THORONTO WHOLESALE MARKETS.

WEEKLY REVIEW.

TROUBLY.

November 25.

PRODUCE.

The market has been fairly active since our last, and that it was not more so seems due to small offerings. An active enquiry has prevailed for both flour and grain, but there has been but very, little available, save of barley, which has been held very firmly. Prices have been firm all over, and close at a considerable rise on last week's quotations in the case of flour, wheat, and burley. The week has been marked by an advance in railway rates consequent on the close of navigation, but for which we might probably have seen a still greater advance in prices. Stocks in store have not, on the whole, raised very much. They stood on Monday morning as follows:—Flour. 2500 bbls.; fall wheat, 45,187 bush.; pass, 32,60 bush.; and tye, 8,866 bush., against on the corresponding date last year—flour, 9,800 bbls.; fall wheat, 45,187 bush.; pass, 32,770 bush.; and fye, 242 bush. English advices show a considerable advance in prices. Flour is up 3d.; red wheat, 90,577 bush.; parky. 250 bush.; harley.

Markets have been excited during the last three days; they have certainly been advancing, but along with the advance there seems also to have prevailed unsettlement and a wide margin of values. During last week unsettled weather sectionsly delayed wheat-sowing, and threshing continued to show that the wheat crop has been very deficient. Prices were advancing, both for home-grown and foreugn wheat. The supply for last week was again large. Sales of home-grown and foreugn wheat. The supply for last week was again large. Sales of home-grown and foreugn wheat. The supply for last week was again large. Sales of home-grown and foreugn wheat. The supply for last week was again large. Sales of home-grown and foreugn wheat. The supply for last week was again large. Sales of home-grown and foreugn wheat. The supply for last week was again large. Sales of home-grown and foreugn wheat. The supply for last of wheat, against a weekly consumption of 454,-000 quarters. The quantity of flour and wheat in transit on the 18th inst. showed a dcrease, and was 1,825,000 quarters, against 1,963,000 on he 4th inst., and 2,472,000 on the corresponding e last year. The total quantity of wheat in ht on this continent and in transit for Europe the 5th inst. was 46.305,000 bushels, against all advices show the markets to have been m and operators confident. Beerbohm estiates that the required imports of wheat into a United Kingdom for the nine weeks to end Juited Kingdom for the nine weeks to end mber 3ist, 1880, will be about 2,553,846 qrs., hich 1,233,846 qrs. must come from Ameri-Atlantic ports, or 205,641 qrs. per week; to hipped in the six weeks ending December; and that of the remaining 1,300,000 qrs. e. will be 1,100,000 supplied from the quantity ansit on the 4th inst., and 200,000 more by nts from India and the Baltic, not then thed. In the two weeks ending on the and 13th inst. the supply was considerably in sess of the consumption, so that Beerbohm s not seem to have been expecting anything s not seem to have been expecting anything much so far. Stocks, however, are very low Great Britain; and are estimated to be more in two million quarters below those held at a time last year, a fact which must tend to ke the market very sensitive. The knowledge to the stock of flour at Liverpool on the Sist was the smallest on record, while that of eat was only 200,000 qrs., showing that the sumption for the preceding eight or nine eks had averaged nearly 90,000 qrs. per week, i consequently that they had only sufficient two weeks' demand on hand, seems to have rided the market, and to have been the first use of the subsequent advance. Conof the subsequent advance. Conof the subsequent advance. Conal advices are rather meagre. French
the were quiet in the week ending

ad with wheat but offerings in the country
the were small. The summary gave 13 marcarer; 26 unchanged; 3 calm, and 22 lower.

tion. Values of foreign wheat have varied but little, red winter being still quoted at equal to 48s. to 48s. 6d. per 480 lbs. free on rail at Havre or Rouen. The feeling in the first half of the next week became firmer, but on the 10th the above week became firmer, but on the 10th the above prices still ruled at Rouen. German turkets were firm. At Berlin wheat varied a good deal but did not decline. At Danzig the supply of wheat continued to be small and was expected to remain so, as prices in the interior were high. Large quantities of sprouted wheat were being sold to Stepting and Berlin, where these low descriptions are used to make up the want of rye. For exportation there was very little demand, nevertheless the general firmness of the trade had its influence here, and made prices rather dearer. At Hamburg there was a fair demand for wheat, with a support of the support of t with small receipts, and millers had to pay full prices. At Pesth, on the 31st October, wheat had given way on the spot, but closed firm for future deliveries. Rye was quiet, and ordinary quali-ties of barley were cheaper. The flour market was also very quiet. In Russia several of the Baltic Ports were closed by ice, and at Cronstadt, where last year navigation did not close till the beginning of December, about forty steamers were frozen in. Ship-ments thence of oats are consequently at a standstill. In the South the weather was not so severe, but the last accounts received from thence held out but little prespect of any material increase in the export movement. The large fleet of sailers which usually congregates in the Azof ports will probably have to seek employment elsewhere, the trade at Taganrog closed with sellers 2, and bids 4 higher, Dominon Savings sold at 1221, and bids rose 1. Bids ing about as dull as possible, and at Odessi also, the state of things was little, if any, better. On the 1st instant, receipts remained small, prices high, and exports reduced to a minimum, with no hope of improvement apparent. On this continent the week has been marked by the close of navigation; but with railroad communication so efficient as it has now been made, this fact will not exercise much influence on markets. A more important point is the appearance of a renewal of last year's "cornering" operations in the States, and signs of success in them. Western authority says "it is known that there have been quite large speculative purchases recently in Chicago on Eastern account;" and at New York we find the Bulletin saying that appearances indicate a repetition of last year's folly in another gigantic wheat deal, in which the outsiders are an important factor. However this may be, it is certain that prices have been going up in the States' markets; that Western markets are still as far as ever beyond shipping business, and that prices of No. 1 white at New York have been three to four cents above the shipping point. The deliveries of wheat at seaboard ports for the week ending November 13 were 3,493,592 bush. v. 3,639,336 bush. the previous week, and 3,489,919 bush the corresponding week in 1879. The export clearances from for Europe for the week were 2,517,-493 bush. v. 2,085,893 bush. the previous week, and for the last eight weeks, 23.639,041 bush. v. 30,463,759 bush the courseponding eight weeks in 1879. The visible supply of grain, comprising the stocks in granary at the principal points of accumulation at lake and seaboard ports, and in transit by lake, rail, and canal at the undermentioned dates was as follows:

cara No. 3a 300., and a car by sample equal to rejected at 750. on track. Street prices 80c, to \$1.06.

PEAS—Offerings have been very small, but the demand active at firm prices. No. 1 sold at 70c. last week, and No. 2 to-day at 68 and 69c., which prices would have been repeated. Street prices 65 to 69c.

HYE—Cars quiet at 88c.; street prices 88 to 89c. HAY—Cars of pressed have sold at \$12.5, with the range from \$11.50 to \$13. Receipts on the market have been large and sufficient, and prices lower at \$9 to \$13. White the general run from \$11 to \$12.

STRAW—The supply has been on the increase, and probably equal to the wants of the market. Oats and rye, in sheaves, have sold at \$8 to \$9.50.

POTATOES—Car-lots have been quiet in consequence of the frosty weather, but cars may be regarded as unchanged at 35 to 36c. Street receipts small, and prices steady at 40 to 45c.

APPLES—There seems to have been nothing doing in carfots. Street receipts have been of fair amount, and prices steady at \$1 to \$1.50, the inside price being for poor qualities.

POULTRY—Has come in with a rush both on the street and by rail. Box-lots have declined to 44 to 5c. per lb. for geese and fowl, and 7 to 8c. for turkeys and ducks, On the street fowl have been easy at 30 to 49c., ducks steady at \$1 to 60c.

PROVISIONS.

TRADE—Has remained generally quiet.
BUTTER—Offerings have been on the increase, but the demand has not. There are, however, some dealers still buying for shipment, but they are not inclined to pay former prices, and the market must be regarded as generally easier. Some selections have sold as low as 18½c, and it is not probable that any more would be paid for shipping lots; but very choice for the local market is still worth 19 to 19½c. in small lots. Round, lots for shipment with white out are worth from 17 to 18¢c, but we do not hear of much movement in them. Box lots have been coming in freely and selling slowly at 17 to 18¢c. for good qualities well packed, with occasionally 20¢c. for something extra choice: but inferior has gone down to 16¢c. Street receipts have been rather small and prices steady at 21 to 21¢c. for pound rolls, and 19 to 21¢c. for tubs and crocks. English advices say that stocks of lower grades are accumulating, and that those in Liverpool are dangerously large.

CHESSE—The only movement is in small parcels, and cent this is quiet; prices are steady at 13 to 14¢c.

EGGS—The supply of all sorts has been small and all wanted at firm prices. Limed have sold at 14 to 16¢c, but really fresh have brought 17 to 18¢c., with a good demand. Street receipts small, and prices ranging from 18 to 22¢c., according to quality.

PORK—There seems to be only about a dozen barrels in the market, and these are held at \$19, but do not seem to be wanted.

and prices ranging from 18 to 2&c., according to quality.

PORK—There seems to be only about a dozen barrels in the market, and these are held at \$19, but do not seem to be wanted.

BACON—The market has been very quiet, and prices seem to be unsettled: the tendency is certainly downwards. Cumberland is not bringing over \$1 to 9c., nor long-clear generally over 9 to 9jc., though some dealers still ask 10c. for cases. Rolls are selling fairly well at 10¢ to 11c. There are no shoulders offering.

HAMS—Sales have been very small, and prices seem to be weak at from 10¢c. for lots of 100, to 11 to 11¢ for small lots, the latter being exceptional.

Il to Ils for small lots, the latter being exceptional.

Lard—Is in better supply and seems easier. Pails are now selling at 12c., and tinnets have soid at Ild. There are no tierces in the market. Hoss—Rail lots have begun to offer, and have been selling slowly at \$5.50 to \$6.00; but as packers have now commenced operations an improved demand may be expected. Sales were made to-day at \$6.00. On the street receipts have been large and prices rather unsettled, but closing about \$6.00 to \$6.25.

Salt—Liverpool remains quiet and unchanged; lots of 100 bags have been worth 75c., and small lots 80 to \$5c. Dairy has ranged from \$1.25 to \$1.40, according to quantity and the quality of bags. Goderich active at \$1.05 per bushel for car-lots, and \$1.15 to \$1.20 for small lots; and at \$5.50 per ton in bulk.

Dried Applies—Seem to have been quiet but steady, with lots wanted at \$1 to 4c., and dealers selling barrefled at \$4 to 5c.

Hors—Have remained inactive; no enquiry has been heard, and no sales are reported. Prices seem brisk; first-class new would not bring over 20 to 22c., nor second-class over 15 to 17c. Choice yearlings held over at 12 to 15c.; but prices are nominal all over.

TRADE—Has generally been quiet.

BEEVES—Offerings have been fairly numerous through the week, but all of low grade cattle. There has been none offered nor wanted suitable for shipment, and prices of these may be regarded as purely nominal. Neither has there been any really good cattle suited for first-class stalls in the local market, though these are wanted, and if offered would bring \$4.25 to \$4.50. The best in have been light steers and heifers weighting 1,000 to 1,100 lbs., which have been selling at \$3.75 to \$4. Third-class have been selling at \$3.75 to \$4. Third-class have been abundant, and selling slowly at from \$3 to \$3.50. Feeders have been offered, but there was no demand for them, as the stalls are now full. No demand has been heard for anything save the supply of the local market; receipts have been fully sufficient for that in quantity, though not in quality, and sales have been slow at the above prices. CATTLE. sales have been slow at the above prices.

SHEEP—There has been no change in the situation. Very few have been offered, but they have been quite as many as were wanted. Prices remain nominally unchanged at \$3.50 to \$3.75 per cental, or \$5.50 to \$6 each for first-class weighing from 140 lbs. upwards, and \$4.50 to \$5.25 for second-class. Inferior are not wanted at any price. second-class. Inferior are not wanted at any price.

LAMSS—Have continued in active demand, and all offering have got aff at steady prices the market seemed a shade easier on Tuesday, but this was universally regarded as merely a temporary fluctuation. First-class, dressing from 12 lbs. upwards, are wanted at \$3.50 to \$3.5; second-class, dressing from 35 to 40 lbs. have sold fairly well at from \$3 to \$3.27, and inferiors have occasionally gone off about \$2.75, but are not much wanted at any price.

Calves—There have been quite as many offered as were wanted, and prices have usually been easy at \$4.50 to \$7.50 for inst-class dressing from 100 to 120 lbs., and \$3.50 to \$5.50 for second-class dressing not under 60 lbs., with inferior not wanted.

HIDES, SKINS, AND WOOL. TRADE—Has continued fairly active, but generally unchanged.

HIDES—Green have been offered freely and taken steadily at the advance of last week; but dealers seem unwilling to go any higher, particularly as the demand for cured is slack and prices of them are rather easy; sales have been made at 10½c, but the latest have been at 10½c, for cars.

CALPSKINS—Have been in lair supply for the season and selling at unchanged prices.

SHEEPSKINS—Offerings have been large, and prices unchanged at \$1.35 for the best green. Country lots have been offered freely, and have usually sold from 90c, to \$1.20.

WOOL—The market has been quiet but steady. Fleece has sold at 28c. for one round lot and several small lots, which price would have been repeated; but holders generally stand out for 30c. Super is quiet but easy, at 29 to 30c. with sales at the former figure; extra super has changed hands at 34c.

TALLOW—Has been more plentiful and rather easier, at 6 to 6½c. for lots of rendered, and rough unchanged.

Quotations stand as follows:—No. 1 inspected, choice, \$10 to \$10.50; No. 2 inspected, \$9 to \$9.50; No. 3 inspected, \$9 to \$9.50; No. 3 inspected, \$10 to \$10.50; No. 2 inspected, \$9 to \$9.50; wool, puckings, II to 12½c.; tallow, rough, 3½c.; rendered, 6 to 6½c. TRADE-Has continued fairly active, but gen-

Nov. 24.—The grain market to-day, notwither and flay, the grace shirthing researched, and life and standing to grain presented a dualler.

Nov. 24.—The grain market to-day, notwithstanding the good sleighing, presented a dull appearance. Receipts of barley are falling off, and
prices are firm. One load to-day brought \$1.04.
The quality of the barley offered is very poor,
and only occasionally a load of bright
heavy makes its appearance. Pork is the
principle article, and is eagerly sought for
at quotations. Haceipts of butter are small, but
little being offered at prices quoted. Wheat receipts are also falling off, as farmers are holding off in anticipation of higher prices. The
poultry market is out slimly supplied, and prices
are booming. Flour, \$5 to \$5.50. Wheat, \$1.00 to

"Good Prinkanship is very desirable in whatever station in life you are placed, and we are pleased to note that he system of American penmanship miroduced by Prof. G. A. Gaskell, of Manchester, New Hampehire, United States, is very popular in London, and is used in many of the leading commercial houses. It is called 'Gaskell's Compendium, and is simpler and more easily learned, and inay be written with greater ease and rapidity, than any of the old styles. 'Trubner & Co., Booksellers, 57 & 50 Ludgate Hill, have it for sale." — Pall Mail Gazele, London, "The salient advantages of Gaskell's system are its legibility, rapidity and beauty. There is no style of writing, plain or ornamental, business or epistolary, for lady or gentleman, which is not included in this admirable system. And we think that if anything at all could fire an indifferent writer with a desire to become an expert and elegant penman, an inspection of Mr. Gaskell's system would do so."—New York Datty Wiress.
