## After Baby Comes.

In the days following the baby's birth there is often a long up-hill struggle to recover strength, and the nurse busies herself in the preparation of jellies and broths for the invalid.

When Dr. Pierce's Favorite Prescription is used as a preparative for motherhood the baby's advent is practically painless, there is abundant strength to nurse and nourish the child, and a rapid recovery from the shock and strain inseparable from maternity.

"I was pleased that Dr. Pierce answered my letter," writes Mrs. C. W. Young, of 21 South Regent Street (Lee Park), Wilkes-Barre, Penna. "When I had those mishaps I began to think I would never have children. My back used to almost break and I would get sick at my stomach and have such headaches I did not know what to do; they used to set me nearly mad, then I began taking Dr. Pierce's Favorite Prescription. When baby was expected I took it all the time I was that way. I felt fine all the time and I never got those dizzy spells now. I hardly ever have a nervous headache any more. I have a perfect romp of a boy; he is the light of my home. I am now twenty years old and my baby is almost eight months old. I now feel well, and weigh 120 pounds, and the baby 2½ pounds. We feel very grateful for the good your medicine did for us. We are both healthy, thanks to Dr. Pierce's medicine."

Dr. Pierce's Pleasant Pellets keep the bowels healthy.
