

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are hearty expressions of gratitude for restored health:

Glanford Station, Ont.—“I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion.”

Henry Clark, Glanford Station, Ont.—“I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble. My left side pained me all the time and just before my periods, which were irregular and painful, it would be worse. To sit down caused me pain and suffering, and I would be so nervous sometimes that I could not hear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated.”

“I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial.”

CANADA WILL RECOVER.

Domination is Promising.

GANANOQUE, Ont., Sept. 22.—Canada's business outlook is promising; the first and worst effects of the war will gradually wear away, the higher prices of grains will more than make up for their shortage in amount, and future agricultural production should be immensely stimulated, enabling the country greatly to increase her exports, thus ensuring payment of interest on her borrowings and other obligations abroad, and the present financial expedients were efficient shock absorbers.

These were the conclusions of Hon. W. T. White, Minister of Finance, in an address before the Gananoque Board of Trade yesterday on “War and General Trade Conditions of Canada.”

White international markets were at present closed, said Hon. Mr. White, no doubt, borrowing, although on a much reduced scale, would be possible later, and increased thrift on the part of the public would be a material factor in furnishing national working capital. The spirit with which the Canadian community had met the situation was wholly admirable.

With so many men offering their lives for the Empire and undergoing hardships, privation and suffering at the front, it was the duty of every man at home, both in the military and naval effort to increase production, to add to the national wealth, that the wastage of war might be repaired and the strength of the nation increased to meet whatever of struggle and stress that may lie before us.

BRIEFS FROM THE WIRES.

The British Government yesterday placed an order at Richmond, Va., for 2,000 sets of military harness and 500 cavalry saddles to be ready for delivery in six weeks. Similar orders have been placed, it is said, in Cincinnati.

DRIVEN SEVEN MILES.

German West Wing Forced Back By Advance of Allies.

ON THE BATTLE FRONT, Sept. 22.—The western wing of the German line has been thrust back about seven miles during the last 48 hours as a sequel to continuous fighting night and day.

Both armies, despite almost superhuman fatigue, have shown no signs of termination not to yield an inch of ground without a terrible struggle, but the freer troops at the disposal of the allied commanders, have gradually forced the Germans to retreat.

The Turks are adding daily to their record of daring achievements. Late Sunday night in a costly bayonet encounter they broke through the German lines without firing more than a few shots, capturing and brought back four field guns which the French troops had abandoned the previous day. They seemed to disdain the murderous rifle and machine-gun fire poured into them, refusing to let the officers who tried to keep them under cover.

Cold steel yesterday again played a big part in the battle of the hosts fighting along the Aisne and the Oise and Wever. The most remarkable point about the encounters is that the troops were actually hand to hand.

The reckless display at the beginning of the hostilities, with the resultant carnage through the machine guns, had almost disappeared and every movement of the attacking and defending troops is carried out with the utmost caution until the moment of actual contact.

GERMANS ACCUSE RUSSIAN.—War Lord and Ministers Should Be Arrested, Says Manifesto.

LONDON, Sept. 22.—Members of the German Humane League, who on Aug. 11 issued the statement that the end of the war inevitably would see the deposition of the Kaiser, have made the following further statement: “We reiterate as men passionately loving the fatherland, it is the duty of every man who cares for the welfare of mankind, to join hands in a protest against the continuation of the war, which is a crime against the human race, and to demand the immediate cessation of hostilities, the disarmament of the belligerent nations, and the complete victory of the allied armies.”

BERNSTOFF INSURGERS.—Churchill Says There Can Be No Peace With Prussian Militarism.

LIVERPOOL, Sept. 22.—(Via London.)—In a speech here last night, Winston Churchill, First Lord of the Admiralty, referring to the talk of peace by the German Ambassador to the United States, Count Bernstorff, said: “His vague talk of peace is as insincere as the information of which he is the source. Peace with the German people might be arranged in good time, but there would be no peace with Prussian militarism, short of the grave.”

SHANNONVILLE "WORLD'S FAIR"

HAD A RECORD ATTENDANCE

Over 3000 Spectators Present at Saturday Exhibition—Excellent Show With Many Features of Entertainment.

Superior Fluvius, who had been doing his best for a long period of years to put Shannonville's “World's Fair” out of commission by copious showers of rain, seems at last to have propitiated. Last year J. P. Fluvius was satisfied with a flood which did not materialize, but the heavy clouds served the purpose of keeping the greater part of the crowd at home, especially those who remember the past reputation of Shannonville for humidity.

From early morning the crowd began to come, but in the afternoon the sun shined brightly, leading to the quiet and ancient town became very desirable processions. The cosmopolitan democrats, the carry-all, the runabout, the covered buggy, the aurore, the fordable, and the more loudly touring car were in throngs until the ticket celled had to call in reinforcements. Conservative estimates placed the crowd at three thousand, while some were positive the total attendance must have been at least a thousand.
