Renovation Hints

This is a good way to treat a room if the wall paper is hopelessly faded but in good condition otherwise. Do not remove the paper but paint the entire surface with a pretty shade of paint; one coat is sufficient. When dry place picture molding at the top if rooms are low studded, or at the depth of wall paper border if ceilings are high. This treatment is good for bedrooms.

If your grass rug or matting is faded get a package of dye in any shade you wish and make according to directions. Put your rug on the lawn and go over it with a flat paint brush dipped into the hot dye. When dry the result is surprising.

Having cleaned my own suede shoes and being so successful, I pass the method on to others:

Put the shoes on shoetrees, but if you do not possess these, stuff the shoes with soft paper. Then rub well with a rag moistened with spirits of turpentine. When this is finished place the shoes in the air to dry and no smell of turpentine will remain.

This is a good way to dry clean a white sweater:

First powder some lump starch and rub it well into the dirtiest parts, then roll the jersey up tightly and leave the starch in over night.

The next morning shake and beat out every bit of starch, and you will find the sweater to be quite clean.
