## \$32.50 Buys a Cream Separator ALL SENT OUT ON FREE TRIAL.

WE ARE selling cream separators on the same plan as we have sold sewing machines and thrasher supplies during the past three years; that is, we aim to sell a large number of them at a small profit on each. We have a strictly first-class cream separator, as can testify and our prices are so much below what agents charge that they are well worth looking into. Further, we send each separator out on free trial, and every one not satisfied may be returned to us at our expense. We supply with each separator, except the smallest size, iron stand, milk-shelf and two cranks, one long one for easy turning for children, and one short one for men's use.

Our prices for the **WINDSOR CREAM SEPARATORS** are as follows: No. 0, capacity 115 lbs. per hour, \$32.50; No. 1, capacity 210 lbs. per hour, \$43.75; No. 2, capacity 340 lbs. per hour, \$57.50; No. 3, capacity 500 lbs. per hour, \$85.00.

We have dozens of testimonials from farmers in all parts of the country who purchased these machines last year. Every separator sold by us went to a thoroughly-satisfied customer, otherwise it would have been returned. Nearly all our customers took them on trial, and did not pay for them until after thoroughly testing. Mr. Henry Pruder, Purple Valley, writes: "The cream separator we purchased from you is giving immense satisfaction. We have eight

cows, and are making 12 lbs. of butter more a week than we could the old way by using the milk cans. We also tested your cream separator by running the milk through that we had skimmed closely, as we thought, and we got two quarts of good rich cream. Mr. Schales, the man who got the separator when we got ours, is also well pleased. He says it half paid for itself the first summer over what they could have made the old way." Mr. Pruder and Mr. Schales had No. 2 machines.

Mr. Taylor Hamilton, Locksley, Ont., writes: "The Windsor Cream Separator we bought from you last May is giving the very best satisfaction. I could not wish for a better separator, and my neighbors are also well pleased with it. It runs very easy and does its work perfectly."

Send for our separator pamphlet, fully illustrating our machine, showing pictures of the interior of bowl and other parts; also testimonials, terms, etc. We have sold cream separators, sewing machines or thrasher supplies in almost every part of Canada, and can probably refer you to some party in your own neighborhood as to the quality of our goods and our reputation for fair dealing.

## Warm Feet

More people die every year in consequence of cold feet and limbs than any other cause. To keep the feet warm is to protect the whole body. Our **Electric Foot Batteries** will warm the feet in five minutes, and keep a comfortable, genial glow in the feet and limbs all day long. These Vitalizing Foot Batteries increase the flow of blood in the feet and limbs, relieve the tired sick headache caused by too much blood upon the brain. These Electric Foot Batteries work out a change for the whole body, cure Rheumatism, aches and pains in the feet and limbs, remove Chilblains, and cause a pleasant, agreeable feeling of life, vigor and warmth, equal to the soft rays of sunshine. Electricity is "Bottled Sunshine." If you would have warm feet send for these Insoles; 50c a pair; 3 pairs for \$1.00, by mail. Send for our new Catalogue on **Electric Belts and other Body Appliances.**

## QUESTIONS AND ANSWERS. Miscellaneous.

### BEE CULTURE.

Where can I get a book, the "A B C of Bee Culture"?

A. L.

Ans.—Order through this office, \$1.25.

### DUROC-JERSEY HOGS.

Would you kindly publish the names of breeders of pure-bred Duroc-Jersey hogs, as I wish to purchase some.

J. W. S.

Ans.—Persons having this breed of swine would do well to advertise them in the "Farmer's Advocate."

### POULTRY BOOKS.

Can I obtain a reliable poultry book for beginners through your office? What is the price?

B. W. B.

Ans.—Yes. "Farm Poultry," by Watson, \$1.50, and "Poultry Craft," by Robinson, \$2.00. We prefer the latter.

### SILLO POINTS.

1. Some tell me a stave silo will only last a short time, owing to dampness and acid of the corn. About how long will they last?

2. That the corn was frozen in some cases in the wood silo, so that the parties could not use their ensilage this winter. Did you ever hear of this occurring before?

3. Will a concrete silo absorb the substance from the corn next the wall for six inches all around, and so render it spoiled and useless?

4. Is it necessary for stone to be put in a silo wall for strength?

R. J. C.

Ans.—1. On an average, probably from 8 to 10 years.

2. No, but it may have occurred. It usually thaws out the first warm day or so, or if thrown down into a warm feed-room or alley.

3. No, not if the wall has a good hard inside finish. They should be cement-plastered.

4. No, but it is often economical. To give tensile strength to the walls, many who have built cement silos advise bedding band-iron or heavy strands of wire in the wall every yard or so.

### CHANGING A SCHOOL SITE.

In school section No. —, township —, county —, Ont., we have three schools, one toward each end and one in the center. The ratepayers of that section have passed a motion to do away with the school at the west end of the section, and place a school in another part of the section for their convenience, where they have to cross a half mile of water and then a long distance to walk, which makes it almost impossible for the majority of the children going to the present school to attend; and there are a greater number of children to that school than to either of the others. Under existing circumstances, is it in accordance with the laws and statutes of Canada for the ratepayers to pass and carry out such a motion?

SUBSCRIBER.

Ans.—It is in the power of the trustees to agree upon a change of site for an existing schoolhouse. Having done so, they must forthwith call a special meeting of the ratepayers of the section to consider such change; and no change of school site can legally be made without the consent of the majority of such special meeting, or, in the event of difference between trustees and ratepayers, by arbitration and award. Statutory provisions in respect to the matter are to be found in the Public Schools Act (Ontario Statutes, 1901, chapter 39, sec. 34).
