Seats now on sale, Atlantic Bookstore.

PRICES: NIGHT 20, 30, 50 and 75c.
MATINEE 10, 20 and 30c.

PASSENGERS AND CREW LANDED SAFELY

Another Triumph for Wireless.

Special to Evening Telegram.

HALIFAX, Jan. 14. A wireless from the steamer Lady Laurier, reports she has located the ill-fated Cobequid, on the Trinity ledges, above the entrance to Yarmouth, eight miles south of Cape St. Mary's, and five miles from land. Her stack and spars are visible, the seas making a clean breach over her. Many steamers are in the vicinity, waiting to render assistance when possible.

LATER—News comes that the passengers and crew of the Cobequid are safe. The steamer Cann has taken off 60 and landed them at Yarmouth; others on board, numbering 102, will be taken off by other steamers standing by. It was on Trinity ledges where the Cobequid met disaster.

LATER—The entire crew and passengers have been landed safely at Yarmouth. There is no danger of the steamer breaking up, if the weather remains as at present.

YARMOUTH, N.S., This a.m. One hundred and six persons are aboard the steamer Chebucto, safe. Ninety-four of the Cobequid's passengers and crew are here. Two rescuing ships, the Westport and John L. Cann, commanded by two brothers, McKinnon, arrived here to-night with 72 and 22 persons, respectively. There are 12 men, including the captain and wireless operator, still aboard the Cobequid. The navigating officers of the ship have refused to talk. There were three of the Company's officials aboard when the steamer struck, Captain M. Hicks, Marine Supt., and Messrs. Alsop and Kenney, two directors who were too exhausted to give a statement to-night. The junior officers and members of the crew say the ship struck during a dense storm at 6.15 yesterday morning, and filled in a very few minutes. The wireless operator was able to send one call for help before his aerials loped up, after which he was helpless. The furnace

fires were put out in a few minutes, and the passengers and crew were forced by the rapidly rising water to the boat deck, where they took refuge in the captain's quarters. For 24 hours, amidst one of the worst storms that ever swept this coast with the thermometer hovering around zero, and mountainous seas sweeping over the ship and breaking her up beneath them, the passengers and crew remained huddled together, expecting every minute the vessel would go to pieces. Trinity Ledge, where the steamer struck, is almost dry at low water. The rise and fall of the tide is about 14 feet. It is a shelving ledge, only about fifty feet square, with a bell buoy quite near. All around is bold water, and had the Cobequid gone 100 yards one way or the other, she would have gone clear, though she would have probably struck the land. The party arrived here with nothing but what they stood in, and ten men had to be sent to hospital suffering from frost bites and minor injuries. One seaman named Hurley, had a broken arm, and a leg badly cut. Chief Engineer Douglas, interviewed, said the ship had encountered a series of heavy gales and snow squalls, and particularly so on Monday night. In his opinion the bottom has gone out of the ship, but above the water she is intact except that her hatches are washed off.

NAGAZAKI, Jan. 14. A party of refugees arrived to-day and reported that the inhabitants of 600 houses, composing the village of Seto, on Sakma Island, had lost their way while trying to reach the seashore, and that probably all had perished together. They believe that many others were drowned while trying to swim across the Gulf to Kagoshima. The volcano is said to have completely changed its form, several new craters having opened. The hall of ashes ceased here after lasting 36 hours.

Fresh Poultry Just in, Jan. 7th, 1914.

50 selected TURKEYS.

1 case 3 Plymouth Rock CHICKEN.

T. J. EDENS,

Duckworth St and Military Road.

Fogs.

By GEORGE FITCH.

Author of "At Good Old Sitwash."
A fog is a thick spot in the atmosphere, makes it only about as transparent as a street car window.

Fogs are caused by a disagreement between the earth and the atmosphere. When the earth is warmer than the air, it sends up vapor which the air does not want and tries to return by condensing it. The warmer earth, however, keeps it from returning and so the poor stuff hangs betwixt and between like Harry Thaw hunting for some country which wants him.

Fogs are very inconvenient, blotting out familiar landmarks and railroad signals and causing trains to wander through each other in the same block with the utmost abandon. Navigating the North river, off New York, in a fog and a ferry boat at the same time, is more exciting than dodging automobiles on Fifth avenue; while no traveler who has crossed the Atlantic in a dense clammy fog, with the whistle tooting once a minute and Providence putting on extra help to keep the rocks and ice bergs out of the way, can regard the stuff with anything but intense hostility.

Fogs are a great curse on the ocean, and each year dozens of ships try to butt their way through the British Isles with the most harrowing results while burrowing through the opaque horizon. The most famous fogs are those of London, which are adulterated with coal smoke and bus drivers' language, and which are so thick that the puzzled pedestrian leaves a wake behind him like a steamship, as he cruises warily from curb to curb.

However, the densest fog is the one which surrounds Washington during a session of Congress. It is so dense that a Congressman is often unable to see the situation in his district even by reading the home newspapers.

If fogs could be trained and managed by the weather department, they would be a great blessing. If a permanent fog could be trained around the tops of some of Chicago's most utilitarian skyscrapers, they would not cause the lover of good architecture to gasp so painfully as he passed them.

You're Constipated Bilious!—Cascarets

Sick Headache, Sour Stomach, Gas, Bad Breath, Meas Liver and Bowels need Cleansing

Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

Fire on the Southside Road.

BARN DESTROYED.

An alarm of fire was sent in from the South Side Road at 9 o'clock last night, summoning the Central and Western Companies who upon arrival found the barn owned by Mr. Charles Smallwood on fire and practically consumed.

The blaze had done its work, and a stream was used on the adjacent buildings to save them from the conflagration.

Mr. Smallwood was working in the barn at the time the fire occurred. He was planing some boards when one of them struck the kerosene oil lamp he was using, upsetting it amongst a pile of shavings.

The building was said to be insured with the Liverpool, London, and Globe, of which Messrs. Bowring Bros. are the agents.

Minard's Liniment Co., Limited.

Gentlemen.—I have used MINARD'S LINIMENT from time to time for the past twenty years. It was recommended to me by a prominent physician of Montreal, who called it the "great Nova Scotia Liniment." It does the doctor's work; it is particularly good in cases of Rheumatism and Sprains.

Yours truly,
G. G. DUSTAN,
Chartered Accountant.
Halifax, N.S., Sept. 21, 1905.

Minard's Liniment Cures Diphtheria.

Sufferers From Piles.

ZAM-BUK HAS CURED THESE!

Friction on the hemorrhoid veins that are swollen, inflamed and gorged with blood, is what causes the terrible pain and stinging and smarting of piles. Zam-Buk applied at night will be found to give ease before morning. Thousands of persons have proved this. Why not be guided by the experience of others?

Mr. Thomas Pearson, of Prince Albert, Sask., writes: "I must thank you for the benefit I have received from Zam-Buk. Last summer I suffered greatly from piles. I started to use Zam-Buk and found it gave me relief, so I continued it, and after using three or four boxes I am pleased to say it has effected a complete cure."

Mr. G. A. Dufresne, 183-185 St. Joseph Street, St. Roch, Quebec, P. Q., writes: "I can highly recommend Zam-Buk to everyone who suffers from piles."

Magistrate Sanford, of Weston, King's Co., N.S., says: "I suffered long from itching piles, but Zam-Buk has now cured me."

Mr. William Kenty, of Upper Nine Mile River, Hants Co., N.S., says: "I suffered terribly from piles, the pain at times being almost unbearable. I tried various ointments, but everything I tried failed to do me the slightest good. I was tired of trying various remedies, when I heard of Zam-Buk, and thought as a last resource I would give this balm a trial. After a very short time Zam-Buk effected a complete cure."

Zam-Buk is also a sure cure for skin injuries and diseases, eczema, ulcers, varicose veins, cuts, burns, bruises, chaps, cold sores, etc. 50c. box from all druggists and stores, or post free form Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

Special Meeting Firemen's Union.

A special meeting of the Firemen's Union was held in the L. S. P. U. Hall last night when it was decided to establish a Mortality Fund. The proposed arrangements met with the approval of all, and it was also added that in the case of members being three months or more in arrears, no benefit will be allowed. The Executive Committee will meet weekly on Monday nights to consider applications for membership and the collection of dues. Mr. Martin McAllister, who was recently elected President and Delegate, resigned, and was succeeded by Mr. F. Baldwin as President, and Mr. F. Woods was elected Vice-President and Delegate. Matters in connection with the employment of men on the sealing steamers will be discussed at the next meeting.

Healthy and Unhealthy Lighting.

Gas, it may be said, vitiates the atmosphere. True. But it also helps to purify it. Its purifying power is greater than its vitiating power. Electricity does not vitalize, nor does it purify. Hear what three eminent men have said:

Much evidence has lately been adduced to show that gas is more useful than the electric light in promoting efficient ventilation of air. It is for this, amongst other reasons, that gas is being frequently substituted for the electric light. The latest example is, perhaps, the Society of Medical Officers of Health, which has recently installed gas on its premises, after experience with the electric light.—Dr. Jamieson B. Hurry.

He would merely add that no member who had experience of their meeting room under the old conditions could deny the improvement that had taken place since gas had been substituted for the electric light and the new system of heating and ventilation had been installed.—Dr. Reginald Dudley, before the Society of Medical Officers of Health.

I have in my mind's eye, at the moment, a hall which, in the old days was lighted by gas, and in which a large audience could, with comfort, sit through an hour's lecture, or with pleasure through a three hours' dinner, but which, with the march of civilization, had its illumination changed from gas to electricity, the latter being employed with all the latest refinements to effect the lighting under the best conditions, with the result that any large gathering within its walls leads to a state little short of asphyxiation.—Vivian B. Lewes, Professor of Chemistry at the Royal Naval College, Greenwich.—Nov. 14

Poured Alcohol on Wife

Then set Her on Fire with Match
Jersey City, N.J., January, 8.—That her invalid husband, Peter Rooney,

had poured alcohol on her and then set her on fire with a match, was the ante-mortem statement made by Mrs. Mary Rooney, 43 years old, who died in a hospital here last night as the result of burns received. Rooney who had been held by the police for "atrocious assault," is now in detention on the charge of murder.

Essence of Ginger Wine is sold at Stafford's Drug Store, Theatre Hill, for only 10 cents a bottle. Open every night till 11 o'clock.—dec22,14

The Crescent Picture Palace, 5th Week.

Distmasted Vessel Reported.

The Marine and Fisheries Department received the following message last evening from Operator Sainsbury at Wesleyville: "Musgrave H. men report a distmasted submerged hull of a schooner in the slob ice driving southward by Edward's Reef in Ship's Run." The name of the derelict is unknown.

Wandering Seaman.

A foreign seaman, who is without friends or money, is now wandering about the city and unless looked after by the authorities will probably perish from exposure as during the past week he has been sleeping in hall doors and any place he can lay

down, exposed to the intensely cold weather. The unfortunate man is a native of Spain and cannot speak English.

The Biggest Optical House on earth cannot possibly keep in stock all the combinations called for in Eyeglass lenses. Only those who are equipped to grind them can supply exactly what is needed. We have the latest machinery and all necessary material to make any lens in use. R. H. TRAPNELL, Eyesight Specialist.—dec26,14

MINARD'S LINIMENT CURES DISTEMPER.
