

## SAVE- THE- HORSE

Trade-Mark Registered

### Scarcity of Horses

predicted as a result of the war, stir owners of cripplings and lame ones to immediate activity. Its the opportunity when every horse should be made sound and brought to the highest value. If you have a lame horse, write to-day; it costs nothing for advice, and there will be no string to it.

Save-The-Horse is the humane treatment for sore, lame and blemished horse. It enjoys the distinction of having more imitators and followers than any veterinary remedy on the market.

You face no lingering, discouraging case of lameness to-day that we have not met, studied and CURED.

We are the originators of the plan of treating horses—Under Signed Contract to Return Money if Remedy Fails on Ringbone—Thoropin—SPAVIN or ANY Shoulder, Knee, Ankle, Hoof and Tendon Disease.

REMEMBER.—No blistering or loss of hair. Horse works as usual—any season.

## Distribution of Seed Grain and Potatoes from the Dominion Experimental Farms, 1914-1915.

By instructions of the Minister of Agriculture, a distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples for general distribution will consist of spring wheat (about 5 lbs.), white oats (about 4 lbs.), barley (about 5 lbs.), and field peas (about 5 lbs.). These will be sent out from Ottawa. A distribution of potatoes (in 8-lb. samples) will be carried on from several of the experimental farms, the Central Farm at Ottawa supplying only the Provinces of Ontario and Quebec. All samples will be sent free, by mail. Applicants must give particulars in regard to the soil on their farms, and some account of their experience with such kinds of grain (or potatoes) as they have grown, so that a promising sort for their conditions may be selected.

Each application must be separate, and must be signed by the applicant. Only one sample of grain and one of potatoes can be sent to each farm. If both samples are asked for in the same letter, only one will be sent. Applications on any kind of printed form cannot be accepted. As the supply of seed is limited, farmers are advised to apply early; but the applications will not necessarily be filed in the exact order in which they are received. Preference will always be given to the most thoughtful and explicit requests. Applications received after the end of January will probably be too late. All applications for grain (and applications for potatoes) should be addressed to the Dominion Cerealists, Central Experimental Farm, Ottawa. Such applications require no postage. If otherwise addressed, delay and disappointment may occur. Applications for potatoes, from farmers in any other Province, should be addressed (postage prepaid) to the Superintendent of the nearest Branch Experimental Farm in that Province. J. H. GRISDALE, Director, Dominion Experimental Farms.

### LEARYLAW DUROC JERSEY SWINE AND JERSEY CATTLE.

Mac Campbell & Son, of Northwood, Ont., have again this year made a clean sweep at the big shows with their splendid exhibit of Duroc Jersey swine, and at Windsor, in direct competition, they won with their Jersey exhibit, third on aged herd in a field of eight herds; second on young herd; first on cow in milk; second on two-year-old heifer in milk; besides many lesser honors. The stock bull in service is Francis's Everton King, a son of the big-producing-bred Fontaine's Boyle, dam B. B. Fancy of Don, winner of first prize at Toronto and London, both as a two- and three-year-old. In the herd are twenty-seven daughters of this bull that are being bred to Susannah's Seven Per Cent, a son of Kirkfield Raleigh, dam Queensville Susannah, two-year-old R. O. P. record, 511 lbs. butter, 7,735.2 lbs. milk. This bull won first at Windsor, second at London, third at Toronto, in 1913, and again first at Windsor this fall. Thirty-three pounds a day for two-year-olds, and 48 lbs. a day for mature cows, are an average of the milk production of the herd. No particular words of commendation are needed for the Duroc Jersey swine, as the quality of the herd is well known. The forty brood sows are all either imported from the leading herds of the United States or are daughters of them. All are Toronto, London and Windsor winners, or daughters of winners. The principal stock boars are Jack 821, second-prize winner at Toronto; Peter R. 2815, a son of Jack's, and the Toronto champion this year; Mac's King 2010, first at Toronto this year, and a son of the Detroit champion, and a grand son of the International champion. Young stock always on hand for sale.
