England for the Canadian Government was \$984,000. The cost of material, coinage and transportation when the goods were delivered in Canada was \$507,845, leaving a net profit to the Dominion of \$476,155. The profits on copper coinage were \$27,788 making a total profit of a little over half a million dollars. These coins manufactured for Canada were of the same denomination and stamped in the same way as those which will be made at Ottawa. But in place of paying 3 per cent. or say \$15,000 on the average for coinage, the estimates show that the country will require at least \$100,000 a year to pay the running expenses of the mint and \$20,000 for interest. The total coinage charge last year was less than \$31,000 for over \$1,000,000 in silver and copper coin a quantity far larger than usual. Building and machinery have cost nearly double the amount that Mr. Fielding estimated when he introduced his measure for the establishment of the Mint. Evidently the cost of operation will be at least fifty per cent. greater than the Minister supposed when he undertook this enterprise. The prospect now is that a large part of the profit hitherto made on coinage will be expended in keeping up the new establishment here and paying the salaries of a long list of imported officials connected with it.

At present the Mint cannot use Canadian metal, as there is no plant in Canada to refine and prepare it. It is stated that a refinery will be added to the Mint, which will greatly increase the outlay or plant and operation.

MR. FISHER AS A CHEESE CURER.

When Mr. Fisher started his system of Government cheese curing rooms he claimed that there was money in it for farmers and investors. By way of proof four establishments were operated last year by the Government. At these points the Government agents bought cheese uncured and sold them cured. The quantity of cheese so handled was about 15 tons, and the proceeds were \$519.62 more than the cost. As there was some advance in the price of cheese during the period of holding, this would seem to be not more than the trader's profit.

But the main operation at these establishments was that of curing cheese for the manufacturers at a certain charge per pound, the Government receiving the amount saved from shrinkage by Mr. Fisher's scientific processes. The following statement shows how this business worked out in each of the four establishments.

HIGH FINANCE AT BROCKVILLE.

At Brockville the receipts from curing charges and saving of shrinkage were \$847.52. To earn this much the Government paid to Superintendent Somerville (whose initials are N.G.) \$533.15. Another man was paid for services \$45, a third \$82.74, a fourth \$14.52, a fifth (for hauling cheese) \$189.75, a sixth \$45, a seventh \$73.79, an eighth \$188.71. For cheese boxes the cost was \$359.50. For paraffin wax \$126.63. There were also charges for lumber, electric light and other supplies including ice, bringing the whole bill up to \$1,883.71. So we have this financial result of the operations of the corps of cheese curers at Brockville:

Expenditure	\$1,883.71
Receipts	847.52
Deficit	1,036.19

TWO HANDSOME DEFICITS.

At Cowansville the showing was a little better, as follows:

Receipts	1,252.29
Expenses	1,632.01
Deficit	379.72

At St. Hyacinthe the following return was made:

Receipts	2,247.76
Expenses	3,527.02
Deficit	1,279.26

EARNED NEARLY NINE CENTS TO THE DOLLAR COST

The most remarkable showing was that at Woodstock where the curing room was financed as follows:

Earnings	78.30
Expenses	889.57
Deficit	811.20

To earn the \$78.30 gross, Joseph Burgess was paid for five months at the rate of \$1,000 a year with \$42.80 travelling expenses, or \$459.47 in all. He had an assistant for four months at \$50 a month and \$10 expenses. He accomplished \$18 worth of telephoning. He used \$25.50 worth of butter color, \$20.50 worth of lumber, incurred laundry bills \$7.02. He required half a dozen aprons costing \$2.28, and "supplies" to the value of \$8.22.

It is fair, however, to state that beside this custom curing the superintendent purchased 1,574 lbs. of cheese which was cured at the Woodstock room, and would seem to have made a net profit of between one cent and one and a half cents a pound, say \$22 altogether, making the total earnings of this enterprise \$100.30 against \$889.57 expenses. How many farmers and cheese makers can afford to get rich by this process?

Thomas David, an Assyrian, found guilty of manslaughter, having shot and killed his wife, was sentenced to five years in Dorchester Penitentiary, by Judge McLeod, at Fredericton, N.B., on Saturday last.

The Hilary term of the Supreme Court opened here yesterday. The only criminal case is that of the King vs. E. O. Brown. In consequence of the illness of Premier Peters, H. J. Palmer acts as Attorney General.

James Charlton, yard master of the Street Department, St. John, N.B., aged 66, fell dead in his home, Leinster Street, Monday evening. He had been working all day but complaining of feeling bad. After supper he was in the act of lying down on a sofa when he fell over dead.

The London Times, which has been in the Walter family for over a hundred years, has changed hands. C. A. Pearson has secured the controlling interest in the paper. Mr. Pearson is the owner or controller of several other newspapers in London and other English cities.

The last of libel suits, Emerson vs. Crockett, was heard in the Supreme Court at Fredericton, N.B., on Monday morning of this week, when Mr. Hazen moved for quashing the indictment and the discharge of Crockett from custody. There being no opposition, Judge McLeod granted the motion.

It is stated that the Canadian troops in the garrison at Halifax, and at Esquimaux, B.C., are to be replaced by regiments from England in April. The Canadian Government will pay all the expenses, as at present, Canada finds it hard to enlist men, and they cost more than the troops from England.

A meat inspector for this Province has been appointed by the Minister of Agriculture, and will soon arrive here. His duties include the inspection of all pork carcasses intended for export, etc. In order to fulfill the requirements of inspection, all pork carcasses should be dressed with the internal organs attached.

Following a number of detonations on the 9th, a portion of the cone of Mount Vesuvius, at Naples, sank within the crater, causing great internal ebullitions, enormous columns of smoke rose from the crater and spread out for miles. President Matteucci, Director of the Observatory, said that there was no danger of a new eruption, the sinking of the cone being merely a geological phenomenon.

The winter steamers left here for Georgetown on Wednesday last. But representations were made to the Marine Department by the Board of Trade, to the effect that the mild weather and absence of ice at Charlottetown did not seem to justify the step taken. Whether for this reason or otherwise, they returned to Charlottetown. The Minto came here from Pictou Saturday and the Stanley on Monday, and so on.

Sunday morning Chas. Cammings, of Belleville, Ont., took a drink of carbolic acid thinking that it was whiskey, which he had brought home on Saturday night. The two bottles stood together on the shelf in a closet and in the dark he secured the wrong bottle, taking a big drink. He immediately noticed his mistake and rushed to his brother's room, suffering terrible agony. His brother at once ran for a doctor, but when the latter arrived Cummings was dead.

Sixteen children were trampled to death and forty others injured, many of whom cannot live, in a panic arising from a mad rush for theatre seats Saturday afternoon at Burnley, England. The scene was terrible and the cries of the injured and the moans of the dying caused fearful excitement. The police found the stairway packed with little bodies, many crushed out of recognition. The pitiful scene was intensified by the presence of hundreds of parents searching for the missing children.

In a desperate fire in a twelve-story building in New York on Friday night last, four firemen lost their lives. The fire was one of the worst experienced in New York for a long time. The monetary loss is estimated at \$1,500,000. The brave firemen, in the discharge of their perilous duty and in their efforts to save lives were everywhere. In the midst of their heroic work, all below the seventh story, in the interior, crashed into the basement burning thirty firemen in the process. All but four emerged with their lives.

Between fifty and seventy-five persons were burned to death Monday in a fire which destroyed Rhodes' Theatre at Boyertown, Pa. The building was crowded with members of St. John's Lutheran Sunday School, attending a benefit concert. A tank exploded alarming the audience and the actors endeavoring to quiet them upon the oil-footlights, setting the place on fire. Seven hundred were present and crowded in a wild rush. Women and children were trampled on and many who escaped the flames died after getting out. In many cases entire families were wiped out and hundreds were injured. Later accounts place the dead at 160.

It is announced from Winnipeg that the Chicago and Great Western Railway is to be taken into C. P. R., thus giving a new through line to the Coast via St. Paul and the Soo. From Toronto through trains to the Coast may go via C. P. R., Parc Marquette and Great Western, or via the Soo and C. P. R. The Chicago and Great Western operates 851 miles of lines which it owns outright, and about 800 miles of leased lines. Line from Chicago to St. Paul is 401 miles long. The capital stock issued is for \$92,000,000, but the preferred debentures, of \$15,000,000, alone, have received dividends.

Winnipeg advises of the 7th day: The mild weather and absence of snow have been a blessing to the people who have been in those districts where it was impossible to put up sufficient hay last fall for winter fodder. Up to the present the cattle have been browsing on the Prairies, and it has been unnecessary to give them any extra feed. Thus the farmers and stockmen have effected an immense saving on their hay supplies. Some stockmen killed off or sold to dealers a considerable portion of their herds, and others secured a supply of straw to help them out in the face of pressure, and it is now felt that the winter will be passed without loss.

LOCAL AND OTHER ITEMS.

Chief Justice Tuck, of New Brunswick, has resigned. He is 76 years of age, and up to quite recently has been quite vigorous, mentally and physically.

Rev. Theodore Gallant, of St. Dunstan's College, underwent an operation for appendicitis in the Charlottetown Hospital last week. He is progressing favorably.

The Asiatic Exclusion League wants the city of Vancouver to purchase a few gatling guns for preserving the peace if another outbreak with the Japanese should occur there. One man declares that a Maxim machine gun is now quartered by Japanese on Powell street.

Not since the great Sazby gale of Oct. 4, 1870, has Digby, N. S., experienced a storm such as that on the 9th inst., when the wind blew from 80 miles an hour, causing a terrific sea and tide in the Bay of Fundy. Reports received all along the coast tell of terrible havoc wrought by the storm, and the loss will amount to thousands of dollars.

The C. P. R. steamer Mount Royal which had been out for thirty days, and was thought to have been lost, reached Charlottetown, P.E.I., on the 7th, proceeding slowly under her own steam. She was bound from Antwerp for St. John, N.B., and had about 300 passengers and 100 of a crew. Her boilers went out of order and she put back. All were well.

While watching a train go by, Mrs. Mary Williams, of Moncton, dropped dead in the kitchen of her home Monday morning. She had just come to breakfast, and was looking out the window, when she fell to the floor and expired a minute later in the arms of her daughter. She was seventy-five years old, a widow, and came there from Kent County three months ago.

Their wagon struck a train running forty miles an hour, and Samuel Crouch, David Tole and Crouch's twenty-five year old daughter were hurled about a hundred feet. The young woman's neck was broken, Crouch was scalped and killed, and Tole is likely to die. The men were old and respected farmers from near Elmham, Ont., and the accident occurred at Cedar Springs, Saturday night last at a crossing of the Pere Marquette Railway.

Martin Gallant, brakeman on the L.C.R., was killed early Sunday morning at Red Pine, N.B., by falling from a train. Gallant was forward brakeman on Delmar's special east bound freight. At half past seven the trainman inspecting the road found, the unfortunate train man lying beside the track at the pump-house. Life was not extinct, but he passed away a few minutes after being found. One leg was cut off and there were other slight injuries to the body. He had evidently slid to death as the injuries apart from the amputated leg were of a superficial character.

The contract has been awarded by the Grand Trunk Pacific to Foley Bros. and Laeser, a Winnipeg and St. Paul contracting firm, for the construction of 126 miles from Edmonton to Wolf Creek. The section west of Edmonton will be a very costly piece of work, more expensive than any part of the main line yet under contract. No inconsiderable part of it is through scrub and marsh, running to the foot hills of the Rocky Mountains. A section goes through Edmonton, but does not include terminals in that city. The cost is between \$40,000 and \$50,000 per mile or a total of between \$5,000,000 and \$6,000,000.

Mr. George V. McInerney, ex-M.P., died at his home, St. John, N.B., early last Sunday morning, after a severe illness of heart disease. The late Mr. McInerney was only fifty years of age at the time of his death. He was an eminent lawyer and a splendid orator. He was a Conservative in politics and was twice elected to the House of Commons. Had he lived, his great talents, his wonderful oratory and his genial gentlemanly disposition would surely have placed him in the front rank of Canadian statesmen. He was an M.A. of his Alma Mater, an LL.B. and a K.C. He was a devout Catholic and a Grand Trustee of the C.M.B.A. R.I.P.
