shooting affair occurred on Gannon Road, between North Sydney and Sydney Mines on Saturday night, as a result of which Mrs. Michael Nicholson is in the Harbor View Hospital with a bullet wound in her 'right breast.

It is difficult to get exact information about the affair, but from what can be gathered it appears that Nicholson and a friend of his came home Saturday night and were having a chat. The friend pulled a revolver from his pocket and placed it on the table, jokingly telling Nicholson to "try that on himself." Mrs. Nicholson picked up the gun, and whether accidentally or not it cannot was taken to Harbor View Hospital and Dr. Perkin, who is looking after Dr. Love's practice during the latter's solo.

## CAKE.

BY H. L. RANN.

Cake is a vicious compound of eggs. flour, sugar which is highly thought of by everybody at the time it is being eaten. Som e people eat cake with the utmost abandon and are. able to mingle gaily in the con-

quite a length of time, while others have to be operated upon at once with a hot water bag.

Cake is usually made about fifteen minutes to six as a substitute for the evening meal. Whenever a housewife finds that she hasn't anything for supper but the vinegar cruet and a change of doilies, she stirs up a spenge cake and invites inspection of its contents. Sometimes this inspection is so satisfactory that most of the cake is left over for the next day

and rendered into cottage pudding. The most romantic form of cake is the bridal variety, which is built up in tri-colored layers and upholstered in frosting, into which is neatly etched the first name of the bride, in red berries, producing a very pleasing memorial effect. Samples of this cake are always sent by mail to distant relatives whose presents were worth

disting in the home paper. It is a scientific fact that a section of bridal cake placed under the pillow of an old maid who is not married will cause her to dream of her future

husband. If she eats the cake, sh will not only dream of her future husband but of all his relatives, unto the third and and fourth generations.

The most durable variety of cake is ruit cake. His structure is both fireproof and antiseptic, and will defy the tooth of time longer than a concrete garage. It is usually made in July and allowed to ripen and ferment in the vegetable cellar until Christmas when it is carved with a cross-cut saw and eaten with a rapt look by small boys, who are later seized with remorse and other lively emotions. Angel food cake is a mixture of eggs and hope and can be eaten withcut saying good bye to the members of the family. Devil's food is a profane variety which is introduced by some versation f o r other name when the new minister is present It is a tenacious article of food, and should not be trifled with

### Sprained Ankle Saturday Worked Again Monday Douglas' Egyptian Liniment Bid the Trick.

Mr. A. Carman, one of Davisville,

Mr. A. Carman, one of Davisville, Ontario's energetic young men, writes:

"Some time ago I was getting over a wire fence, and when lifting my left foot, my right slipped, and in falling the heel of my boot caught the second wire, thus spraining my ankle.

From the pain I thought my leg was broken. I managed to get home, suffering great agony. My father walked over a mile to the druggist's, who sold him a bottle of Rgyptian Liniment, which we applied with surprising results, for it relieved the pain almost instantly, and on the next day, Sunday, I was able to put my slipper on.

Though this was the worst accident I ever had, I was able to work on Monday without the loss of a single day."

Accidents will happen. Don't be without a bottle of Douglas' Rgyptian Liniment.

James Moyse's Residence, Topsail, Consumed-Family Barely Escape with Their Lives

At 1 o'clock this morning a destruc-tve fire broke out at Topsail and the residences of Mr. James Moyse, and that of his sister-in-law, Mrs. Joseph Moyse, were burned to the ground. How the fire occurred is not known, but at the hour named Mr. Movse woke from his slumbers and found himsel choking with the dense smoke which filled the room. Jumping from his bed he found the house enveloped in flames, and hastily calling his children they had to jump through the window clad in their night clothes, egress by the doors being impossible owing to the flames having control at the front of the house. Mrs. Joseph Moyse keeps the post office in another part of the structure, which was a double tenement and this also was wiped out. All the furniture, Porugal Cove, met with a serious loss on Thursday night. A Government well at the rear of his stable which in the houses, and we learn that no insurance was effected on either. The loss to Mr. and Mrs. Moyse is a very severe one at this season of the year Mr. Moyse was in town yesterday and had intended to remain but later changed his mind. Had he not been home it is likely that all in the dwel-lings would have been burned to death, as when Mr. Moyse was awak-ened they were sleeping soundly and he had some difficulty in arousing

#### Destructive Fire A Paris Chemist Has Discovered How to Grow Hair.

MCMURDO HAS IT.

In Paris the ladies have entirely abandoned wearing rats, which is due entirely to this new discovery.

It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-look-for article is proven every day.

The French are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA and is being sold with a guarantee to cure dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant dressing, and is sold by your druggist. A large, generous bottle can be purchased for 50 cents. McMurdo &Co., Wholesale Agent.
