SOUND ADVICE

Writing on "Advertising in the Local Paper," the Hardware and Metal Magazine gives the following sound advice not only to hardware merchants but also to every man in the retail trade:—"For a hardware dealer to omit the employment of his local newspaper is just as sensible as his non-use of the railway train to travel a journey of twenty-five or more miles. The fact is that a newspaper goes into a thousand or two thousand or five thousand homes without a particle of effort on the part of the man who advertises in it. The merchant must pay for the space he uses and write the advertisement which fills the space, but having done this, all the rest of the matter of getting this message of the hardware dealer's distributed is the business of the newspaper publisher. The local newspaper renders local merchants a wonderful service, and that at an absurdly small cost. It means that from three to five families can be solicited for a single brown cent; and that a five-cent piece pays for the solicitation of from fifteen to twenty-five families. What cheaper solicitation is possible or desired? Many a hardware dealer has spent a dollar weekly to solicit the favor of some young lady in whose affection he would have a high place. He has spent a dollar or more weekly—perhaps a longer period—to have the favor of a single individual; yet has balked at spending an equal sum to solicit the favor of one thousand or more families whose business would quickly return to him the cost of solicitation. One wonders why so many men in the retail business neglect the solicitation of one thousand to two thousand community families by the agency of newspaper advertising."

LILLA DURLING BRIDE OF FRANK I. BURNO

The Portland Street Baptist Church was the scene of a pretty wedding last evening, when Miss Lilla Durling, daughter of Mrs. Joseph Durling, of Bridgetown, N. S., became the bride of Frank Irving Burno. The church was gaily decorated with hydrangea blooms, baskets of asters and dahlias, the deep green of the foliage adding a rich coloring at the bridal altar.

Miss Doris Gilmore, organist, of the church, played the nuptial music at the church and during the reception which was held at the home of the bride's aunt, Mrs. Delia Smith, 27 North Street.

The ceremony was performed by the Rev. N. M. Simmonds, pastor of the church, who used the double ring service. The bride, who was escorted and given in marriage by her uncle, Mr. Davis, chose soft white crepe meteor for her wedding robe, the trimmings of satin pearl embroidery. Her tulle veil worn cap style was held to her head by an orange blossom coronet. Her bouquet was a shower of bride roses and valley lilies. The attending group continued the harmony of the decorative scheme.

Mrs. Frances Colby as matron of honor, wore a gown of navy blue satin and georgette, hand embroidered in Persian colors. Her picture hat was black, trimmed with plumes. She wore a corsage bouquet of pink roses.

Miss Mabel Montgomery was bridesmaid and wore a beautiful gown of taffeta in pink and gold shades. With this she wore a large black lace hat and carried an arm bouquet of pink Killarney roses.

The best man was Elmer Hubley and those having usher honors included Perley D. Ramey, Ritson E. Colby, Howard Evans and Harold Little. The rooms of the home where the reception was held were bright with Autumnal foliage, asparagus ferns, dahlias and other garden flowers.

Little Florence Leona Durling, sister of the bride, and Florence May Davis, a cousin of the bride, were ribbon bearers, and formed an aisle from the hall to the receiving party.

In the receiving line with the receiving party were Mrs. Joseph Durling, mother of the bride, and Mr. and Mrs. Davis, uncle and aunt of the bride.

Mrs. Perley Ramey presided in the gift room and also had charge of the guest book. Refreshments were served. Following a wedding trip to the White Mountains, Niagara Falls and Toronto, Canada, Mr. and Mrs. Burno will reside on Greenville St., Riverside.

ANALYSES OF COAL

Intelligent purchase of coal of bituminous grade demands knowledge of fuel classification. To the average consumer, perhaps, coal is a single elementary substance. As a matter of fact, however, it is a compound of fixed carbon, volatile matter, which is driven off in the process of combustion, moisture, sulphur and the incombustible residue known as ash—(Coal Trade Journal Vol. 54 No. 33).

The following is an analysis of Springhill, (Dept. of Mines Canada Bulletin No. 22):

Fixed Carbon	81.3%
Ash	1.4%
Sulphur	0.8%
Volatile Matter	11.2%

The above analysis shows Springhill to be superior to any in this province.
