Not Smooth Sailing After All. Belgrade, April 17.—The general requiescence, if not approval, with which King Alexander's coup d'état was hailed is already interrupted. The Liberals have gathered courage since Thursday, and now gathered courage since Thursday, and now apparently propose to incite people against the Government. The Liberals have issued a manifesto in which they describe the new Ministry appointed by King Alexander as usurpers of power and as having incited the King to the coup d'etat in violation of the constitution and laws of Servia.

Disappointing Results.

LONDON, April 17 .- The Grand Trunk re port was issued to-day. It states that though the utmost efforts have been exerted though the utmost efforts have been exerted to effect all possible seconomy in every department, the result of the working of the past year has been disappointing. This, the report says, is due to a further reduction in freight rates. The directors will endeavor to restore the position by offering further encouragement with the object of increasing passenger traffic, which is expected to be more than usually large in view of the World's Fair.

A Very Unlikely Story.

LONDON, April 17 .-- The statement is made to-day in regard to the Irish Home Rule Bill to the effect that when the bill Rule Bill to the effect that when the bill reaches the committee stage a large section of the Radicals will support a proposal to leave the counties of Londonderry, Antrim, lown and Armagh, in the Province of Ulster, under imperial rule, those being the counties in which the Unionist element is strongest, and the antagonism to Irish home rule therefore pronounced. It is considered doubtful that Mr. Gladstone would assent to such a scheme, even if the Irish Nationalist leaders were willing to do so. The proposition means the division of Ireland, and the Irish Legislature created under it would represent only a portion of the country.
