Vol. XXXIX. No. 39.

WOLFVILLE, NOVA SCOTIA, FRIDAY, JUNE 18, 1920.

\$1.50, payable in advance.

Middleton Defeats Wolfville

The local baseball team went down to defeat before the Middleton boys, last year's champions, Wednesday afternoon, on the college campus. The final score was 9 to 4, the Wolfville boys getting all their runs in the fifth innings. The game was not as good an exhibition as the Kentville game, both teams making numerous errors.

Middleton went to bat first and scored one run in the first innings, Loring Andrews doing the trick. Phinney scored for the visitors in the second innings. There was no score in the next innings, but in the fourth Middleton added two more to its score. The Wolfville boys got away in the fifth innings, and Waterbury, Vaughan Henshaw, Evans, and Tingley succeeded in rounding the bases before the required three were put out. This tied the score and the outlook for the home team seemed brighter. In the next innings there was no score, but in the seventh the visitors scored three runs and followed this with two in the eighth. In the last few innings Wolfville tried hard to score but could not get any further than third base.

The teams were composed of the following:

Middleton	Wolfville
Bowiby catcher	E. Henshaw
Dodge pitcher	V. Henshaw
Andrews 1st base	P. Tingley
Phinney 2nd "	E. Kenney
L. Harlow 3rd "	R. Bishop
Andrews short st.	F. Eagles
H. Fisher 4th field	H. Evans
J. Reagh c. field	C. Schurman
F. Fisher r. field	G. Waterbury

The game was refereed by Angus, Wolfville, and Bowlby, Middleton.

The Fruit Companies

The quarterly meeting of the Board of Directors of the United Fruit Companies, Ltd., was held at Kentville on Saturday. President Bishop was in the chair. The reports showed that the affairs of the company are in excellent shape. There was a lengthy and enthusiastic discussion with reference to the establishment of canneries, as well as vinegar factories in the valley for the purpose of taking care of apples that are not strictly up to the Nova Scotia standard for shipment abroad. The Board of Directors unanimously adopted the proposition, and instructed General Manager A. E. McMahon to proceed accordingly.

Joseph E. Howe, Acadia '06, has been called to the chair of history in Brandon College, succeeding Dr. C. W. New, who goes to McMaster. Mr. Howe has been the senior teacher of history in the Saskatoon High School. During his course at Acadia he distinguished himself as an athlete as well as a student. He took post-graduate work at Yale, and was for some years connected with the staff of Acadia Academy. His many friends in these provinces will be pleased to learn of the success which is attending his work in his chosen profession.—Maritime Baptist.

G. H. Vroom, Chief Fruit Inspector, who was through the Valley last week as far east as Wolfville, reports present prospects favorable for a good average fruit yield.

A Wolfville Industry

ACADIA DAIRY CO. A VALUABLE AND PROSPEROUS INSTITUTION

The factory of the Acadia Dairy Co. is a scene of much activity these days. An unusual supply of cream is coming in which keeps Manager Wheaton and his staff busy. When a representative of THE ACADIAN called one morning this week he found everything in full swing. One "churning" of butter was on the working table and the golden mass presented a most tempting appearance. The churns were then at work on another churning, while another was ready for the churns. The morning express from the east had just come in and the floor of the receiving room was covered with cans of cream brought in from the eastern part of Kings and Hants counties. Mr. Wheaton informed THE ACADIAN that he was now turning out about half a ton of butter a day, and some days as high as 1200 to 1300 pounds. The product of the Acadia Dairy is of superior quality and always brings prices that ought to make it profitable for those who supply cream.

Republicans Nominate

Warren G. Harding, Senator for Ohio, was elected the Republican nominee for the Presidency of the United States at the Republican convention at Chicago on Saturday. In private business life Senator Harding is publisher of the Marion, Ohio, Star, with which paper he has been associated since 1884. On the paper he has performed every function from "devil" to managing editor. In addition to being a linotype operator he is a practical pressman and a job printer, and as a "make-up man" is said to have few equals. The luck piece he has carried as a Senator is the old printer's rule he used when he was sticking type.

Senator Harding is closely identified with many other large business enterprises in Marion and other parts of the State. He is director of a bank and several large manufacturing plants and is trustee of the Trinity Baptist Church. From his personal association with varied activities he ought to fill all requirements as a popular candidate.

The Republican convention also nominated Governor Coolidge of Massachusetts, for the Vice-Presidency.

Banquet at Port Williams

Saturday night was a great night in Port Williams, the occasion being the annual banquet of the Port Williams Fruit Company, which was attended by over seventy ladies and gentlemen. The president of the company, George Starr, made an ideal presiding officer, and delivered one of the best speeches ever heard in Temperance Hall.

T. L. Harvey the European representative of the United Fruit Company in England gave a very interesting talk on his experience in that market, as well as his views on the future of the Nova Scotia apples in Europe. Albert E. McMahon, the general manager of the United Fruit Companies Limited, made a splendid speech on co-operation. Another excellent address was by Professor W. Saxby Blair, superintendent of the Experimental Farm and Mayor of Kentville. The affable professor is always a popular speaker, and was thoroughly enjoyed.

Organizer of Boys Work

Paul R. Tingley, who recently was appointed organizer for the Boys Work in Kings county, entered upon his active duties this week. The County Association, which is promoting this work, is to be heartily congratulated upon the excellence of its choice. Mr. Tingley is one of the original Wolfville first troop of Boy Scouts. He was fourteen years of age when, in April, 1912, he took the scout promise. He served with distinction in the Air Force overseas, being one of the thirty-five Wolfville Boy Scouts who gave themselves and did their best for king and country in the great war.

Mr. Tingley was a member of the class which graduated a few weeks ago at Acadia and during his college career he distinguished himself as a half-back in the famous Acadia football team and as centre in the Acadia hockey team. This season he is a member of the Wolfville Amateur Athletic Association's baseball combination. He is also leader of the United Baptist church group of Tuxis Boys.

As a starting point in his organizing operations, Mr. Tingley will interview the leading people in the county to ascertain their sentiments regarding the work before taking up the general canvass. The boys, from ten years upwards, already are talking about camp this summer and it is earnestly hoped that Mr. Tingley's campaign will meet with the unqualified success its object demands, so that they may not be disappointed.

Boy Scouts and Tuxis Boys

The second game in the King's County Boys' Baseball League was played at Kentville last Saturday afternoon, when the Kentville boys defeated the Canning boys by the score of 8 to 7. At the same time the junior scouts of Kentville played a game with the Wolfville junior scouts. This game resulted in a win for the Wolfville boys, the score being 11 to 7. Thanks are due to Dr. Cutten and Mr. Shaw for transportation.

Saturday afternoon the Wolfville Tuxis Boys will play the Canning Boys on the Campus at 4:30. Let all Wolfville people turn out and see the game. Our boys will be in their new uniforms. Come and see them. This evening the Tigers will play the Lions in Cricket, and the other patrols will practise athletics in preparation for July 7th, "Wolfville's Big Day".

The news of the appointment of Mr. Roy B. Vaughan, a native of this county, son of the late Chipman Vaughan, as director of Technical Education for the province of Manitoba, will be heard with interest by his many friends. During the next year Mr. Vaughan with his associate will superintend the expenditure of \$100,000 on technical work. Half the amount has been provided by the Dominion government and the balance will be supplied by the province. THE ACADIAN tenders congratulations.

The posters for Wolfville's Big Sport Day on July 7th will be out in a few days. The committee in charge is preparing an excellent program and a most enjoyable day is promised.

Our "City of the Dead"

GOOD WORK BEING DONE AT WILLOW BANK—BUT MORE NEEDED

Those who have taken the trouble to visit the cemetery during recent days have been glad to note the improved appearance of the grounds. The cemetery now presents a fairly creditable appearance, and the improvements made give evidence of what the cemetery might become if sufficient money and attention were spent on it. The directors have been fortunate in securing the services of Mr. George Whalen, who is now giving the work all his attention with most satisfactory results. THE ACADIAN would advise citizens to spend a few minutes in inspecting the condition of Willow Bank. Business men could not better spend one of the week's half-holidays than by spending it in the cemetery under the direction of the caretaker. We would suggest that the combined energies of our people should be directed towards making Willow Bank the place of beauty that it ought to be. One afternoon might easily be spared and much good work accomplished. No duty is of sufficient importance to interfere with our care for the resting place of our dead.

Improved Brick Making

Extensive improvements are being made at the Shaw Brick Works at Avonport. The brick and tile were formerly made under a system that created an enormous waste of energy and heat. The works are now being set in an up-to-date condition by the building of new bee-hive kilns, one of which is nearly completed. It is intended to build a whole battery of these kilns and when completed the works will be making brick and tile on strictly modern lines, which means the conservation of fuel, material and labor.

Baseball News

The Kentville team defeated the Annapolis team in a Valley League game at Kentville on Wednesday, the score being 12 to 5. The same afternoon Bridgetown defeated Berwick at Bridgetown by the score of 8-7.

Representatives of the Annapolis Valley Baseball League met at Bridgetown on Monday to consider the protest made by the Berwick team against the Umpire's alleged unfair decision in the game between Berwick and Annapolis on June 2nd. It was arranged between the representatives of the two teams that the game will be replayed at Bridgetown at a date to be agreed upon.

The standing of the teams in the Valley League is now as follows:

	Won	Lost
Middleton	3	0
Kentville	2	1
Annapolis	1	1
Wolfville	1	2
Bridgetown	1	2
Berwick	0	2

It is reported that the Annapolis grounds have been disqualified, and if it is true the Annapolis-Wolfville game will have to be replayed. This would also affect the league standing, putting Wolfville in third place, Bridgetown fourth and Annapolis fifth.

It is altogether too early to predict what might be expected regarding price for this year's fruit yield, but at the same time it might be encouraging to apple growers in this Province to know that a prominent Valley fruit broker, while in Berwick last week contracted with one of the local fruit houses for the purchase of 15,000 barrels of 1920 fruit at the following attractive prices: Kings, \$4.50 to \$3.00; Golden Russets, \$4.25 to \$2.50; Gravenstein, Ribston and Blenheim, \$3.75 to \$2.00.—Berwick Register.
