

LISTER MILKING MACHINE

BRITISH MADE

THE LISTER MILKER has for ten years been in extensive use all over the British Empire. Built by a firm which has been for over 50 years engaged in the manufacture of Farm and Dairy Machinery. In general use in Canada since 1913.

TRIED-TESTED AND APPROVED BY THE CANADIAN FARMER

Don't speculate in a milker. Invest your money in the "Lister." For operating the LISTER MILKER we furnish the world-famed LISTER ENGINE, built in the same factory. Write for Catalogue and Testimonials.

R. A. LISTER AND CO. (Canada) Limited,
TORONTO AND WINNIPEG

It puts the grain in the sack—does not waste it in the stack

Supplied by the best threshing machine manufacturers
Demanded by the best farmers and threshermen

All the Grain Is Coming to You

The Grain-Saving Stacker Delivers It

Every kernel of the grain you have raised is yours. Then why let any of it go into the straw stack? You don't have to any more. The Grain-Saving Stacker returns to the separator and into the sack or wagon the grain that is blown to the

stack in the ordinary process. Demand the Grain-Saving Stacker on the machine for your next job. See that above trade-mark (in colors) is on each side. Write to any of the list below for full information about this sterling profit-saver.

The Grain-Saving Stacker Originated With the Indiana Manufacturing Company, Indianapolis, Ind., Who Also Originated the Wind Stacker.

Cord or Fabric.

Economy is a savings bank into which men drop pennies and get dollars in return.

The economy of Partridge Tires is in their durability. By giving long service they save new tire costs, and their dependable wearing qualities eliminate the expense of repairs.

Plenty of Reserve Power

The guaranteed power rating of the White-Allwork is away under what the tractor will actually deliver. The big motor—5x6 inches—larger, we believe, than used on any other 3-plow tractor—actually develops 32 H.P. at the belt. It delivers 19 H.P. at the drawbar. We guarantee 14 H.P.

It is the sort of tractor you would expect in "The First Quality Line." The White-Allwork will run a 16-inch ensilage cutter and

blower, or a 28-inch separator. The pulley is on a direct line with the crank shaft.

Put it on wet, heavy land or on rough land, and it has the power to go right along. Yet it weighs only 4800 lbs., won't pack the soil, turns in a 12-foot radius.

You know best what you are paying.

Let us tell you what a White-Allwork will do, and what it costs to use it. Then decide for yourself whether it will save you money or not. Write to-day for full information.
