London Saturday, July 6, 1895. THE SCHOOL QUESTION.

present occasion are precisely those It was said by one of our prominent who attempted not very long ago to politicians, a few years ago, when monopolize the name and character of speaking of the treatment of minorit-Equal Righters, we must say they are ies, that the majority should be not remarkably quiescent about insisting merely just, but likewise generous, to on equal rights for all now. Even the the minority, and that the greater and Toronto Globe, to which we give due more powerful the majority the more credit for having ably maintained the generous should it be.

Undeniably the Catholic majority in the Province of Quebec has shown itself thus generous to the Protestant minority in regard to education. This has been admitted by Quebec Protestants of every shade of politics - and it cannot be denied -nor can it be gainsaid that this state of affairs was the spontaneous work of the Catholic majority, which established a Protestant school system even before its union with Ontario, then Upper Canada. There was not, either at that time or at any time down to the present, any anti-Protestant party to raise an outcry against this righteous arrangement. On the contrary, when the Confederation of Canada was on the point of being settled, it was agreed to by the leading representatives of Catholic opinion in Quebec that a law should be passed by the Canadian Parliament making some desired improvements in the school laws of that Province so that the rights guaranteed to Protestants by the B. N. A. Act might be more extensive than they were before, though they were already larger than those which would be guaranteed to the Catholics of Ontario under the Ontario law.

Martin says in his letter of curious It is well known how the proposed admissions, published only a few days generous action of the Province of Quebec was for the moment prevented. ago: "When I introduced the school bill When it was known that the Separate of 1890 I pointed out that in so far as school laws of Ontario equally needed it provides for religious exercises in some amendments without which they schools it was in my opinion de could not be smoothly operated, and fective. I said then, and I still think, that the clause of the 1890 Act, which that a one sided measure could not be provides for certain religious exercises, passed, giving all the guarantees to most unjust to Roman Catholics. If Protestants, and as a strong Ontario the State is to recognize religion in its school legislation, such a recognition party absolutely refused to co operate in granting equal rights to both minas is acceptable to Protestants only, and in fact only to a majority of Pro orities, the proposal for Quebec had to testants, is to my mind rank tyranny. ba dropped. But even under such This is the tyranny which has been circumstances the generosity of the inflicted, and which the Government Catholic majority was not to be and Legislature of Manitoba have posi baulked. tion of Catholic tyranny?

pectations had been realized the Cath-M. Emile Zola, smarting under the olics would have adhered faithfully to condemnation issued against his book the agreement thus made? And if on Lourdes by the Holy Father, has they had not been adhered to, can we put himself forward in a new characdoubt for a moment that Ontario, of ter, that of the champion of science as all the Provinces, would be in a feropposed to faith and revelation.

ment from end to end, in denuncia-At a banquet given during April in honor of M. Berthelot, the eminent But the tyranny is on the other side. French chemist, M. Zola made his It is admitted by the highest judicial debut in his newly assumed role ; and authority in the British Empire that appropriately enough for the occasion, this tyranny has been perpetrated, inasmuch as the banquet appears to and how do the Protestants of Ontario have been given for the express purregard it? When it is considered pose of enabling those in attendance that they have always been very forto give full expression to their hatred ward in assuring us that they are the

against religion. The most eminent men of science have not been enemies to religion. Tycho, Brahe, Copernicus, Kepler, Newton, Leibintz, Lagrange, were eminently religious, and firm believers in the Christian revelation - some being Catholics, other Protestants. But there are modern dabblers in science, or in some special branch in science, who have pretended to find an opposition between science and religion. Huxley and Tyndall were particularly

hostile to religion. Tyndall was especially hostile to the Catholic Church, having been reared by parents who had all the passions and pre judices which prevail among the Orangemen of the North of Ireland, his father having been himself a North of Ireland Orangeman ; but this hatred became afterward turned against Christianity in every form. Young's beautiful thought on the direction which learning should receive from religion appears to be entirely overlooked by the modern sciolists :

How empty learning, and how vain is art But as it mends the life, and guides the heart."

But it is the unexpected to hear Zola making pretence to be the man of science, freed by his vast knowledge disposition in those authorities to reof truth from the trammels of relig pair the evil they have done. They ion. His speech at the Bertholet ban passed the school law of 1890, fully quet had this pretentious peroration : conscious of the injustice they were "Gentlemen, simple writer as I am, inflicting-to which effect we have I thank science, the good mother wh as made me free. She is the eternal, now the testimony of the Hon. Joseph immortal one, and mystery is hers Martin himself, who framed and inalone, whereas she is always marchtroduced the iniquitous law into the ing to victory." Legislature. Here is what Mr.

If there is anything which is most conspicuously lacking in Zola's writings it is science, and it is now acknowledged that even in literary merit they are wofully deficient. Zola's science may be measured by the support which rallied to him when he attempted to gain admission to the Academy of the French Immortals. There was a bare corporal's guard to vote for him, though the Academy is by no means a distinctively religious body. It is in fact controlled rather by an irreligious majority, and religion is rather a disqualification than a recommendation to membership, so Zola was rejected, not because of his lack of religion, but for want of the first requisite of an Academicianliterary and scientific eminence. The sole quality which gave Zola's novels

the routine of life in ecclesiastical ceived his commission from Pope Grecircles in the Eternal City.

It is not true that there is any real opposition between science and relig- D. 183, received his commission from ion. The opposition is between Faith and sciolism ; for

" A little learning is a dangerous thing ; Drink deep, or taste not the Pierian spring There shallow draughts intoxicate the brain And drinking largely sobers us again."

Truth cannot be contradicted by truth, so the truths of divine revelation can never be in opposition to the revelations of science-M. Zola to the contrary notwithstanding.

WELSH DISESTABLISHMENT.

There are some curious facts related in regard to the status of the Church of England in Wales. The Bishops who oppose disestablishment would make the public believe that the Established Church is really the Church of the majority of the people, though this is notoriously a mis-statement of the case. How else can we account for it that 32 out of 34 Welsh members of Parliament were elected under promise to vote for disestablishment?

There are in Wales over 4,000 non-Conformist chapels, built without help

from the State, whereas the churches of the Establishment do not come up to one fourth of that number. In one parish-Swansea, the largest in Wales, -there are three churches of the Establishment and forty non Conformist chapels ; and at one of the forty the attendance is twice as great as at the three Established churches combined. There is not the least doubt that if the Welsh people could do so, they would long ago have rid themselves of the incubus of the Establishment, to which they are bitterly opposed. Its continuance has caused, within not a remote period, outbreaks of resistance to the collection of tithes, which have almost amounted to rebellion, and the like of which, if repeated with persistence, will assume the proportions of a rebellion, a contingency which is not

at all improbable under the Tory rule to which the empire is to be subjected for a time. We confess we do not regard the prospect with unmixed re gret. There is small reason to regret to see a spirit of determination among the people to resist an unjust imposi-

Church, besides six others who occupy tion. Some of our contemporaries who colonial or suffragan episcopal posimight be named will probably tions. say to this: "But why then are not the people of Manitoba to be admired clared to be females, in which case they become Anglican nuns, and if they determine to resist the imposition of a separate system upon them, undermine Protestantism in that similar to that of Ontario or Quebec ?'

capacity. We answer that there is no parallel whatsoever between the two cases. Nobody desires to impose a Separate school system upon the people of Manioba who do not wish for it. The by them at their matutinal and nightly devotions : Catholics of Manitoba who ask that

how intimately he is acquainted with Augustine. Just as St. Augustine re- nation has been aroused by the congory, the missionary Fulgentius, who baptized the British King Sucius, in A.

Pope Eleutherius. National jealousy prevented the British Bishops from co-operating with St. Augustine to convert the Saxons, and it was not till many years afterwards that there was a good feeling established between the Bishops of Wales and those of England, but the unity of faith prevailed, at last, and there was in practice, as well as in doc-

trine, but one Catholic Church. The identity-continuity theory is a poor subterfuge. The Church of Eng-

land of the Reformation retained neither the headship, nor the universality of the ancient Church, nor its doctrine, nor its worship. It retained the Church property, because with the civil power on its side it was strong enough to steal it. The modern Church is identical with the ancient, only in the sense in which we might call a bandit the identical continuation of his victim whose clothes he wears and whose purse he carries in

his pocket.

A TERRIBLE PLOT!

A Church of England clergyman, the Rev. Thos. Berney, rector of Bracon Ash, near Norwich, England, and a member of the Cambridge University Senate, has just issued a pam phlet in bright orange covers, which professes to expose a fearful plot of the Jesuits to "revert" England back to Popery, and he has made a present (?) the past. of his "address," as the pamphlet is It is just such proceedings as the called, to every member of the British

Kansas city commissioners have taken Parliament, both Lords and Commonwhich make it an absolute necessity ers. According to the veracious scribe, that there should be a Separate school there is a secret order among the system. > city. The main object to be gained by the establishment of Separate schools is to ensure religious teaching to the children, and when this can be satisfactorily secured in any other way than by the establishment of Separate schools, Catholic parents will not be in such a hurry to take advantage of the Separate school law. But a display of bigotry toward Catholic children attending the Public school is very apt to precipitate the establishment of a Separate school in the local-

duct of the Commissioners : "Whereas, a majority of the school board of Kansas City, Kan, have allowed partisanship and sectarianism to govern their actions in excluding competent teachers from our Public schools, because of religious views they

choose to entertain ; and "Whereas, our Public schools should be free from partisanship and sectarianism for the reason that the same are antagonistic to American institutions, and for the further reason that said schools are maintained by the taxation of the whole people of all parties and secis ; therefore be it

"Resolved, That we, the citizens of Kansas City, Kan., in mass meeting here assembled, irrespective of party or religious predilections, condemn this act of said members of our school board as un-American, retrogressive and detrimental to the future prosperity of our rising young metropolis. The citizens were rather tardy in their action-though we must say that their last act has been to some extent a reparation of what they did previously. If the schools have become inefficient, or less efficient than before, they have only themselves to blame. The commissioners would not have acted as they did, intolerantly and in an un-American spirit, if the citizens had not elected them just to carry out that purpose. It is to be hoped, however. that with the new light which has been thrown upon the matter, the wave of bigotry which passed over the city so recently will not submerge it again. Kansas city has had just a similar experience to some of our Ontario cities, which are now in sack cloth because of the petty spirit of intolerance which they have been so ready to exhibit in

suit admirably to work in conjunction POLYGAMY AND PRESBYTER-IANISM.

> A new and curious trouble has arisen to perplex the Presbyterian Church authorities, and its presentation before the General Assembly which has just closed its labors in Pittsburg, Pa., caused no small amount of commotion in that body. The trouble arises out of an overture from the Synod of India on the question of the baptism of polygamous converts. A Mohammedan was admitted into the Church recently, permission being given him by the Indian synod to retain "both wives in his house."

The report is not specific as to whether the two wives were to remain on an equal footing, but it is very easy to read between the lines how the matter stands, and if anything were lacking in the way of evidence on the subject, the discussion which took place would throw sufficient light on the

who thus lost their positions were ex-
