AND MUSICAL INSTRUMENTS.

—AGENT FOR—

BEHR BROS. & CO., NEW YORK

FIRST CLASS PIANO

These Instruments embrace a number of important improvements. Amongst them are.

“PATENT CYLINDER TOP,” “BESSEMER STEEL ACTION”
“THE END-WOOD BRIDGE,” “METAL FINGER GUARD”
“HARMONIC SCALE,” “TOUCH REGULATOR,”

And the Latest, but by no means the least

“THE PIANO MUTE.”

This is a simple contrivance, which enables the performer to hear the notes without in any way disturbing any one in the house; it also prevents hammers from becoming worn or hardened by continuous practice, and is thus saving to the instrument, and makes it for teachers and those practising for a lesson invaluable.

Agent for Bessons' London, England, world-renowned PROTOTYPE
INSTRUMENTS. Inspection of Stock solicited.
