

"PAGE FENCES WEAR BEST"

Made of High Carbon Wire,—we'll prove it to you. COILED not crimped. This makes it still stronger in service. It stays taut. Painted WHITE over heavy GALVANIZING—rust proof. Experienced dealers to erect it. Leads all in sales —as in merit. Get illustrated booklet and 1907 prices before buying. **THE PAGE WIRE FENCE COMPANY, LIMITED.** Walkerville, Toronto, Montreal, St. John, Winnipeg

FREE TRIAL UNTIL CURED

My offer to all who lack Strength and Vigor, who have Rheumatism, Lumbago, Sciatica, Lame Back, etc., is:—Use my Invention until Cured, then pay me. I ask not one Penny in advance or on deposit.

A man in good, vigorous health is full of electricity. The eye and brain sparkle with it, and his nerves and muscles are strong and elastic as steel. He is successful in business or his occupation, and his wit and general good nature makes him sought after by all. Could electricity be seen he would appear as in the illustration—emanating "something" you instantly feel as you approach him. This "something" is simply his natural electricity. We call such men "magnetic." Are you one? If not, don't you want to become one? During 40 years practice in Electricity I have aided more than a hundred thousand to become so. Men have come to me broken down from overwork, worry, or abuse of nature's laws, having exhausted all medical and drug treatments and apparently past aid, suffering tortures from Nervousness, Exhaustion, Varicocele, Rheumatism, Lumbago, Sciatica, Lame Back, Wrecked Stomach, etc., and even these I have helped to regain their health and strength—made them men like the above. I can do the same for any man who will use my invention, and who is not too far gone for help.

I Cure you before you pay me One Penny

My treatment is very simple. I use Electricity as given by my famous Dr. Sanden Electric Herculex Body-Battery (latest patent, Mar. 7, 1905). Worn only during time you sleep, it fills your body full of the soothing, strengthening current, and in the morning you awake full of life and vigor, prepared to face the world however you find it. Two months' use generally cures the worst cases. Use the Herculex for that length of time, and if you are well, pay me. If not, return it—price when cured from \$5 up. Liberal discount if you pay cash for it.

As the originator and founder of the Electric Body-Battery system of treatment, my 40 years' success is the envy of many, and my Herculex is, of course, imitated (what good thing is not?), but my great knowledge to advise and direct my patients is mine alone and cannot be imitated. It is given free to all who use my invention until the cure is complete. My Herculex is guaranteed to give a current instantly felt, or I forfeit \$5,000, and to last for at least one year.

Call or send for My Electric Herculex to-day, or if you want to look into the matter further, I have two of the best little books ever written on electricity and its medical uses, which I send free, sealed, upon request.

Mr. T. B. Jenkinson of Medicine Hat, Alta. is this month importing some high class Shires which he purposes selling by auction in Portage la Prairie some time next month. In the lot are eight two-year-old stallions and two yearling stallions, a three-year-old mare, three two-year-old fillies and two yearling fillies. The three-year-old mare Assistance was bought from H. M. the King and was first at the Norfolk Show, the only time shown; she is a daughter of that noted stock horse, Calwich Blend, owned by His Majesty, out of Lady Helpful. Assistance is in foal to Drayman 23rd, one of England's most celebrated sires, being the sire of this year's London champion, Tarn Dray King; also Helpful Lass, own sister to Assistance. The two fillies Holker Ruby and Holker Kin are by Blythwood Kingmaker (the sire of Ravenspur, this year's London champion), sold for \$5,000 at the King's sale. The other fillies are Searchlight Gem, by Harold, and the stallions are Kirtley, by Tarn Dray King, and Lockinge Albert, by Tarn Dray King.

of what a cart horse ought to be; also King Raven by Ravenspur, out of Calwich Rosebud, a noted mare. These horses are all sound, have good pedigrees and certificates from the Shire Horse Society of Great Britain, are hardy and good constitutional colts. They were purchased in such noted studs as those of H. M. the King, Lord Egerton, Hon. Victor Cavendish, etc.

Readers will remember the account last fall of the importation of Thoroughbreds by Mr. R. M. Dale of Qu'Appelle, Sask. Horses of the very best racing blood were brought out by Mr. Dale, and we are glad to note that he is finding a market in the West for them. Two good sires recently made are Cycladic, a champion stallion by Cyllene (recently sold for \$125,000), out of Vale Royal. This horse was taken by Mr. Sandeman, Comley, Alta. The other sire is that of Charles Martel, a stallion by Best Mare (sire of Signorino), out of Franco. Mr. R. P. Boyan, Cadbrane, Alta. was the buyer.

Thomas A. Edison, the inventor, is 60 years old. In an interview he said it was now time for him to knock off work and play awhile.

"For 45 years I have been making experiments with electricity," said Mr. Edison, "but all those years I have been turning these experiments to commercial value so fast that I have not had the chance to play with electricity for the fun of the thing, just to see how much I can find out about it. But from to-morrow on, I am going to give up the commercial end of it and work in my laboratory purely as a scientist. That will be the pleasure I have long been promising myself."

"Is it possible to foretell what the next great step in the application of electricity to the mechanics of the present-day life will be?" Mr. Edison was asked.

"We are all busy collecting data, we investigators, and maybe in 500 years more we will begin to suspect something."

I Can Cure Your Rupture

Just READ THIS and You Will Know Why. 15 DAYS' TRIAL. TREATMENT FREE. To cure your rupture you need a truss which will hold your rupture securely, and a good treatment that will close the rupture opening, while the truss is being held back. Now, is your truss good? Does it always hold the rupture back?

If it does not, why not? Just because the pad is not the proper one to retain the rupture. Now, you know you can hold it back with your fingers because they will cover and fill the opening. My Inflation Truss does exactly the same thing. It possesses a small, finger-shaped pad, filled with air to the size of the rupture opening; it covers the opening and fills it. My Inflation Pad works just like your finger does. Therefore it is a good truss, the one that holds rupture securely, the one that you need. You cannot obtain this truss from any one else, because it is my patent. It was patented in Canada on Dec. 1, 1903, and in the U. S. A. on June 25, 1903. I employ no agents or drug stores. Trusses for my Canadian patrons are manufactured in Canada and no duty to be paid by my patients. When used in connection with my Fibro Plastic treatment, which creates new tissue across the rupture opening, it will close the opening and cure your rupture. Yes, my patented Inflation Truss and Fibro Plastic treatment accomplish this. I have done so in hundreds of cases. I can do so in yours. I know I can. Write me today for my 64-page booklet giving further details, and my 15 days' trial treatment which will be sent you absolutely free of charge. Address: IGNATZ MAYER, M. D., 8011-19 Chamber of Commerce, Detroit, Mich., U.S.A. or Drawer 117 (A), Windsor, Ont.

The town council in a small German town had met to inspect a new site for a cemetery. They assembled at a chapel, and, as it was a warm day, one of the members of the Council suggested they should leave their coats in the building.

"Some one stay behind to look after them, suggested one of the Councillors.

"There is no need of that," said another. "If we are all going out to the cemetery together what need is there for one of us to stay behind and watch coats?"

The population of Manitoba and the Northwest Provinces by sexes, and a summary of statistics of field crops and live stock for 1906, as compared with the census of 1901, are given in a census blue book, issued yesterday. In Manitoba the census of last year showed 205,183 males and 160,505 females. Winnipeg has 50,461 males and 49,692 females. Brandon 5,756 males and 4,652 females. Saskatchewan has 152,793 males and 104,970 females. Alberta has 108,281 males and 77,131 females. In all three provinces there are 466,257 males and 342,606 females, leaving a preponderance of 123,651 males. In 1906 there were in the three Provinces 120,439 farms as compared with 55,625 in 1901, an increase of 65,814. Manitoba now has 35,441 farms, Saskatchewan 54,787, and Alberta 30,211. The increase in the number of farms over 1901 were: Manitoba 3,629; Saskatchewan, 41,407; Alberta, 20,778. In 1906 there were 682,919 horses in the three provinces, as compared 349,329 in 1901, 284,006 milk cows, as compared with 244,216, 1,566,992 other horned cattle, as compared with 698,467. The area of wheat under cultivation last year was 2,442,345 acres for Manitoba, 1,381,921 for Saskatchewan, and 147,921 for Alberta, a total of 3,952,187 acres, as against 2,495,467 in 1901.
