The Westminster Abbey Choir, which sang at the Coronation of the King, is to sing in the New St. John's Church, Chatham on Thursday evening, the 18th. Those attending are advised to secure their tickets at Shaw's drug store. The steamer Rustler will make a trip, leaving Newcastle at 7 o'clock. Tickets 75c.

Watch for Mrs. A. Demers' adv. next week. Mrs. Demers intends to offer her entire stock of millinery and ladies' wear at great bargains in order to clear as she intends to go to her entire stock. This would be a grand opportunity for any one desiring to buy established millinery business and can place on good terms.

Don't forget meeting the pastors, Sunday School teachers and superintendents of every town to meet to have a share.

Reduced rates of travel for delegates and visitors are being arranged on all railways and buses, and will be published later. An official notice to learn that Mr. Marion Lawrence, the International Field Secretary is to be present at this convention. Mr. Lawrence has had a lifetime experience in Sunday School work, from being a scholar at the age of five to the International Field Secretary, and is a good counsellor, eloquent speaker and devout Christian.

The attention of our readers is drawn to the announcement on another page of this paper, which affords a splendid opportunity to secure that great family paper, the Family Herald and Weekly Star, of Montreal, absolutely free of charge for the balance of 1902. The Family Herald and Weekly Star is well known to be in a class entirely by itself as a family paper, and the desire to introduce it into new homes has enabled us to make this arrangement with the publishers of that great paper. We learn that the Family Herald publishers will shortly announce that they will give a pleasant surprise, which will be mentioned in this paper.

The Annual Convention of the Provincial Sunday School Association is to be held in Germain Street, Baptist Church, St. John, October 14th, 15th and 16th.

Our readers in the lower end of Northumberland and in the counties of Gloucester and West Gloucester will be called on in the course of a few days by H. B. Anslow, in the interests of this paper and we trust that all will be prepared to meet him.

On Saturday a young man, Cormier by name, of Grand Anse, while working in Richards, mill Campbellton, had four toes taken off his right foot by a saw. He was standing with his toes over the opening through which the saw rises to make the cut, when some one stepped on the button, thus forcing the saw upwards, and through Cormier's foot severing four of the toes.—Events.

For the fall weddings we have received a large stock of choice wedding stationery for invitations and announcements, and those we have just printed, for two of Newcastle's popular young ladies, have received many flattering comments. These are done in the very latest style from type specially imported from the United States for this class of work.

Many who have seen them, were of the opinion that they must have been printed in St. John or Halifax, but for the benefit of those, and all, we wish to say that the best work is not done in large cities and that in all lines our work is on a par with that turned out in city offices. Newcastle people too often jump to the conclusion that they have to send outside their own town for goods which it would be more to their credit to procure at home and encourage home industry.

The Salvation Army will celebrate their Annual Harvest Thanksgiving Festival on Saturday, September 13th to Wednesday, Sept. 17th, inclusive. The officers in charge of the local corps solicit from the public a title of the beautiful blessings of field and store, in kind or cash as a thank offering to God. Anything received will be turned to good account to support the numerous benevolent institutions, as well as to continue and to extend the evangelical work of this successful organization. It is now generally conceded that the Army has become a very necessary recognized institution in this and in every other country where it operates. Their achievements are beyond controversy, highly praiseworthy.

PAGE WIRE FENCE

This is the Page Standard II Bar Fence, made of "Page" wire which is twice as strong as common wire. The continuous coil, note wavy appearance, allows for expansion and contraction which is important owing to Canadian climate. Our upright wires are in one piece and have strength of about 800 pounds. If made of pieces spliced at each horizontal, they would have a strength of only about 500 pounds. We also make gates, ornamental fences, poultry netting, nails and staples.
