

YOUNG FOLKS

A Fine Solution.
Indeed, I try my very best
To learn the lesson well,
And why I fail at every test
I really cannot tell!
For, with my atlas in my lap,
I'm sure of every place.
Each state and country on the map,
Each river, I can trace.

But teacher says when I recite
A dreadful thing occurs;
I don't get any answers right—
At least, they're not like hers!
Utah becomes a town of Spain
Beside Lake Sunapee!
Peru, a river of Touraine,
Flows to the Caspian Sea!
I tell her that the Middle States
Lie southwest of the Horn,
Washed by those queer Magellan
Straits,
Cancer and Capricorn!

So teacher shakes her head and sighs.
"Whatever shall I do
With such a stupid boy?" she cries.
"What will become of you?"
If she feels sorry for my sake
And wants to have me pass,
She'll be obliged to let me take
My atlas to the class!"
—Johnson Morton.

Go To Work And Make Yourself Some.

In a great yard at the edge of a city
stood several pine trees and three big
maples. All winter long the pine
trees had worn their pretty, warm
green dresses, while the maples stood
shamefacedly by, bare and cold in the
bleak wintry air. Finally, when the
warm spring sunshine began to work
its wonderful magic in the air, the
maples could stand their bareness no
longer.

"I'm so ashamed!" cried the biggest
Maple. "This sunshine makes me feel
queer!"

"I think we ought to get some new
clothes," suggested the middle-sized
tree.

"Yes, everyone has new clothes for
spring, and we ought to have some,
too," added the smallest Maple Tree.

"You're quite right," said the big-
gest Maple, and he looked over the
yard and saw the fresh green of the
lawn, the bright crocuses here and
there, and the tulips by the walk.

Even the people passing on the street
looked fresher and brighter than dur-
ing the cold winter months. "Yes, we
must have some new frocks."

"Let's ask the Pine Tree; her dress
is always fresh and green. Maybe
she can tell us how to get some new
clothes," suggested the middle-sized
tree hopefully. "Oh, Friend Pine
Tree, can you tell us how to get some
pretty green frocks like yours?"

"That I can," replied the Pine Tree
cheerfully. "Go to work and make
yourselves some."

But the maples did not like that ad-
vice. "We don't want to work so
hard or wait so long; we want dresses
right away," they said.

"Let's ask the South Wind; maybe
she knows where to get clothes," sug-
gested the biggest Maple. So the
next time the South Wind blew
through the yard they asked her.

"To be sure I can tell you where to
get new dresses," laughed the South
Wind. "Go to work and make your-
selves some."

"That same advice!" grumbled the
Maples. "Let's ask the Sunbeams."
So bright and early the next morn-
ing they asked the Sunbeams their
question.

"New clothes?" laughed the Sun-
beams. "Go to work and make your-
selves some."

And then the Maples began to
notice and to think.

"Perhaps, after all, we shall get
them just as soon if we make our own
clothes," said the middle-sized Maple.
"Let's try." So all three maples set
to work.

Soon the South Wind blew by. "Oh,
are you working?" she asked. "Do
let me help you!" And quickly she
blew a dozen warm breezes through
the bare branches.

And the Sunbeams, when they came
visiting, cried, "Oh, if you are mak-
ing clothes, we want to help!" And
they bathed the trees in golden light.

Even the raindrops, up on a cloud,
saw those busy trees and came tum-
bling down to help all they could. And
so, in no time at all, or so it seemed,
those maples were dressed in new
frocks of green.

"Just look!" exclaimed the smallest
tree, as she settled her new gown with
a dainty rustle. "We made them so
quickly, and everyone has been so
kind, and—"

"That's because you worked, your-
self," whispered the South Wind. "We
all like to help workers." And away
she blew to find another busy tree—
YOUTH'S COMPANION.

The Clever Gunner.
Comment on the perfect marksmanship
now displayed in the navy was
made in the form of an anecdote by a
sergeant of a United States marine
recruiting corps.

The captain called up a gunner and
pointing out a battleship several miles
away, said:

"You see that ship?"

"Aye, aye, sir," said the gunner.

"You see the officer on deck?"

"Aye, aye, sir."

"Well, you hit him in the eye with
a 16-inch shell."

"Aye, aye, sir. Which eye, sir?"

asked the gunner.

Whole Wheat and Milk—the two most perfect foods given to man. Dietetic experts may quarrel about everything else, but they are agreed on this. The proper combination is **Shredded Wheat Biscuit** with milk—the greatest amount of protein (the element that builds muscular tissue) for the least money. Two or three of these Biscuits with milk make a nourishing breakfast on which to start the day's work and they cost only a few cents. A boon to the housewife because they are ready-cooked and ready-to-eat. Delicious with berries or other fruits. Made in Canada.

Summer Models

Flowered voile trimmed with plain organdy is a charming combination for a summer frock, especially if made in a manner similar to the accompanying illustration. The pleated skirt finished with a frill around the waist, and big, fluffy pockets, is unusual in its style and daintiness. McCall Pattern No. 7785, Ladies' Waist, in 6 sizes, 34 to 44 bust; and No. 7795, Ladies' Two-Piece Skirt, in 39 or 37-inch length, in 5 sizes, 22 to 30 waist. Price, 20 cents each.

Bloomer frocks are all the rage for little tots. The cunning model illustrated is made with dress and bloomers attached, making one garment to handle and to make, but giving the effect of two when the little dress is on. McCall Pattern No. 7738, Child's Bloomer Dress; in 3 sizes, 2 to 6 years. Price, 15 cents.

These patterns may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond St., Toronto, Dept. W.

Two Swedish pulp mills are now manufacturing industrial alcohol from their waste.

SEVRES ALSO MOBILIZED.

Renowned For Its Beautiful China, Now Making Crucibles.

Long famous for its ceramics, Sevres is now performing yeoman war-time service. It makes the crucibles, the condensers, the retorts, and other paraphernalia used in the distillation of the various powerful acids that are used in making modern high explosives.

Before the war, says the Argonaut, the Central Powers had a corner on this market. Much of the pottery and glassware used in laboratories and chemical factories came from Bohemia. As soon as the war began the Allies had to find ways of supplying their own needs. The French government immediately turned to the Sevres plant.

It was long and slow work for the French ceramic specialists, for they had never given attention to that branch of the art. Before they found an alloy that would hold the powerful acids, they tried innumerable mixtures of various kinds.

Finally they discovered a mixture that, if not the counterpart of the Bohemian, is at least as good. Now the Sevres plant is shipping goods to England and to Russia, so that those countries are no longer forced to obtain their supplies by devious means at extortionate prices from Holland and the Scandinavian countries.

The huge condensers used in the distillation of picric acid were the hardest for the Sevres savants to produce. They are so large that tiny cracks are likely to form in them while they are being "roasted" in the huge electric furnaces that formerly served for the manufacture of dishes.

PERFECT HEALTH DUE TO THE BLOOD

No Girl or Woman Need Be Constantly Ailing and Unhappy.

Nature intended every girl and every woman to be happy, attractive, active and healthy. Yet too many of them find their lives saddened by suffering—nearly always because their blood is to blame. All those unhappy girls and women with colorless cheeks, dull skins and sunken, lusterless eyes, are in this condition because they have not enough blood, red blood in their veins to keep them well and in the charm of health. They suffer from depressing weariness and periodical headaches. Dark lines form under their eyes, their heart palpitates violently after the slightest exertion, and they are often attacked with fainting spells. These are only a few of the miseries of bloodlessness. Nothing can secure girls and women from the inevitable decline that follows anemia except a generous supply of new, rich, red blood, and nothing has ever proved so successful in creating red, good blood as Dr. Williams' Pink Pills for Pale People. Thousands and thousands of girls and women owe their good health and charming complexion to the use of this medicine. Here is one example of its power to cure. Miss Dorina Bastien, St. Jerome, Que., says: "For over a year my health was gradually failing, my blood had seemed almost to have turned to water, my cheeks were pale, my lips bloodless, and the slightest exertion left me breathless. I suffered frequently from severe headaches, my appetite failed, and my friends feared I was going into consumption. I had been doctoring but did not derive any benefit, and finally I had to give up my work and return home. It was at this stage that a friend brought me a box of Dr. Williams' Pink Pills and urged me to try them. By the time the box was used I thought they were helping me, and decided to continue using the pills. I took a half dozen boxes more, when my strength had completely returned, my appetite was restored, my color returned, headaches had disappeared and I was feeling better than I had been for years. I would urge every weak and ailing girl to give Dr. Williams' Pink Pills a fair trial."

These pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A STATE'S BUTCHER SHOPS.

New Zealand Opens Two in Auckland As An Experiment.

The New Zealand government has recently opened two butcher shops in Auckland in order to keep the retail price of meat down to the lowest possible minimum, and also to make the experiment as to whether under a stricter system of management the increases in the price of meat announced by the butchers are justified.

The butchers are given the option of drawing on the Imperial Government's supplies. The two freezing companies in the Auckland district will supply meat to them during alternate months at bare cost price, without trying to make any profit on the transaction. The Government retail shops are already transacting a very large business, and the public are able to purchase meat at substantially reduced prices.

When Your Eyes Need Care

One Minute Eye Medicine. No Smarting—Pain-Free—Acts Quickly. Try it for Red, Weak, Sore Eyes. Graunstedt's Eye Medicine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physiological Practice for many years. Now dedicated to the Public and sold by Druggists at six per cent. Write for Book of the Eye Free Minute Eye Remedy Company, Chicago, Ill.

Vegetable gardens under trees will not do well. They shade the plants and take the moisture from the soil.

Minard's Liniment Lumberman's Friend.

To invigorate yourself when bathing, put some coarse salt in a jar and pour on just enough water to make a slush—not enough to dissolve the salt. Take it up by handfuls and rub yourself with it, then rinse off with clear water and rub well.

YES! LIFT A CORN OFF WITHOUT PAIN

Cincinnati man tells how to dry up a corn or callus so it lifts off with fingers.

You corn-plagued men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezeone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callosus loosens so it can be lifted off, root and all, without pain.

A small bottle of freezeone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your digit has a little freezeone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

Speak Of Them In The Highest Terms

Why Mr. and Mrs. West Recommend Dodd's Kidney Pills.

They Cured Mr. West's Lumbago and Made Mrs. West Feel Like a New Person. They Are the Best Tonic.

St. James, Man., May 28th (Special).—That Dodd's Kidney Pills are living up to their great reputation. In the West is twice proved by Mr. and Mrs. G. West, well known and highly respected residents of this place. Let Mrs. West tell the story of what the great Canadian kidney remedy has done for her husband and herself.

"My husband suffered from attacks of lumbago," she states, "and the doctor did him no good, but I can truthfully say that since using Dodd's Kidney Pills he is entirely free from lumbago."

"I myself took six boxes of Dodd's Kidney Pills to some of my lady friends who were complaining of not feeling well, and they, like myself, speak highly of them."

Dodd's Kidney Pills cure the kidneys. Cured kidneys make pure blood. That is why Dodd's Kidney Pills are the best tonic.

TOMB OF OUR MOTHER EVE

Mohammedans Claim Eve Is Buried Near Yeddah, Port of Mecca.

What is probably the most remarkable and strange of all alleged Bible tombs is that which marks the supposed resting place of Eve, the mother of the human race. It lies about a mile to the north of Jeddah, the port of Mecca.

The tradition that Eve was buried here is older than Mohammed. Adam is believed by some to rest at his own peak in Ceylon, but this is debated by Oriental scholars. There had been a difference so the Mohammedans say, between our first parents, and Eve spent the last years of her life at Jeddah, where she was buried, not far from the great temple in Mecca which Moslem tradition ascribes to the hands of Adam himself.

A common legend attributes to Eve the height of 118 feet, but this does not correspond with the dimensions of her tomb, which is nearly 400 feet long! She must have been of a somewhat strange shape, as her grave is only 10 feet or 11 feet wide! In the middle of the grave is a small building containing a curious witness to the devotion of the Moslems. On the walls of this little temple are hundreds of thousands of pencilled names, as far as the hand can reach.

Minard's Liniment used by Physicians.

An Englishman has invented a vest with lapels which can be turned up and used as throat and chest protectors in inclement weather.

MONEY ORDERS

Send a Dominion Express Money Order. They are payable everywhere.

Don't throw away burnt milk; pour it into a clean jug and stand in cold water. By the time the milk is quite cold the scorched taste will have disappeared.

ENCOURAGE CULTIVATION

Campaign by Canadian Pacific Ry. to Meet Food Shortage.

In order to encourage the settlement and cultivation of vacant lands in the Western Provinces, the Canadian Pacific Railway Company, through its Colonization and Development Department, of which Mr. J. S. Dennis is the head, has undertaken an active campaign to try and induce absentee owners to cultivate their holdings.

A circular has been issued to some 8,000 absentee owners, pointing out the profits which can be made by cultivating their lands, and showing how many farmers sold their last year's crop for more than the original cost of their farms.

The Company offers the advice and assistance of its Colonization and Development Department free of charge, in supplying reliable information as to how to go about getting the land under cultivation and will send, on request, the fullest details as to routes of travel, customs regulations, passenger and freight rates and similar data.

In undertaking this campaign the Company is following its usual broad policy of Dominion-wide development, realizing that every new settler means greater production to meet the food shortage which at present threatens the world, and which Canada, with its extensive and fertile unplowed areas, can provide.

Matter of Judgment.

Two men were boldly discussing the merits of a book. Finally one of them, himself an author, said to the other: "No, John, you can't appreciate it. You never wrote a book yourself."

"No," retorted John, "and I never laid an egg, but I'm a better judge of an egg than any hon."

F., 515 Lyman St., Montreal, Quebec and Absorbine, Jr., are made in Canada.

Dr. Beck, The Well Known Eye Specialist and Doctor Judkins, The Medical Author, Publish Astonishing Report on Wonderful Remedy To Strengthen Eyesight

Say it Strengthens Eyesight 50% in One Week's Time in Many Instances

DR. BECK

A Free Prescription You Can Have Filled and Use at Home.

New York.—Dr. Beck, a New York state eye specialist, and Dr. Judkins, a Massachusetts physician, were asked to make a thorough test of the popular eye remedy, Bon Opto. Their reports were most interesting. Here they are:

Dr. Beck reports: "When my attention was first called to the wonderful eye remedy, Bon Opto, I was inclined to be skeptical. I make it a rule to test every new treatment which is brought to my attention. Having specialized in eye work for the past twenty years, I believe I am qualified to express an intelligent opinion on remedies applicable to the eyes. Since Bon Opto has created such a sensation throughout the United States and Canada, I welcomed the opportunity to test it. I began to use it in my practice a little over a year ago and I am frank to say that the results obtained are such that I hesitate to tell of my experience, for fear it will sound incredible. Some of the results I have accomplished with Bon Opto not only astonished myself but also other physicians with whom I have talked about it. I have had many individuals who had worn glasses for years for far-sightedness, near-sightedness, astigmatism and other eye weaknesses, tell me they have dispensed with them through the adoption of the Bon Opto method. Many of my patients can be traced directly to muscular contraction and relaxation and since Bon Opto method tells how to exercise and develop the eye muscles, it reaches conditions not possible through other means. I advise every thoughtful physician to study Bon Opto principal, give it the same careful trial I have made, and there is no doubt in my mind they will come to the conclusion I have, namely, that the Bon Opto method opens the door for the cure of many eye troubles which have heretofore been impossible to cope with. The treatment is so simple in its application that it can be used at home by anyone of average intelligence. In my own practice I have seen it strengthen

THE EYE

the eyesight more than 50 per cent in one week's time. I have also seen it with striking effect in cases of work strained eyes, pink eye, inflamed lids, natural colds, influenza, sunburn, itching, burning, itching eyes, eyes weakened from colds, smoke, sun, dust and wind, watery eyes, blurred vision, and in fact many other conditions too numerous to describe in this report. A new and striking cure which yielded to Bon Opto, is that of a young girl, 12 years old. Two prominent eye specialists, a thorough examination of the young girl, decided in order to save the sight of her right eye, the eye must be removed. Before permitting her to be operated on, the young girl's father decided to use Bon Opto. In less than three days a marked improvement was noticed. At the end of a week the inflammation had almost disappeared, and at the end of six weeks the eye was saved. Just think what the saving of that eye means to this little girl. Another case is that of a lady ninety-three years old. She came to me with strabismus and extreme inflammation of the lids and the conjunctiva was almost raw. After two weeks' use of Bon Opto the lids were absolutely normal and her eyes are as bright as many a girl of sixteen."

DR. JUDKINS

Dr. Judkins, Massachusetts physician, formerly Chief of Clinics in the Union General Hospital, Boston, Mass., and formerly House Surgeon at the New England Eye and Ear Infirmary of Portland, Maine, and medical author for many years, reports: "I have found oculists too prone to operate and oculists too willing to prescribe glasses while neglecting the simple formulae which form the basis of that wonderful home treatment for eye troubles, Bon Opto. This, in my opinion, is a remarkable remedy for the cure and prevention of many eye disorders. Its success in developing and strengthening the eyesight will soon make eye glasses old-fashioned. The form of eye baths which the Bon Opto method provides, will make its use as common as that of the tooth brush. I am thoroughly convinced from my experience with Bon Opto that it will strengthen the eyesight at least 50 per cent in one week's time in many instances. Dr. W. H. Devine, director of medical inspection in the Boston schools, in his report published February 29, 1917, states that only 10.16 out of 55,178 examined, need wear glasses now, a marked decrease over the previous report. Bon Opto is hastening the eradication of eye troubles throughout the world."

Victims of eye strain and other eye weaknesses and those whose eyes grow weary will be glad to know that according to Dr. Beck and Dr. Judkins, there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription. They have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do feel as good as new. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle. A lot of people who used it say: 'The atmosphere seemed hazy with or without glasses but after using this prescription I can read even fine print without glasses.' Another man said: 'I was bothered with eye strain'

CHAIN MAIL VEIL.

New Device Attached to British Helmets to Save the Eyes.

More and more the men in the trenches are coming to resemble their armor-clad forebears. The latest innovation is a chain mail veil draped from the steel helmets. The invention is that of a London eye specialist and it has proved its value. The steel veil hangs from a rod across the helmet front and protects the eyes and face, while not interfering enough with the sight to impair the soldier's efficiency.

HEALTHY CHILDREN

It is natural for little ones to be well, and with care every baby can be kept well. The main thing towards keeping little ones well is to keep their little stomach sweet and their bowels regular. Baby's Own Tablets will do this. Thousands of mothers keep the Tablets in the house, as they find them an efficient guard against illness. Concerning them Mrs. Hilarie Desmarais, St. Joseph de Sorel, Que., writes: "I believe Baby's Own Tablets are the best medicine in the world for children. My baby was terribly constipated but the Tablets promptly cured him and now he is a big healthy child." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
