STOCK MARKETS.

H. C. Becher, broker, Bank of Commerce building, received the following by private wire from Bartlett, Frazier & private wire from Bartlett, Frazier & Carrington today:

New York, April 27—Noon.—There has been no improvement in the market today as far as activity is concerned. Trade has been smaller even than that of yesterday. The most active stocks were steed, preferred, and Union Pacific, and Archison made up a large part of the rest of the trade. Steel, preferred, was relatively weak, selling off more than a point from the high figures established at the opening. The Steel bonds also showed a reactionary tendency, without any specific explanation to account for it. Union Pacific and Pennsylvania were steady, but the undertone was good and Amalgamated Copper, preferred, displayed some strength. More gold was taken for export today, the total thus far enforcement. Amalgamated Copper, preferred, displayed some strength. More gold was taken for export today, the total thus far en-

Talks About the New Regiment in Parry Sound - Plenty of Men.

Col. Knifton was asked by The Adver-tiser this morning at the Tecumseh House as to the military situation up north. The new regiment, he says, is progressing favorably. It is up to full strength, and there was no difficulty in getting men to recruit in it. This year especially there promises to be a great amount of interest in military matters the citizens of Parry Sound being deeply concerned about their regiment which he says, is a credit to the community. Drill is going on there now, and the men turn out well, so they hope to make very good showing this summer.
