An Excellent Showing.

One of the features of the present session is the way the F.P.U. members of the Assembly have held up their end of the plank. They have shown themselves bold and fearless in debate, and though they have been handicapped from a lack of knowledge of the practices of the House they have not been deterred from giving expression to the political and social faith that is in them.

MR. P. BUTLER wishes to thank his friends, customers, and the public generally for their patronage during the past year, and also to inform them that his Restaurant, 318 Water Street, will open for business on Saturday, Feb. 7th. Prompt attention given to dinners and special orders. Dining Rooms open from 7.30 a.m. until 12 p.m.—feb3,51

Stanfield's Underwear.

Sleeping in the cold and silent day to-day are many men who should be alive and active — an asset to their country, but they allowed cold after cold to go on uncare for — result — Death. Many of these colds were contracted through wearing cotton underwear. There is nothing more dangerous in cold climates. After perspiring freely it is like a cold wet rag round the body, and the fleece rolls off in little icy knobs. Throw it away. Wear wool, it absorbs all moisture and lessens the chances of catching cold. Stanfield's, from \$1.00 per garment.

J. M. DEVINE, THE RIGHT HOUSE.

Foxes at Large.

Recently Mr. M. Kavanagh, of Logy Bay, captured a male silver-grey fox in the vicinity of the White Hills and this morning brought the animal to the city for sale. One prominent merchant offered him a thousand dollars but the owner refused to sell at that figure. Those who saw the fox say that it is worth at least twice that amount. Two well known owners of fox ranches in the city were anxious to buy the fox but their offers did not appeal to Mr. Kavanagh. We hear that there were two other foxes seen between Sugar Loaf and Logy Bay and not less than thirty-seven traps are set for them besides hunters have placed a number of chicken in the woods in order to bring out the valuable animals from their burrows. Fox poultry is a delicious food for foxes.

Lost Millionaire Held to Ransom.

Police of Los Angeles Receive Letter, Demanding \$75,000 for his Return. Los Angeles, Cal., Jan. 29.—According to an anonymous letter received by a morning paper, Francis Lewis Clark, the Spokane millionaire, is being held for ransom of \$75,000 by "blackmailers" in or near this city. Clark disappeared from Santa Barbara January 17th, after seeing his wife off on a train, and was thought to have committed suicide by throwing himself into the ocean. The letter demanding the ransom for Clark's release was addressed to "Chief of Police," and dated Los Angeles, January 27. It said: "We are holding millionaire Clark for ransom of \$75,000. State in Examiner if his folks will pay it or not. He is well taken care of. Yours, the Blackmailers." Across the top of the letter was written, "Notice: Make prompt reply in the papers as he is very anxious to get out." Failing in this it was announced negotiations would be opened for the return of Clark if he is held captive.

"This picture," he said, stopping before one of his early efforts, "is one I painted to keep the wolf from the door." "Indeed!" replied the woman. "Then why don't you hang it on the knob where the wolf can see it?" — Houston Post.

Complaint. From several sources we have heard complaints of the lack of accommodation for the spectators at the hockey matches in the Prince's Rink. The average spectator who pays 20 cents admission, is in many instances in much danger, particularly if he is there early to receive a good place to view the game, as those who come in dozens after him, are usually upon his back during the excitement of the game. No doubt the management will see some way out of the difficulty and provide better accommodation for the spectators in future. Hockeyists and spectators alike are continually complaining of the lack of light in the rink, and this matter should be remedied with beneficial results. For the Children's Use. "Can you," I said to my Druggist, "suggest anything for irritable skin in children. Mine are very prone to skin irritation in winter. A new woolen garment, a slight chafe, exposure to cold winds, and they are in trouble at once. Is there anything to relieve it?" He handed me a cake of soap, saying: "You will find in this what you need. This is Zylex Soap, and is really first rate for the purpose. Try it." I did so with most satisfactory results too. Zylex Soap (as well as the Ointment which I always keep on hand) has proven its value to me. Zylex Soap is 25c. a cake; the Ointment, 50c. a box. At all druggists. jan23.eod,tf

Richards, Principal of the Carbonear Academy, arrived in the city by to-day's local on a brief visit. "How did you come out of that deal in Wall Street?" "I got several thousand dollars' worth of experience. But the price on experience has gone away off with no chance that I can see of recovering."—Washington Star. "I have joined the Society for the Prevention of Useless Noises," said the Old Fogey. "Well, where are you going to begin?" asked the Grouch. "We are going to reduce the number of cheers from three to one," replied the Old Fogey.—Cincinnati Enquirer.

Heroic Act of Wireless Operator. The father is a furrier. All day yesterday friends of the family called to ask for news and to offer encouragement to the grief-stricken parents. Jack—"Once more, Molly, will you marry me?" Molly—"For the twelfth time this hour I tell you I will not." Jack (of the navy)—"Well, twelve knots an hour is not bad speed for a little craft like you."—Selected.
