The development of this survey is progressing rapidly.

Three additional building permits were taken out on 13th instant, and ground was broken on the same day. Plans for three additional houses are being prepared, and will be proceeded with in quick succession. Grading operations are being completed and sidewalk construction will re-commence on the 20th instant and be pushed with all due speed.

A maple tree will be planted in front of each lot within the next mionth, and a general transformation will take place in the appearance of this already beautiful location.

Have you invested in a lot? If you are interested in securing an ideal spot for a home, can you improve on this opportunity? Can you find anyone who will advise you against an investment in a Delaware Lot? Then why delay in making a selection? Are you waiting for prices to advance or is there any good reason you can give?
