Montreal Power is the leading feature of the market as far as activity is concerned, and 12,560 shares changed hands. The price advanced to 100⅛, reacting to 99 at the close, a net advance of 2 points for the week. It is stated that practically the whole of the Electric Company's stock has been exchanged for stock in the new company, and that the amount of Gas stock unchanged is relatively trifling. Higher prices are predicted for the near future, but at present there seems to be a good deal of the stock for sale at par.

Richelieu was bid 117 at the close to-day, being the same as last week's close. 715 shares were traded in, and the stock touched 118½ during the week, but is not in much demand at the moment, though it would not be unreasonable to look for higher figures a little later on.

* * *

The Steel stocks were practically neglected this week, the Common closing with 32 bid on transactions for the week of 105 shares, a loss on quotation of 1½ points. The Preferred closed with 83 bid, a loss on quotation of 1 point, and the transactions only involved 90 shares. The Bonds were offered at 87½ twith 87 bid, and the transactions for the week otalled $3,000.
