ten spread, many youth of it having been disturbed by its progress.

Now during the afternoon of Wednesday the crowds began to gather and in the evening the big rink was packed full right up to closing hours, the largest attendance yet had upon the first day of the previous year's fair. This year the Committee wisely and widely advertised the Fair and its drawing results prove that it pays to advertise.

Mrs. W. Sharpe's orchestra rendered a very choice program during the evening.

The President of the Ladies' Aid, Mrs. John C. Ferguson and her many able assistants are one, and all to be congratulated and admired for their faithful, careful, consistent work and good judgment.

The remaining two days of the Fair will doubtless draw even greater crowds and success beyond expectation is now assured.

GARAGE FIRE LAST NIGHT

Mrs. Jas. McDonald's Garage Makes Spectacular Fire—Cars Safe.

About 10 o'clock last night an alarm was rung in from box 31 for a fire in Mrs. James McDonald's three car garage and warehouse at the rear of her residence.

The building was a mass of flames when the alarm was rung in and before the department arrived on the scene the flames had broken through the roof and burning embers were flying about and endangering surrounding buildings.

Wes water was turned on there were two hoses bursted which delayed matters, but at no time was the situation dangerous and the fire was soon extinguished, not however before the garage was a total loss.

Fortunately the three cars usually stored therein were out, but three canoe motors and a marine engine were destroyed, besides a quantity of furniture and goods stored in the building. It is said that the hose bursts were caused by the acid from the chemical tanks leaking down on the hose and rotting the canvas. For some time the Chief of the Fire Department has complained of this leakage, but although some repairs have been made, the fittings are not yet absolutely tight.

A big crowd gathered about. A slight shower of rain aided in the prevention of the spread of the fire as several shingled roofs were in the vicinity and had to be watched carefully. In fact one caught fire and was extinguished with a bucket of water.

LITTLE GIRL KILLED BY AUTO

Myrtle McKenzie Knocked Down and Run Over Friday Afternoon.

The first fatal auto accident in Campbellton is recent years occurred Friday afternoon about 5.30 o'clock when Myrtle, the bright little nine year old daughter of Mr. and Mrs. Thos. R. McKenzie was struck by an auto, the front wheel of which passed over her breast, causing injuries from which she passed away at the Hotel Dieu Hospital two hours later.

The little girl had been sent to the W. H. Miller Co's store on an errand. She had made several purchases and was crossing the Roseberry Street just in front of I. W. Stevens' store when Mr. Wesley McDonald, driving a big Studebaker car came down Roseberry street. The horn of the car was sounded to warn the child, but she became confused and although about clear, dodged back and was struck by the fender, knocked down in front of the wheel with the above result.

The car was going at a very slow pace, and the driver jammed on the emergency brakes, but could not halt the heavy auto. The little girl was rushed to Dr. MacPherson's office, which is nearby, and then to the Hotel Dieu Hospital.

The sad accident has cast a gloom over the entire neighborhood, and Mr. McDonald, although in no wise to blame feels it keenly.

Coroner Ellis of Jacques River, in the absence of Coroner A. Martin, M. D. held an inquest Saturday afternoon and the jury brought in a verdict exonerating Mr. McDonald and stating that death was purely accidental.

The funeral of the little one was held Sunday afternoon and was largely attended. Rev. Hugh Miller conducted the services at the house and grave. The floral tributes were numerous and very beautiful. The bereaved family have the heartiest sympathy of the entire community.

TOO NOISY.

A citizen living on Water Street complains that he cannot sleep nights because of the noise of autos which pass up and down the street at a rate of speed anywhere from twenty to forty miles an hour. Some even go so fast that they shake the building in which he lives. Surely the night police could give him relief of at least three nights a week or he will be prostrated from lack of rest.
