# The Murdered Bridegroom.

Weekly.)

Hey the bonnie! ho the bonnie! 

The famous old Scottish bridal song ont room of the little house in Edinburgh, roared with all the strength of cottish lungs, and happy lungs at hat, for was it not the wedding eve of pretty Mary Anderson and George ing? It would seem almost impossible for anyone within a mile radius not to have heard the rousing re-

Yet in the very next room two peole heard only their own low whisperngs to one another. George King and happy sweetheart had stolen a minutes away from their rejoicng, lively friends, and were saying to each other for the last time those oft, sweet nothings which only those no are lovers themselves can under-

Little did those two supremely appy people know that those kisses, se embraces, those whispered vows ere the last they were to exchange ith each other in this world. In but few hours tragedy was to step upon e stage and play its part before a eeping bride and a grief-stricken ther and mother.

"George, dear heart," she whisper-"it all seems like a happy dream of aradise, a dream from which I shall ake and find myself on earth again." "It's a dream that's going to last, sweetheart," replied her lover, ssing her upturned lips.

As he spoke the door burst open and noisy revellers from the adjoinng room poured through with many merry dig at the young couple. "There'll be plenty of time for oning after to-morrow!" cried Bob

he for the great day on the morrow. e of the party, however, the brideoom, was destined never to keep most important appointment of his

father. "Impossible! There must be

"Well, if he's not missing, I don't know where he is, Mr. Anderson," replied his friend, "He's not the kind se of man to play a practical joke on us. If he's gone it's not of his own free

Mary Anderson was puting the final touches to her bridal dress in her bedroom, assisted by her mother, and she knew nothing of what was happening. In another few minutes she of indigestion she would almost faint expected to be standing beside her away. Frequently she had attacks of lover and to be saying those few brief words which would make her a wife.

But the time for the wedding ceremony come and went, and it fell to the lot of the clergyman to break the dreadful news to Mary that her lover breathe. She suffered from sick Daley. This young lady, who so unhad disappeared.

The shock to her was so terrible The shock to her was so terrible dizzy and faint. I have seen her so that for some time her reason was weak she could barely walk across despaired of, and it was not until her the room and she would almost colbrain became clearer some weeks later that she was able to furnish the first possible clue to her lover's dramatic disappearance.

While Mary was still labouring under the shock, no stone had been left ingus, the best man. "It's time we unturned by George King's friends to rere getting to bed. Let's have 'Auld solve the mystery of his disappearang Syne'?"

King had disappeared. George King re-appeared in almo as dramatic a fashion as he had left. A week after his sweetheart had sup plied the clue which was to accou for his absence from the altar, the captain of a tramp steamer reported the recovery of a dead body in the Firth. It was in an advanced state of ition, but the clothing and a watch and chain enabled his friends to recognise it as that of the missing

### The Murderer's End.

The police now began to look round sly for the dead man's co for, to say the least, suspicion pointed strongly to the fact that he knew ething of King's death. A close tiend of Edgar Saunders informed the tive in charge of the case that

America where he expected to come into a fortune from a rich relative.

The detective followed up this clue and, learning from Mary Anderson that her dead lover's uncle lived in Chicago, he made inquiries in that town, and the result of those inquiries left no doubt whatever that Edgar Saunders was a murderer.

A few weeks before the eventful wedding day, John King, a wealthy Chicago merchant, died and left a fortune of £25,000. The whole of this fortune had been left to the dead man's nephew, George King, or, failing him, Edgar Saunders. The money had been

### Fishermen Hard Hit.

Big Destruction of Fishing Property (Western Star, Jan. 14.)

The fishermen of Bay of Islands have been hard hit this season by the loss of gear. It is estimated that in North Arm between eighty and a hundred fleets of nets were taken away by the ice, representing a loss of about twenty-one thousand dollars. In Middle Arm the loss is placed at some fifty fleets, valued at about twelve and a half thousand dollars. Altogether the loss sustained by the fishermen operating in the two Arms is placed at about thirty-four thousand dollars. Some crews lost everything but their boats. One man who had the gear for three boats in the water, recovered only a part of one

CAMPAIGN.

This is to urge a ten-day test of a tooth paste which combats the film.

High authorities have proved it. Five years of tests have placed it beyond question. Leading dentists everywhere are urging its adoption.

Compare the results with your old methods, and let your own teeth decide.

### Film Destroys Teeth

That slimy film which you feel on your teelfi causes most tooth troubles. Every modern dentist knows that. Dental science, for many years, has sought a way to end it. That film is what discolors, not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. So the major object in cleaning teeth is to keep them free from film.

Old-time methods fail to do that. Teeth still discolor, still decay, as millions of people know. The reason is that brushing does not end the film. The film is clinging. It gets between the teeth, enters crevices and stays. Day and night, month after month, it is a potential source of danger.

### Now a Way to End It

Science now has found a way to end it. Five years of tests have proved this. The way is now embodied in a dentifrice called Pepsodent. And we urge you to see

what it does.

Pepsodent is based on pepsin, the digestant of albumin.

The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

But pepsin must be activated, and the usual method is an acid harmful to the teeth. So pepsin long seemed barred. But science has now found a harmless activating method. It is made use of in Pepsodent. Now millions of teeth are daily cleaned as they never were before. Try the method ten days on yours.

Send this coupon for a 10-Day Tube. Use like any tooth paste. Note how clean your teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears.

Watch the results for a few days. Read in our book how they come about. Then decide for yourself what tooth paste you and yours should use.
