Having Busy Season.

This has been a busy season for he Western Marine Railway Co., Ltd., of Burin, owners of the splen-Coast town. One of the docks is taking vessels up to 1,000 tons and the other up to 500 tons. Situate as they are in the most central part of the coast, the docks are a great boon to ship owners and very convenient for those having vessels operating on the banks. During the past two months the vessels repaired included Lunenburg and French bankers and several trawlers. W. H. Prisoners Brought in.

ACTIVITY ALONG THE LINE. Detective Constable Peter Lee arrived in the city last evening from Howley Station, bringing a prisoner belonging to Port Blandford, who is charged with wife desertion. Constable Lee reports much activity at the different centres along the line. At Grand Falls things are progressing much better than last year. The A.N.D. Co. are now engaged in installing a number of new paper making machines. At Howley station about 100 men are employed building a new section of railroad to replace a section that will be flooded when the new dam at Grand Lake is complete.

No Confirmation.

Up to to-day there has been confirmation of the report of S.S. Watchful reaching Stag Bay. The ship passing Indian Harbor. The Coastal Department sent a message of enquiry to Holton, the nearest station to Stag Bay, last night but up to press hour no reply was received.

Fishery Outlook

Up to the 10th July traps were only taking from a half to one quintal at haul. The trawl fishery if anything, is worse, and in one instance for 13 lines only 5 fish were taken. The prospects in other sections of Bonavista Bay are equally discouraging.
At Plate Cove for instance, fishermen are not operating and no less than six schooners that formerly went to Labrador are now moored to the wharves.

Sydney Strike Affects Local Men.

It is learned that the strike in Sydney has affected some 600 local men working at the lime quarries at Aguathuna. The work there has been temporarily suspended and the men are leaving for their homes.

Personal

Mr. E. O'Reilly, J.P. and sub-Colector at Placentia, accompanied by Miss Helen Buck, matron of the Buffalo General Hospital, is at present in the city, the guest of Mr. and Mrs. P. M. Duff. Miss Buck was formerly at the Royal Victoria Hos-pital, Montreal, and is well known in

he city.

On the Salmon Rivers. TO-DAY'S MESSAGES.

The 1922 loan will reveal most extraordinary expenditures which, coming at a period previous to a general election when the greater portion of the millions were expended, will need a great amount of explanation.

The loan, according to the admission of the Prime Minister in the House, netted the Colony \$6,036,000.00, yet \$7,051,276.72 was expended, leaving an overdraft of \$1,015,276.72.

When the W. G. Armstrong Whitworth Co. pay back to the Government an advance made to them of \$1,220,508.30, a small balance of this loan will be jeft to the credit of the Colony.
