RHEUMATIC PEOPLE

Can Only Find Relief by Enriching the Blood.

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflamma-tion in the muscles and joints. Wet weather or cold weather may start the tertures of rheumatism, but is not the tertures of rheumatism, but is not the cause. The cause is in the blood and the blood only. Victims of this mala-dy have every reason to fear the first dull ache in the limbs and joints, fol-lowed by sharp pains through the flesh and muscles; these are the symp-toms of poison in the blood which will shortly leave the victim neurracked shortly leave the victim painracked and helpless. There is only one way to cure rheu-

matism, and that is through the blood matism, and that is infough the block Liniments, hot applications, and rub-bing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by the rich, red blood which Dr. Williams' Pink Pills make. This new blood drives out the poisonous acids and impurities, and the rheumalism disappears. If you are a sufferer from this painful malady begin the use of Dr. Williams' Pink Pills and see how soon the pains and stiffness of the joints fade away, leaving behind new energy and new health.

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Stealing the Judge's Watch.

A gentleman once fell asleep on a train from Bournemouth to London. When he arrived at Vauxhall he found that his watch and chain were gone. The complications that followed make an interesting story, which Montagu Williams tells in his book, Leaves of a life. The gentleman's sole companion in the carriage was busily engaged reading a newspaper. "Has anyone entered this compart-

ment while I have been asleep?" asked the gentleman, turning to him. No," was the answer.

"Then, sir, I must request you to tell me what you have done with my

The other traveller protested his innocence and said he had seen no watch and that he knew nothing about the matter. When the train arrived the matter. at its destination the suspected man was taken to the police court, where a charge was laid against him before James Ingham. He was remand-

before any questions were put to him, said he wished to make a statement.

mistakes, I may mention, as an extra-ordinary coincidence, that I myself have only this morning been guilty of have only this morning over ight as the one in question. I was under the im-pression when I left my house at Ken-sington that I put my watch into my pocket, but on arriving at this court

I found that 1 must have left it at home by misake." When the business of the court was When the business of the court was over, Sir James Ingham wended his way home. On entering his drawing room, he met one of his daughters, who exclaimed, "I suppose you got your watch all right?" your watch all right?" "Well, my dear," replied the chief magistrate, "as a matter of tact. I went out this morning without it." "Yes, I know, papa," his daugher replied. "but I gave it to the man propose Stroct who called for it."

from Bow Street who called for it." There had been an old thief at the back of the room who heard Sir James giving his experience. He had slipped

out, taken a hansom and driven to Sir James Ingham's residence, and, representing himself to be a bona fide messenger, obtained the valuable watch, which was never heard of again.

Launch and Beach Lifeboat With Aid of Tractor.

Not content with its many achieve-nents ashore, the gasoline tractor, of agricultural fame, now has entered the marine field. At Hunstanton, Engand, a machine of the endless-tread type is being used to great advantage for running a lifeboat into and out of the sea. Instead of a cable, a 40-ft, spar is used as a coupling between the tractor and the wheeled cradle that carries the boat, so that pushing is as effective as pulling.

GUARD THE CHILDREN

FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day is And through his body, as 'twere warm, the next cold and wet and un-smoke,
