statuted wretches on whom the law will deal
an exemplary chastisement.Bangor, Nov. 19.
The Commissioners upon the North Eastern
boundary line returned to this city on Saturday evening.
We understand that they found very distinctly
marked highlands at the point where the waters divide
between the St. Lawrence and the Atlantic Ocean,
and all the country north of the St. John river
extremely mountainous. The country where the
waters divide is not level and swampy, as has been
represented and believed by many, but lies in
mountains and dividing highlands, corresponding
to the terms of the treaty of 1763.—Possible?The Members returned to serve in Gen-
eral Assembly are—*for Charlottetown*, Messrs
Francis Longworth junior and Palmer; *for*
Georgetown, Messrs Thomson and Dingwell;
for Prince George, Messrs Montgomery and
Clark; *for Queen's County*, Messrs Macneil
and Macfarlane, in the first district; the
polls in the 22 and 34 districts are not yet
closed.Mr. Swarzwort is the late Collector of the
Port of New York, is said to be a defalcator
to the amount of \$1,250,000 of the public
moneys.The legislature of this Province is to meet
on the 15th of January next, for the despatch
of business.We observe in an account in the *Fredric-
ton Sentinel*, of some discontent having been
expressed, or rather got up, against an alleged
misapplication of the money voted last year
to the inhabitants who performed garrison
duty when the regular troops were withdrawn;
and it seems that this complaint was assigned
as a reason for the people's reluctance to
turn out on the present occasion. It appears
also that a capacious disposition had been
evinced on the allegation that the Lieutenant
Governor held back from inspecting the mil-
itia at last training. On learning, that such
rumours were in circulation, His Excellency
immediately ordered out the militia, address-
ed them in his frank and open manner, ex-
plained how they had been misled, and was
greeted by three hearty cheers. Lieut. Col.
Munich, when His Excellency left the
ground, called out the officers and gave them
two explanations, for the satisfaction of those
under their command. The *Sentinel* very
properly remarks:—"We admire this straight-
forward course of proceeding, so calculated
to prevent those bickerings and jealousies
which insoucious persons are every where
found to foment."The 65th Regt having been detained at
Shediac, the 11th are still in St. John.The several Saint Andrew's Societies
throughout the Province have elected their
officers for the ensuing year, and have taken
measures to celebrate the festival of their pa-
triarch Saint on the 25th instant—excepting here.A letter from Ogdenburg of Nov. 11,
gives a florid account of the landing of a body
of armed insurgents at Prescott, Ogemba,
and of their various acts before Fort
Wellington; but the whole story is so un-
likely, and so full of contradictions, that we
cannot get a peep at any material evidence of
its truth.Ogdenburg is on the American side,
below the Lake of the Isles at the foot of
Lake Ontario, and directly opposite to Prescott
on our side. The winter exists in the usual
view his windows should be closed. The
river above and below it for two or three
miles, where doubtless his sympathies in
secretly witnessing the heavy current of the
fray. He adds that "at 6 o'clock, P. M. the
rebel forces occupied a small hill," and un-
derstands of the association, which he did not
intend to bring to mind, of the cant about ad-
ventures of the renowned knight of La Man-
cha! He continues that at 6 o'clock, a body
of 4000 loyalists from Brockville came in view,
rapidly marching to the rescue, equally for-
getting the talismanic name of the town from
whence they came; the disparity of the forces,
and the value of the principles which pos-
sessed them, according to his own authority.—
Verily, there have been good memories.There is an old Irish proverb which says
that "the best lures always stand on the
ditch," and we are willing to concede that
merit to the secure observer of Ogdenburg!
But to show that we do not wish to indulge
in a kind of leniency, which his absurdities
in spite of our better feelings have called forth,
we would ask him, and all his associates who
entertain similar sentiments with him, to
announcements by a British Editor, of extreme
but just retribution; from which they should
learn a lesson of forbearance and humanity,
if they prize the good of their fellow crea-
tures more than the indulgence of their dis-
tasteful passions.From the *Montreal Courier* Nov. 13.
On Sunday evening, the whole of the back
country where Lagrèze presented the awful spectacle
of vast sheets of land flame, and it is reported that
not a single rebel house has been left standing.
God only knows what is to become of the surviving
Canadians and their wives and families during
the approaching winter, as nothing but starvation from
hunger and cold stare them in the face.MARRIED.
On Wednesday last the 21st inst. by the Rev.
Richard Verser, Mr. Thomas Cullen, to Ellen,
third daughter of Mrs. O'Brien, all of this place.DIED.
On Thursday morning the 22d instant, after a
few days illness, Mr. Erasmus Willard, aged 66
years. He was a native of Sterling, Massachusetts,
and came to this Province 22 years ago, where he
has ever since resided; maintaining for himself
an irreproachable character, and rearing a large and
respectable family, with whom and his surviving
widow, a wide circle of friends condole on their
sudden bereavement. Mr. Willard was an ingenious
mechanic, and persevering artisan; his genius
was a frequent resource in mechanical difficulties,
and his aid and advice were always freely accorded.
He was a friend of temperance and observed in
any similar recent work.The breach which the removal of such a
man must cause in society, will always with dif-
ficulty be filled up; and this truth is now strongly
felt in our community on the death of Mr. Willard.
The friends and acquaintances of the deceased
are informed that the Funeral will take place
Tomorrow (Sunday) at 2 o'clock P. M. from the
family residence in King Street.Shipping Journal.

WITTY'S NEW PATENT BRIDGE.

Mr. Witty offers to the public his New Pa-
tent Bridge. Its superiority over others may
justly entitle it to a national consideration.
For crossing deep rivers, rapids or falls, it is
unparalleled; since it can be placed across any
them, without Piers, and at a much less ex-
pense than on any other system at present
used. It reaches from bank to bank in a right
line, and cannot be affected in the least by freshet
or ice, or change of temperature. At the same
time, there is a durability and safety which can-
not be warranted by any other bridge now in
use.Several of them have been erected in the
State of Missouri, one of which upwards of
100 feet in length, and others are in progress
Advantages Offered.1. Mr. Witty offers to build Bridges over
the most difficult Falls or Rapids, deep Rivers
&c. &c.2. His Bridges cannot be swept away by
freshets or large masses of ice.3. They are more safe, and possess a much
greater durability than those in present use.4. The expense can be reduced, in many
instances, to less than one half that of any other
bridge whatever.5. A Bridge upon Mr. Witty's plan can be
put across a river, in many cases, in a few days,
and will not cost so much as the expense of the
Piers, upon the old system of bridge-building.6. This is now being extensively adopted in
Europe, both for bridges and roads, since it is
equally calculated to support heavy loads, or
warehouse floors, or for running wharves or jet-
ties. In one instance, Mr. Witty, sen'r, has sus-
pended an iron road of upwards of twenty tons,
with one beam; the span of the road is fifty feet.Any communication, post paid, can be ad-
dressed to Mr. R. J. L. WHITTY, Civil En-
gineer, City of Lowell, and will meet with at-
tention.THE MEDICAL
