Dr. Hugo's Health Tablets

for Women

Make Healthy Women.

Whether you believe it or not, this incontrovertible fact remains. These tablets will change weak and diseased organs into strong, healthy organs; fast with some, more slowly with others, but sure and absolutely certain with all who persist in their use, except the few beyond the help of medicine.

Disease, even chronic, will then disappear as these organs are restored to their normal conditions. These tablets are now recommended beyond doubt or question as the best adapted to the special needs of women.

SCHOOL BOARD MEETING

The regular meeting of the public school board was held on Monday evening, at which all the members were present.

The subject of how best to heat the new school building had engaged the careful attention of the board for several weeks, and at this meeting a decision was made to accept the tender of Messrs. Brown & Sempie of Brockville for the installation of steam-heating apparatus.

On invitation of the board, Dr. Kinney, I.P.S., and Mr. C. R. McIntosh attended the meeting to discuss the subject of promotions. The inspector fully endorsed the present method of conducting promotions in this school, and said that the control of this matter was vested in the principal and himself. Trustee G. F. Donnelly contended that the present system of yearly promotion examinations retarded the progress of the pupils through the different grades of the school, thus placing the children of the village at a disadvantage when compared with pupils of country schools; that many good schools, including the Ottawa Normal, promoted at least twice a year. But the Inspector adhered to his contention in favor of yearly promotions, and the matter was allowed to drop.

It was pointed out that the new school building would have ample accommodation for all the pupils of the village, and Dr. Kinney was asked if some arrangement of classes could not be effected that would enable the board to dispense with the services of a fifth teacher. The present average attendance would give only 35 pupils to each of the four teachers. The Inspector said the board had full power to deal with this matter, but he advised strongly against any reduction in the staff being made.

On motion, Mr. C. R. McIntosh was re-engaged as principal of the A.M.S.

Fifty Against Two

It is not reasonable to expect two weeks of outing to overcome the effects of fifty weeks of confinement.

Take a bottle of Hood's Sarsaparilla along with you. Three doses, daily, of this great tonic will do more than anything else to refresh your blood, overcome your tired feeling, improve your appetite, and make your sleep easy and restful.

If last winter's cold, and the heat of the past few weeks, are not the "old-fashioned" kind, the absence of which has been so much deplored in recent years, they are a pretty good imitation.

A deputation of Brockville's leading citizens waited on the police commissioners at a special meeting, and urged the reinstatement of ex-Chief Adams, dismissed a year ago for alleged insubordination to the chairman of the police committee of the town council, before the department was put under the control of commissioners. It was claimed that he had been unjustly dealt with. The commissioners promised to take the matter under consideration, and it is not unlikely that an investigation will be instituted. Sergt. Burke succeeded Adams as chief constable.

The Kingston and Pembroke railway runs a weekly excursion train to Kingston, and there is an agitation among business men along the line to have it discontinued. Referring to this, the Whig says: "They claim that their trade is being carried to the city and that they feel the effect considerably. They also contend that they have as much right for consideration at the hands of the road as the city merchants and hence the contemplated action. In speaking of the matter one of the employees of the road stated that the average citizen had no idea of the volume of business brought to Kingston from the territory covered by the Kingston & Pembroke railway, and that while no order had been received to cancel the Thursday trip there certainly had been considerable agitation towards that end."

DAYTOWN

Mr. and Mrs. Phillips of Smith's Falls were visiting their sons, Messrs. Harry and Andrew Phillips.

Mr. George Huffman is improving his place by putting up a wire fence.

Miss Ella Huffman is home for her vacation.

Mr. Melvin Day is putting a wire fence around his farm.

Miss Anna Wood has her line fence up on her farm.

Mrs. William Huffman is improving.

Mrs. John Stuart has recovered from her severe illness, under the skillful treatment of Dr. Dixon of Frankville.

Mr. J. H. Wood, while visiting here, received the sad news of the death of his father-in-law, Mr. Michael Ballester, at Williamstown, N.Y.

A Sustaining Diet

These are the overrating days, when, as somebody has said, men drop by the roadside as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic,—say a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and will without any doubt avert much sickness at this time of year.

Leo Stevens, the aeronaut, who gave a balloon ascension and parachute drop at Unionville Fair some years ago, is now experimenting with airships. At Brighton Beach, N.Y., his airship, the California Arrow, was disabled by coming in contact with telegraph poles which tore off two of his propellers.
