae, south of Alexandria, from the the Potomae, south of Alexandria, from the vicinity of Acquia Creek and Mathias Point. The troops at Leesburg are militia and number about 5000. There are also about 5,000 in the vicinity of Noland's Ferry. The force at Fairfax Court House is quite small. Gens. Beauregard and Johnston make this place their head-quarters. The men are generally well clothed, but will suffer from the want of woollen clothes, especially those from the extreme Southern States. Blankets are very much needed at nights, and it is considered impossible to supply this want.
the troops have no shoes but those they brought from home, and most of them are means of supplying the article. NOTIC

A man was found Thursday morning in in a railroad wood-yard. An examination revealed the fact that he had been the victim of an attack for the purpose of robbery. His skull was driven in as with a mallet or a billet of wood, and his brains protrudedfrom the ghastly sickening wounds. He lived until 10 o'clock, insensible and speechless, when death ended the tragedy. It is stated that he had a considerable sum of money on his person. A man and woman have been arrested as the perpetrators of the offence.

"MARRY FOR LOVE AND WORK FOR SILLER."—A young lady, pressed by friends to marry a decent, but poor man, on the plea — "Marry for love, and work for siller," replied, "It's a' vera true; but a kiss and a tinniefu' o' cauld water makes a gey wersh breakfast."

Great-excitement has created at Winsted, Connecticut, by the killing of James H. Tuttle, last Monday evening, by Lucius J. Woodford. The two young men were brothers-in-law, were well-to-do-farmers, and have heen in ligation for years, which has occasioned much ill-feeling between them.

Tuttle was found dead in Woodfords yard, and is believed to have been shot while riding past Woodfords house. There were no witnesses to the affair. Woodford confesses the shooting and has given himself up

One of Cromwell's followers, who filled the important station of an Irish justice, at the period of 1661, having occasion to write the word "usage," contrived to spell it without using a single letter of the original word; his improved orthography being "zowzich." When some remarks were made on similar facts, he answered that "nobody could spell with pens made from Irish geese."

A Lady who had been subposned as a witness on a trial, asked her husband in great trepidation, what she should say if the lawyer inquired her age. "Say!" he replied, "why, tell them that you havn't yet reached the years of discretion."

Rabelais, the facetious divine, laid a wager that he would make a declaration of love in the pulpit; accordingly he took these words for his text, from the Canticles: "It is for you, woman, that I die."
