The Litterbox

From the diary:

Thank God for medical excuses, I didn't want to write my exams anyway. Anyway,... now it's summer, (sigh) heh! heh! heh!

RWANDA (CP): The third revolution in as many months has just rocked the Rwandan capital early yesterday morning.

The downtown was designated a free fire zone at 8 a.m. by President Nasty Wasty as screaming citizens flooded the marketplaces calling for the return of former President Stephen Marks.

President Nasty Wasty would not comment, but released a statement saying in part "If Stephen Marks should ever return to my country, he will be caught, arrested, tried, convicted, and executed immediately for crimes against moral decency. That boy is BAD."

Stephen Marks could not be located, but high placed revolutionary leaders have hinted that Marks will be returning after he "has completed something or other". Officials refused to speculate on what he was doing.

NOW - to tie up the loose ends.

Brunsdade 122.PARTY

Sports Editor's Log: Well, at the Bruns party... (yawn) oh-oh, here comes the idiot in charge (editor in chief). He looks twisted...

"\$30,000 dollars!!! How the hell could the sports department spend that much... with only a two thousand dollar budget?"

"Uh... sorry chief, you know what they say about budgets... easy come, easy go... don't sweat it. Hey, get up... Oh well drunk again... (long, long, extra long --longest yet, definitely longest refreshing pause in history... ever) goodnight.

At the Rwandan Inauguration - Tea Party

"Mikhail,--- Mickey - how ya doin' buddy? How's it hangin good vodka eh! Ronno - hey where's that little number whatsername - yeah Nancy? What's that Mick-two? Two what? Oh... I get it.

Maggie old girl - where's the Navy - What's it like to be elected?

(pause, pause, pause)

(bullshit diplomatic conversation)

Yeah, it's good to be President again. I wonders why the Belizian ambassador never showed up.... oh well... his loss... good party - good night... Fergie, giggle giggle -where are you...

At the Belize secret police (sssh!) underground bunker: (tacky bad guy):

"Oh nol Steffin Marckz still lives.... vot is the meaning -Boris - it's time for plan X.... (evil laugh)

(Equally as tacky bad guy evil-scientist type): (evil laugh) I have the Marks-o-matic discombobulator ready Sir... The time has almost come.

We must wait for the right moment (another evil laugh) That shouldn't be so hard to find.

The End - For Now

A note from the Litterbox - Tune in next year for the continuing saga of intrepid sports reporter Stephen Marks. (fade out slowly)... (more slowly than that!) (Shaddap!) Goodnight (cameras off - lights off) that's a wrap. Exit (to the bar)
