ARBOR DAY

Friday May 16th has been appointed Arbor Day in the Public Schools.

The co-operation of parents and all others in the district is invited, and attention should be given not only to the school grounds and premises, but to the roadsides and other public grounds as well.

To insure satisfactory results, good trees should be purchased by the Trustees and properly planted.

RETURNED HERO

The following is from a Vancouver paper.

E. W. Sheasgreen who three and a half years ago enlisted at the age of seventeen and went overseas with the 72nd Highlanders early in 1915 has returned looking little the worse for his experience in France. He served for eighteen months in the trenches and on the Somme he was buried to the eyes, when a shell burst near him. He was one of the few fortunate who came through the battle of Vimy Ridge unscathed.

It was the late Major Jack Sweet who led his company in the battle of Vimy.

E. W. Sheasgreen, or "Ted" as he is better known among his friends is a son of Mr. Joseph Sheasgreen, formerly a Newcastle boy, whose many friends will be pleased to hear of the safe return of his eldest son.

EASTERN STEAMSHIP LINE TRAVEL

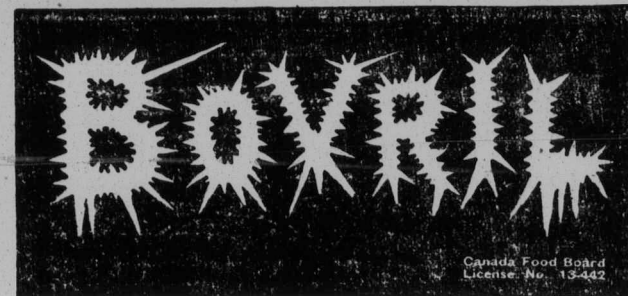

Passenger and Freight Service Between St. John and Boston via International Line A Boon to Shippers and Travelling Public.

With the opening of travel on all branches of the Eastern Steamship Line, it is safe to say there is none which offers greater advantages than that on the International Line, from Boston, to St. John, N. B., with intermediate stops at Eastport and Lunenburg, Maine.

Not only is this trip of the passenger service, which is particularly attractive from every viewpoint, but also of the general freight service, which is unusually heavy this season. The fact that two trips are made each week, every Monday and Friday out of Boston at 10 a. m. and every Wednesday and Saturday out of St. John, the Wednesday trip leaving at 9 a. m. stopping only at Eastport and Lunenburg, makes it especially attractive. Then too, by leaving St. John at 6 p. m., Saturday for Boston direct the tourist is enabled to get to Boston the following day at 1 p. m. Leaving Boston at 10 a. m. the steamship is due at St. John at one o'clock the next afternoon.

Needless to say the steamship assigned to this service is equipped with every accommodation. The state-rooms are commodious and well ventilated and the meals served on board ship are the best the market affords.

For expeditious transportation and handling of freight this line affords the best possible service, and with the advantage of the Metropolitan Line, from New York to Boston, the convenience of a direct service, with special facilities for the transportation of automobiles, horses and express freight, is unequalled. Then too, there is the special advantage of the low rates of fare.

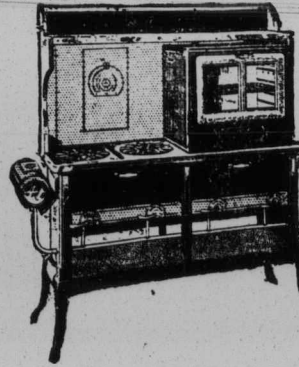

Safe, Clean Cooking

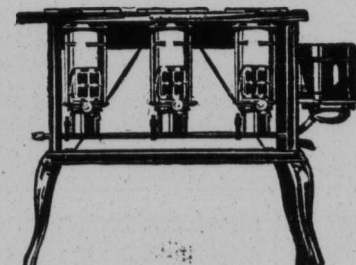

SAFE, because the oil tank is away from the heat, and because the height of flame cannot vary. **Clean**, because there are no wicks to smoke or need trimming.

Burners can be regulated to give degree of heat desired, and when not in operation are left completely up out of oil contact. The asbestos lining and dead air space, and glass door of "Success" oven ensure heat retention and visible baking.

An economical cooker and baker, beautiful in appearance.

Florence Automatic WICKLESS OILSTOVES

"New Perfection"

OILSTOVES with WICKS

OILSTOVES are More Popular than Ever

The two named above are giving complete satisfaction, we can refer you to a large number of satisfied users, many of whom have stated they would not be without an Oilstove for twice the price.

Made with one, two, three and four Burners

A SHOE FOR THE FUSSY MAN

Yes, it's true that some men are mighty fussy about their footwear—as particular, if not more so, than some women. Still, we don't blame them. Shoes do make such a difference in a man's attire; they are more conspicuous than women's. Our shoes satisfy very critical men.
