Detroit, Nov. 22.—Charlotte Fysh, of Bothwell, Ont., was found dead in bed at 136 Third street yesterday morning by her companion, Kenneth Hare. Apparently she had taken a larger dose of morphine than usual. Hare gave himself up at police headquarters, but soon was released when he explained things to the satisfaction of the detectives. He said she had previously threatened suicide. His acquaintance with her dates back two years, when she came to Detroit from Bothwell. County Physician Henderson, who held a postmortem, is of the opinion that the direct cause of death was heart disease, aggravated by the morphine.

The room, paying for it. She had applied for a room once before.

"You aren' married, are you?" I saked her. She seemed so young.

"Oh, yes,' she replied, 'I have been married four years.'

"You ought to be whipped,' I said jokingly. Her husband came in the evening. Shunday they were in the room, and she came to me and said her husband had the key to the room, and she could not get in. I gave her another. Later in the evening we all heard strange noises. I thought it was a neighbor's dog and went out of doors to stop it. Finally it seemed to come from the room. We thought the husband must be in there drunk and I made up my mind to make them move in the morning. "We went to bed. I could not sleep.

At 11 I heard the husband come in. Then he went out again, but returned, slamming the door behind him. Then I heard a sound as though he had knocked against the table, shaking the lamp. The next thing I knew about the case, Dr. Parker took me aside and asked me if I knew the woman was

To Stop Cigarette Smoking Among School Boys-Four Vendors Convicted.

Principal Chisholm, of the Central school, Windsor, marched into police court yesterday, accompanied by about thirty of his pupils, ranging in age from 10 to 14 years. He and the boys were there as witnesses against Frank Girardot, Goldie English, Mrs. Corbett and Mrs. Tompkins, all of whom were charged with having sold cigarettes to

the boys contrary to law." Principal Chisholm told the magis trate that a large number of his pupils are excessive smokers and that they are making no progress in their work on account of using cigarettes. He said that the number he had brought into court are not all that use the weed, and he asked that an example be made of those in the habit of selling tobacco to children in the city. He expressed the opinion that

his school is not any worse than the other schools in the city.

All of the defendants were found guilty, but sentence was deferred for one week. Before dismissing the boys, Magistrate Bartlet gave them some good advice on the use of cigarettes.
