Hamilton Asks For Return of Hydro Bonds

MINIMUM WAGE FOR THE WHOLE OF THE DOMINION

DOMINION-WIDE MINIMUM WAGE PLAN APPROVED

Royal Commission Favors Principle As Applied to Women Workers.

OTTAWA, May 1.—Dominion-wide application of the principle of a minimum wage and a forty-eight hour working week for all women and girls, excepting those engaged in domestic or agricultural employment was strongly favored by the Royal Commission on the Unification of Labor Laws at the session here yesterday.

Other important items at the session included the adoption of a motion that a committee of five be appointed to report upon the unification and harmonizing of law on industrial disputes within Canada, and a further recommendation that all laws at present existing in any province dealing with the improvement of sanitation or the protection of life should be made general to such other industries as may be possible throughout the Dominion.

The resolution dealing with the pay and working hours of women

Sugar Now 30c Per Pound in Detroit

DETROIT, May 1.—Retail sugar prices will be advanced to 30 cents a pound in Detroit today. Sugar wholesalers say this price is not abnormal, in view of the fact that sugar is selling in Chicago for 30 cents wholesale.

It was stated that a number of dealers are asking 28 cents.

There is no granulated sugar available in the city, and there is a shortage of all varieties which will be aggravated because of lack of freight facilities.

AMERICAN CRITIC PRAISES CANUCK OLYMPIC HOCKEY

NEW YORK, May 1.—Under the caption "Prepare—Olympic slogan" The Evening Telegram comments on the victory of the Winnipeg Falcons at Antwerp, Sunday, as follows: "Canada's tidy triumph in the Olympic hockey tournament emphasizes again how essential it is for America to drive forward in its work of preparation for the international events to come. Canada's triumph was particularly hard to accept because America had made such a wonderful showing in its opening game against Switzerland, winning by a score of 29 to 0. However the Canadians had the goods. Let us be the first to give credit where credit is due. Canada's team composed of veterans, fully deserved the honors it acquired. It played fast hockey from the outset.

While the difference in goals between Canada and the United States was slight, reports indicate that the players of the Dominion played with exceptional skill and plainly showed their superiority."

A DAY OF SEDANS IN AUTO WORLD

Edward Schipper, a member of the Society of Automotive Engineers in a recent article in Motor World, said:

"Probably the most noticeable development in the automobile industry will be the almost entire replacement of the touring car by the Sedan and other types of enclosed bodies in the higher-priced cars and vastly greater percentage of enclosed cars as compared with the open in the lower-priced field.

Apparently this is the day of the Sedan. Half of the cars on display at this year's automobile shows were of the Sedan type. The public has always recognized the advantages of the Sedan for winter use. Now there has come appreciation of the fact that the Sedan is cooler than other types for summer use.

In recognition of this trend in the automobile buying market, Willys-Overland Limited has set aside May 10 to 15, as Overland Sedan Week, when the attention of motorists and those contemplating joining the ranks of automobile owners will be focussed on the new Overland Sedan with its Triplex Springs. In this city and every city in Canada Sedan displays will be made by Overland dealers with a view to affording a nationwide possible study of the advantages of closed cars.

PRETTY GIRLS KNOCKED OFF BY ARCHERY OF DAN CUPID

CHICAGO, May 1.—Dan Cupid has invaded Packington and shot up the place pretty thoroughly. Despite the H.C.L. twenty-one girls employed in the office of Wilson & Co., alone, have announced their betrothal and forthcoming marriage. Other concerns report about the same proportion. Some of the girls recently married are continuing their work as stenographers and clerks, and by combining their salaries with that of their husbands manage to beat old Hi Cost.

CHILD FATALLY SCALDED

WELLAND, May 1.—Little Billy Nihulak, aged three years and six months, was scalded to death here by falling into a tub of boiling water. The tragedy happened at the parents' home on Wright street. The little fellow lived but a few hours. He was playing near the tub and while his mother's back was turned ran and fell into the water.

PREFERS AMERICAN GIRL TO HAREM IN PERSIA

NEW YORK, May 1.—East met West here with the marriage of Ahmed Sobrah, former Secretary to the Persian legation and Juanita Storch, Santa Rosa, Calif. Sobrah could have his harem in his home town, but preferred one American girl.

NO MAYDAY TROUBLE FOR ST. CATHARINES

As far as The Journal could ascertain this afternoon by making enquiries from labor leaders there are no threatened strikes pending in the city. Each trade has either had its motion granted or promises of \$1.50 Mayday is not likely to be productive of any trouble in St. Catharines.

2,000 LICENSES HAVE BEEN ISSUED

Up to today, Fred J. Graves has issued about 2,000 auto licenses to owners in St. Catharines, Merrilton, Thorold, Port Dalhousie and Deseronto.

Get Off Lightly For Robbing A Woman

Magistrate Campbell today sentenced to an indeterminate term in the reformatory Alex. Pecki, an Italian who was convicted of robbing Mrs. Vasica Zumik with menaces.

Pecki went to the woman's house and demanded her money. She had \$30 but refused to give it to him whereupon he forced it from her.

Pecki denied the accusation but the evidence of the woman was conclusive.

The Journal Will Suspend Publication

With the present issue The Journal voluntarily suspended publication. It will not appear after today unless a plan of reorganization which has partly matured is carried out, or some other disposition of the property is made that will permit of a continuance.

Though reluctant to take this step, the ever-increasing cost of all commodities that enter into the printing and publishing business has brought the time when operation is carried on at a loss. The prospect is that newspaper news already very high and scarce, will be advanced shortly to \$100 a ton and may perhaps go considerably higher. If this should occur not a few other newspapers will find it a problem to carry on. In addition to this the increased cost of living makes it necessary for employees to present a new scale of wages, which it is understood, will be on the average of ten dollars per week more per man. With our present staff the increase would mean a total of \$100 per man. Under all circumstances, therefore, the management find it impracticable to publish except with greatly enlarged capital.

The Journal is one of the oldest newspapers in Ontario. It has been published as a daily since 1859 and as a weekly prior to that date. Since purchasing the business in 1916, the present publisher has to the best of his ability and knowledge endeavored to conduct the paper in the interests of the community. He feels grateful to the many business friends and acquaintances who have supported the paper since that time.

The one condition toward which The Journal, in common with many other newspapers in Canada, feels critical is that which allows the raw material of Canada's forests to be made into newsprint and shipped across the border to over-sized metropolitan newspapers that are offering fabulous prices for the newsprint tonnage. If this export continues it is evident that other newspapers which have long been published and useful institutions will be forced to surrender. The Journal has letters on file from New York offering 9 1/2 cents a pound for newsprint in the roll. Canadian papers have to pay the paper accordingly. It may be found later, by Canadian newspaper manufacturers that they are killing the goose that lays the golden egg.

The Journal's liabilities are comparatively small but want of working capital together with a loss on operation makes it prudent to close the books.

People Advised To Imitate Bee

HON. MANNING DOHERTY SPEAKS OF VALUE OF AGRICULTURE

Hon. Manning W. Doherty, Minister of Agriculture for the Province complimenting the Toronto Beekeeper's Association last night upon the enthusiasm its members were working up among beekeepers for the public benefit, questioned whether many outside those interested in agriculture in the Province grasped the fact that the annual production from its bee industry amounted to possibly \$3,000,000 per year. At a time when Canada must depend largely upon its agricultural production to carry it over its present crisis and the troublous years ahead the source of help from beekeeping must be overlooked, said Hon. Mr. Doherty, who invited the people of Canada to prepare for the future by imitating the bee in this matter of production and conservation, and, if the yield, Canada would weather any storm ahead, no matter how severe.

Hon. Mr. Doherty expressed his keen appreciation of the work of the association, roused the members his warm support, and reminded them that this year the Legislature would pass amendments with a view to stamping out foul brood.

THE BAKING OF GRANDMOTHER'S DAYS

Grandmother's baking is still a wonderful memory with most people today. For it is but a short time ago—25 to 30 years—when all baking was done at home.

Many of the older residents will be glad to know that the Nut-Krust Baking Co. Limited, have recently opened a bakery here with the avowed intention of supplying the city with bread, cakes and other products which have the real, old-fashioned flavor and "keeping" qualities of grandmother's days. They accomplish this by using only the finest ingredients and no "substitutes" whatever.

This Nut-Krust Bakery is a link in a chain of bakeries opened by the Nut-Krust institution in other cities and towns, and is similar in construction. It presents a very inviting appearance, and with its bright clean, snow-white exterior and the attractive display of bakery products within. Inside, white-clothed bakers may be seen working before the wonderful Electric Ovens, the right to use which in Canada is exclusively Nut-Krust's. The floors are tiled in white, and the walls, counters and shelves enamelled white. It may be truly said that the Nut-Krust institution lives up to its ideal—Exacting Clean—Quality Supreme.

The present Nut-Krust bakery in St. Catharines is located at 142 St. Paul Street. It is understood that others are contemplated in the near future.

A NEW BLOOD-FOOD HAS BEEN DISCOVERED THAT WORKS WONDERS

Said to Put New Life Into People That are Run-Down.

For years doctors have been searching for a combination that would enable them to inject into thin blood the elements it lacked. This can now be done, and an weak blooded person can quickly be made strong and well.

Already a small army of ailing people has proved the merit of taking after each meal with a sip or two of water, two chocolate-coated Ferrozone Tablets. This is easily done and even one week's use of this wonderful blood food will prove how nourishing and strengthening and flesh-building the treatment is.

Just think of it. Ferrozone uplifts the entire nervous system, renews the blood, makes it rich and red—gives the sort of aid that's needed in throwing off weakness and languor.

Tens of thousands enjoy the advantages of renewed health through Ferrozone. If you'll only use it, you'll surely grow strong too; its beneficial action is noticed even in a week. You see it goes right to work, removes the causes of the trouble and then quickly makes a cure.

For those who sleep poorly and have nervous apprehensions, Ferrozone is a boon; it is a specialist in such cases.

Where there is paleness, poor appetite and languor, Ferrozone makes the patient feel like new in a few days. In tiredness, nerve exhaustion, spring fever and debility, the power of Ferrozone is known from coast to coast and universally used with grand results.

Let Ferrozone build you up, let it win you back to robust health—it will do so quickly if you give it the chance. Sold by all dealers. 50c. per box or six boxes for \$2.50. Remember the name Ferrozone.

NEWS BRIEFS

The Yukon Legislature has passed a bill prohibiting the sale of intoxicants for beverages.

Arthur J. Dunn, County Registrar of Kent, and formerly Mayor and Alderman of Chatham, is dead.

Engineer Murray Dide was instantly killed in a head-on collision of switch engines in a dense fog in the Dominion Steel Corporation railway yards at Sydney, N. S.

The Orthodox Mennonites in Manitoba and Saskatchewan plan to leave Canada this summer and establish a colony in the Mississippi Valley.

The resolution to extend the time for manufacture, importation and sale of oleomargarine in Canada was passed in the Commons and the bill introduced.

Definite Policy On Hydro Radials

Just as soon as the Drury Government is convinced that unnecessary duplication will be avoided, that financial conditions are favorable and labor and material are obtainable on reasonable terms the word will be given for the start upon Hydro radials. The Prime Minister gave that assurance yesterday to a great deputation of municipal representatives that waited upon the Government to urge the Government to guarantee Hydro bonds for Hydro adial construction. The Prime Minister made it clear that he and his colleagues were Hydro men. They had no bond of interest with the corporations who wanted to exploit the natural resources of the Province.

PREPARE FOR A LONG STRUGGLE IN RAIL YARDS

Roads Declare Vacant Jobs of All Who Quit; Import New Men.

BUFFALO, May 1.—Declarations from both sides in the Buffalo railroad tie-up yesterday indicated preparations for a long fight. The railroads vacant declared the positions of all the strikers and announced that men seeking re-employment must come on as new employees. The strikers reiterated determination not to go back until their demands were granted and it was said that many of them were seeking other jobs.

Government intervention through action by Federal Attorney Lockwood was another development yesterday. Mr. Lockwood asked permission of the attorney general to apply for an injunction which would force the strikers to return to work and also force the railroads to accept all the men in their former positions. Late last night there was no reply from the attorney general.

Break in the Ranks?

Possibility of a break in the ranks of the yardmen's association was rumored last night. It was said that the more radical members are in conflict with the conservatives. Much bitterness was engendered over the peace settlement of two weeks ago. This bitterness was directed against the officers of the no-waiting, according to reports.

A break within the ranks of the organization may result in some of the men going back to work as individuals while the radical element will hold out.

London Street Car Employees Go On Strike

Struggle Between Company and Men Appears Likely to Last Several Days.

LONDON, Ont., May 1.—At midnight last night the cars of the London Street Railway were placed in the barns and today they will not run. The employees have struck to enforce their demands for an increase in wages from 39 and 44 cents an hour to 65 cents.

The strike is the culmination of a long dispute in which the rate of fares on the railway is the key-note to the situation. The company claims it cannot pay the wages the men ask unless higher fares are granted. The City Council last year ended a strike in July by allowing the company to give six and eight tickets for a quarter instead of seven and nine. A by-law brought an action and had the by-law killed. The by-law was put to a vote of the people in January and was defeated.

A NEW BLOOD-FOOD HAS BEEN DISCOVERED THAT WORKS WONDERS

Said to Put New Life Into People That are Run-Down.

Will Ask For Return Of Six Million Bonds

Hamilton Aldermen Convinced Hydro Radials Won't Be Started For a Year.

HAMILTON, May 1.—Costing \$4 million from what Premier Drury told them yesterday that the Port Credit-Hamilton Hydro Radial would not be started for at least a year or two, members of the City Council will ask for the return of their \$6,000,000 bonds deposited with the Hydro Radial Association that the city has guaranteed. Controller Jutten thinks that Sir Adam Beck would have conferred a favor on Premier Drury if he had remained away from yesterday's meeting, and he thinks that an effort is being made to sidetrack Sir Adam on Hydro radial matters. Sir Adam Beck assured Ald. Tope yesterday that the Hydro would have to take over the Dominion Power & Transmission Company, but that it could not be done in a minute. Ald. Tope, who is chairman of the Street Railway Committee, does not know whether, under the circumstances his committee should seek a better service from this company.

Oleo Just As Good As Some Butter Sold

OTTAWA, May 1.—Oleomargarine has had a large sale in Canada since restrictions on its sale were removed on December 10, 1917. Up to the present 18,358,046 pounds of this butter substitute have been manufactured in Canada, while 12,071,287 pounds were imported up to the end of February last. These figures were given the house tonight by Hon. S. F. Tolmie, minister of agriculture, when a resolution was under discussion providing for extending the time during which oleo may be manufactured and imported into this country to August 31, 1921, and for sale until March 1, 1922.

Before the house adjourned only one opponent to the sale of oleo in Canada had registered his protest. That was Dr. J. W. Edwards of Frontenac. He explained that he spoke on behalf of a dairy constituency. He denied that there was a scarcity of butter: "I don't think there is any real ground for the argument that there is a scarcity of butter," he said.

UNITED STATES FACES OIL SHORTAGE; SAYS GEOLOGER

WASHINGTON, May 1.—America has nearly reached the peak of oil production and must consider "promptly the acquisition of foreign oil reserves" or face a shortage according to a statement secured today from David White, chief geological surveyor.

CHILD FATALLY SCALDED

WELLAND, May 1.—Little Billy Nihulak, aged three years and six months, was scalded to death here by falling into a tub of boiling water. The tragedy happened at the parents' home on Wright street. The little fellow lived but a few hours. He was playing near the tub and while his mother's back was turned ran and fell into the water.

PREFERS AMERICAN GIRL TO HAREM IN PERSIA

NEW YORK, May 1.—East met West here with the marriage of Ahmed Sobrah, former Secretary to the Persian legation and Juanita Storch, Santa Rosa, Calif. Sobrah could have his harem in his home town, but preferred one American girl.

points in alities.

OLD TO JURY: WHITE CHARGED

April 30—The Tabor, 80-year-old indictment charging her with aiding in an illicit caused the Maud Tabor the jury yesterday.
