The Weekly Monitor.

WEDNESDAY, APRIL 22nd, 1885.

— In the interest of public health, we would urge the importance of at once attending to the cleaning of yards and outside premises generally. Now that the warm days of spring are upon us, with the sun's rays daily growing stronger, all places where garbage and filth have been deposited during the winter, should be seen to; as, if neglected, diphtheria, fever and other diseases of an epidemic nature are likely to be engendered. So far it is a matter of gratification to be informed on competent medical authority, that very little contagious or infectious disease has been experienced by the community; but we cannot hope for any lengthened freedom from the attacks of such diseases if we neglect the sanitary arrangements so necessary to warding off epidemics. To cite an old truism "an ounce of prevention is worth a pound of cure"; it is best to give attention to sanitary matters at the earliest possible moment, and not leave the cleansing of filth deposits, until sickness breaks out. The health officer should begin his round at once, and inspect the premises of all the residents, and where it has not been already attended to, order the immediate cleaning out of all vaults, yards, deposits of ashes, and manure piles in all thickly settled localities, and in this respect a liberal application of lime wash to the fences, barn and stable should be ordered. It is a matter of regret that the Municipal Council have as yet made no ordinance for the guidance of the health officer in his duties, at least so far as we can learn, and we have examined the Council's bye laws, but can find none bearing on the question. In the absence of an ordinance of the kind, it would be well for our health officers to study the provisions of chapters 29 and 30, Revised Statutes, where they will find much that comes within their line of duty. There are quite a number of places in Bridgetown, we are sorry to say, that will require the exercise of the sanitary authorities, and the public expects, for the general good of all, that in the question of sanitation, every one will do his duty. While it is absolutely necessary that all outside premises should be immediately cleaned and disinfected, it is no less important that cellars and all underground premises should be also cleaned, and decaying vegetables or vegetable matter removed and such places disinfected. Of course the thoroughness of a work of this character depends upon the good sense of each individual in the community, and when it is neglected, it more often results from the lack of a sense of the importance of the subject, than from a non desire to have every place clean about the premises. A very simple mode of fumigating cellars and places of that character, is after the garbage and decaying vegetable matter is removed, to place a portion of powdered sulphur upon a hot shovel or pan of coals and let the fumes circulate through the apartment. It will effectually destroy all poisonous exhalations from cellar and underground premises.

CONTEMPORANEOUS NOTES

FRANCE'S GREAT NEED.—France needs a strong man now as never in our time she needed him before. It is not a dictator, a King, a Napoleon that she needs. It is not a "man on horseback," a "man of Providence," or any such portent. It is a statesman as strong in purpose as Gambetta, as varied in resources as Thiers. In this muddle of peace negotiations with China, in these sudden, hysterical paroxysms of the nation, in these alternate moods of execration for M. Ferry, and, anon, of applauding the fallen minister, we see not so much the caprice of a mob as the absence of a dominant will. —*N. Y. Herald.*

"WE MANAGE THESE THINGS BETTER IN"—CANADA!—Heretofore it has been the boast of the Canadians that they have managed the Indians, whether full-blooded or half-breed, with more wisdom than we have exhibited, and by consequence have had infinitely less trouble with them; but it remains to be seen, in this instance, what the boast is worth. In any event Sir. John Macdonald has his hands full. Wars with half-savage tribes are particularly difficult to deal with. It took the United States seven years to suppress a miserable Indian war in Florida, with a heavy expenditure of money and human life; and, as in Florida, so everywhere. We attach no importance to the suggestion which comes to us *via* Chicago that the Russians and Fenians have their emissaries among the rebels, organizing their forces, directing their movements, etc. We have had similiar reports as to the Fenians with El Mahdi, but these appear to have no other foundation than the fanciful imagination of the newspaper correspondents. Even without these complications Riel and his followers will probably be able to maintain a guerilla warfare until well into summer, which promises to be extremely destructive to settlers.—*N. Y. Commercial Bulletin.*

—The movement in favor of woman suffrage in the enlightened State of Massachusetts is met by a counter-demonstration on the part of the women who decline to assume the responsibilities of the franchise, and who do not like the idea of going to the polls to vote. Petitions which have been in circulation, receiving the signatures of thousands of the fair ones, set it down as a fact that the great majority of the sex are by no means desirous of having political power conferred on them, and that the agitation on the part of the female suffrage leaders is not in any sense representative of the feelings of women in general. Confronted by these formidable documents the sisterhood has changed its tactics by turning the fire away from the men and directing it toward the unsympathetic women. If the men who are opposed to female suffrage, had, long ago, adopted this policy of getting the women themselves to fight the battle, they would have escaped a good deal of tongue thrashing and denunciation on the part of the female agitators. The fact is that only a very few of them, and they not the most modest or home-loving members of the sex, want to vote.—*Ex.*

OUR FOR THE FORRESTERS.—We are pleased to learn that the amount of $1,000 insured on the life of our esteemed townsman, H. S. Wade, Esq., deceased, was received by Capt. John Daley, C. D. H. C. R., on the 13th inst. for the widow, ten days after claim was made for the same, on the Independent Order of Foresters, of which deceased was a charter member. The promptness with which claims against the High Court are settled everywhere, speak well for the order, and should encourage those desirous of insuring at reasonable rates and easy terms to embrace the opportunity.—*Digby Courier.*

—The meeting of the Teachers' Association for Inspectoral District No. 4, embracing the Counties of Digby and Annapolis, will be held in Digby in the Trinity Church school house, commencing on Thursday the 30th of April. A public lecture under the auspices of the Association will be given on Thursday evening the 30th.

—It is now said that the doctors have misunderstood the nature of General Grant's illness, and strong hopes are entertained that he may recover.

Local and Other Matter.

—Smelts, clams, halibut and fresh codfish have made their appearance in the market.

—The weather is very fine—but rain is badly needed.

—The Rev. Wm. Hamilton, will preach in Whitman's Hall, Lawrencetown, on Sabbath evening at 7 o'clock.

—We must crave the indulgence of our readers to some extent this week, as owing to a cold contracted in the eyes we have been unable to pay as close attention to our duties as usual.

RELIGIOUS.—Three were baptised at the Spa Springs last Lord's Day, making 132 added to the Pine Grove Baptist Church since the revival began.

DENTISTRY.—T. A. Croaker, D. D. S., will be at Dr. Sponagle's office, Middleton, on the 22nd inst., for a few weeks. 2i

MAYFLOWERS.—A little lassie, Miss Carrie Reynolds, has presented us with a very pretty bunch of mayflowers—the first of the season for us.

—600 lbs Zinc, arrived, and for sale at Shipley's. 1i

—The services as usual in the Presbyterian Church here on Sabbath next. This is the last Sabbath of the Rev. Wm. Hamilton's ministration as rector of this church as a congregation we regret exceedingly to part with the Rev. gentleman, who has by his Christian zeal, and courteous genial bearing, endeared himself to all. He will take with him our best wishes for his success in the future, to what ever field he may be appointed.—*Com.*

—The Bridgetown MONITOR enters on its thirteenth volume this week. It is a well edited and finely printed weekly and a credit to Annapolis County and to the Province. We congratulate friend Piper on his success.—*Wolfville Acadian.*

—A few sets of Croquet, newest styles, at Shipley's. 1i

PAINTING.—J. Dennison, M. D., is painting his drug store.

The Grand Central Hotel is also receiving a new coat of paint. Mr. Glencross is bound that his house shall present as attractive an appearance as possible.

—A colored youth named Arthur Thompson, was arrested last Saturday on a charge of breaking into Mr. W. J. St. Clair's store. Some of the stolen goods were found in his possession. Justice Harris, after preliminary examination, committed him for trial at the next term of the Supreme Court.

SEIZURES UNDER THE SCOTT ACT.—Sub-Inspector Parker and Constable Armstrong, on Saturday last, entered the premises known as Buckler's Hotel in this town, kept by Mrs. Joseph Buckler and her two sons, and seized a considerable quantity of liquor—all they could find. We understand the officers had a search warrant for Frederick Buckler, one of the sons above named, but he was not to be found. While searching for him however, the liquor was discovered and secured.

TUPPERVILLE.—An esteemed resident of this locality, Mr. Busby Bent, had the misfortune to break his leg just above the ankle on Monday morning last. He was adjusting a block and tackle on a high beam in his barn and while doing so slipped and fell to the floor. Dr. DeBlois of this town and Robinson of Annapolis were in attendance. The break is said to be a bad one.

—In passing by Mr. Whitman's Marble Works, one day this week, we were gratified to see the substantial evidences of a successful business about his establishment, in the large display of monuments, tablets, head-stones, etc. The finish of the work turned out is equal to the best. The designs are appropriate and neat, the lettering clean cut, and well arranged, and the polishing which is done by steam power, as thorough as it could possibly be. Mr. Dryadale is the foreman of the shop.

SEEDS.—J. E. DeWolf & Co., Kentville, have one car load seeds to sell. They are the only Seed House in the valley and handle all sorts of seeds at lowest rates. 2i

FIRE.—A slight alarm of fire was given yesterday afternoon, caused by the roof of Mr. Peter Farley's house, near the railway bridge taking fire, from some unknown cause. Quite a crowd assembled and the fire brigade was ordered out. A few pails of water, however, quenched the flames before much damage was caused, beyond the tearing up of the roof, and the injury done to the contents of the house by the water. Quite a subscription was taken up on the spot for Mr. F., who is old man, and though hard work and sickness is now incapacitated from doing much work.

WANTED.—1000 lbs. Butter, for which the highest market price will be given. On hand, choice Eastern Townships Butter at Willis'. Bread 8 cents a loaf.

—We direct the attention of our readers to the article on our first page in reference to the Ornithology of this County from the pen of Chas. Jacques, Esq., of Melvern Square. It is a matter for congratulation that this important branch of natural science is receiving the attention it deserves, and we trust that all persons whose occupations or inclinations place them in the way of obtaining data in reference thereto will aid Mr. Jacques in his work.

—The terminal examination of the Bridgetown school will take place, in the primary and intermediate departments, on Thursday p. m. next; and in the advanced, on Friday p. m. The public are invited to attend.

—The semi-annual meeting of the Municipal Council of the County of Annapolis will be held in Bridgetown on the first Tuesday in May at 10. a. m. unless concerned will take due notice and govern themselves accordingly. J. G. PARKER Clerk.

—We would direct the attention of our readers to the advertisement of Mr. C. R. Bill. Mr. Bill is one of Nova Scotia's most enterprising horsemen and his stud is justly a credit and observing of the patronage of the farmers of Kings and Annapolis Counties. The sons of the renowned Almont, trotters, namely "Harry," and "Allie Clay," both owned and imported at great expense by Mr. are beautiful representatives of the Almont Family. They are both pure bred and will surely earn a record of 2.20 and better. We understand that a yearling colt sired by Rampart and raised in Kings Co. was sold the other day for $400 to one of our M. P. P's.

OBIT.—John L. Cox, Esq., of this town has just received intelligence of demise of his brother William, in West Oaklands, California, where he had gone for the benefit of his health. William was associated with his brother, under the firm name of Cox Brothers, and did business in this town and in Halifax for a number of years. The former's health was always quite delicate, and some seven or eight years ago he went to California. For some time he apparently improved and engaged in several occupations, the last being the nursery business, in which he succeeded quite well, until his health became so much impaired that he was obliged to give it up. Kind and sympathizing friends cheered him in his last moments, and he passed quietly to rest on Tuesday the 7th inst. His remains were interred in the cemetery at West Oaklands. He leaves considerable property which he has willed to his brother John.

—The usual annual Easter meeting of the parishioners of St. James' Church, Bridgetown and Belleisle, took place at Victoria Hall, in Bridgetown, on Monday the 6th inst., at half past 2 o'clock, p. m., pursuant to notice, Rev. L. M. Wilkins, Rector, in the chair. After the usual preliminaries of opening and the reading of the minutes of the last Easter meeting, the ordinary routine of business matters was taken up, the first being the Wardens' account current for the past year, showing an indebtedness of $55.96 to pay, for which it was proposed to pass around a subscription list and in future to make a special silver collection once in three months to liquidate current expenses. The report was adopted. The Wardens' Alfred J. Hoyt and Richard J. Shipley were unanimously re-elected as Wardens at St. James', for the ensuing year, and those for Belleisle, Abram Bent and William Bustin were also re-elected, the names of W. Y. Foster, John McCormick and John Lockett for Bridgetown, and W. H. Young, Stephen Wade and John B. Gesner for Belleisle were added to the vestry. The Rector now read over the result of the offertory for the past year, and the sum of $224.47 had been realized, exceeding the amount required from this part of the parish for the Rector's salary. The Rector was requested to vacate the chair, when W. Y. Foster, Esq. was called upon to preside. It was then moved by Isaac B. Bonnett, and

Resolved, That the thanks of this meeting be tendered to the Rev. L. M. Wilkins and Mrs. Wilkins, for their arduous exertions, in visiting Boston and New York cities, at a very inclement season of the year, for the purpose of collecting money for assisting in building the new church in this town, and further that it is the earnest wish of this meeting that the Rev. gentleman be long spared to officiate in the sciame.

The motion was seconded and passed unanimously.

The resolution was then handed to the Rector, who replied and thanked the meeting for the good feeling expressed. The thanks of the meeting were tendered to Mr. Moore Hoyt, organist, and Mrs. Wilkins and the members of the choir of St. James' for their efforts in providing the services of the church with good and suitable music, and a vote of thanks was moved, seconded and passed, tendering to Richard Shipled and Mrs. James Shipley, the good will of the parishioners for their very kind consideration of Victoria Hall, free of charge for the usual services of the congregation, during the erection of the new church.

A statement of moneys collected and expended for the building of the new church was now read over by the clerk on behalf of the building committee, showing the sum of $2 127.78, received, and the sum of $2,026.70 expended up to this time.

The subscription list shows the sum of $846 subscribed towards the new church, the larger part of which has been paid in to the committee, but the sum of $349 50 still remains due and unpaid, and the committee beg that all those in arrears, and others who have promised their aid and subscriptions towards the erection and completion of this very needful and worthy undertaking, may now find it convenient to pay in to the committee, as they are greatly in need of funds to proceed with the good work.

A. MORSE, Vestry Clerk.

BRIDGETOWN FOUNDRY CO. (LIMITED).—In accordance with our former promise we will endeavor to give our readers this week a more extended idea of the works just completed by the Bridgetown Foundry Co. When the buildings were being erected, we gave a notice of them, suffice it to say therefore in this article, that they were built with the view to safety as well as durability. Brick was used for all parts that were exposed to fire, and earth or brick floors substituted for wood. During the past month the works have been running to their full capacity, turning out plows for spring trade. The plant now in use consists of a very fine fifteen horse power engine of the Corliss pattern, made by Williams & Co., of Toronto. It is driven by a twenty horse-power boiler and does its work smoothly, and with apparently no straining or labor. The machines driven are a fan, a jig saw a circular, an emery wheel, an upright drill, a large grind stone, weighing fifteen hundred, and a cinder mill. There is yet to be added a turning lathe for iron and another for wood, besides several small machines. The moulding floor is 35 x 40, and will be fitted this fall with steam pipes for heating. The company are determined when everything is in running order, that our farmers shall be supplied with as good farming utensils at their own door, as can be supplied them from any part of Canada. Plows, plow points, hay cutters, cook, hall and room stoves are in course of construction and will be put in the market in proper season to meet the requirements of those wanting them. The manager, Mr. Wm. Craig, the owner of the foundry burned down, has worked very energetically and has succeeded in pushing the foundry to completion amid many difficulties during a long and stormy winter, and as we look over the premises we feel proud that our farmers and merchants had the pluck to subscribe for enough shares in this enterprise to place it on its present footing. No one can doubt the advisability of having such a manufactory in the heart of our valley and we feel sure that under Mr. Craig's judicious management, coupled with the board of directors that a successful future is in store for the Bridgetown Foundry.

—A blue book puts the effective strength of the British regulars army at 188,000 men; that of the reserves at 47,000 men; that of the militia at 125 000, and that of the volunteers at 215,000.

A NEW DAY OF ISSUE FOR "THE CENTURY."—The editions of *The Century Magazine* are now so large that it has become necessary either to go to press at an earlier date or to postpone the day of issue. The latter alternative has been accepted. The April number, the addition of which was 225,000 was delayed until the 25th of March. The May number—edition, 250,000—will be issued on the 1st day of May, thus inaugurating with the first number of the thirtieth volume a change which has long been considered desirable by the publishers, and which it is believed will be heartily commended by the public. Future numbers of *The Century Magazine* will be issued on the first day of the month of which each bears date.

—Returns brought down before the Dominion House last week shows that the total number of customs seizures in Nova Scotia during the year ending the 30th of June last was 63, and the total amount of fines exacted was $15,738. One-third of the fines seems in all cases to have been paid to the officers making the seizures. The seizures at each port were: Halifax, 29; Annapolis, 7; Arichat, 1; Bridgetown, 2; Cornwallis, 4; Digby, 1; Guysborough, 2; Lunenburg, 1; Margaretville, 2; Parrsboro, 7; Yarmouth, 5; Port Hood, 2. The total number of seizures in the province in the last six months of 1884 was 81 and the total fines exacted $32,507. From the seizures made at Amherst during the last six months of 1884, J. S. McLaren, customs officer, received as his share of the fines $1,282. For the seizures made at Bridgetown, Messrs. J. S. McLaren and J. L. Bowness received $100 each. The same officers were also paid for seizures at other ports as follows: At Cornwallis, $1,856; Margaretville, $30; Londonderry, $80, and Windsor, $123.
