## A SAVING OF 40%

IS MADE BY USING OIL FOR  
FUEL UNDER

## The Aerated Fuel Co.

SPRINGFIELD, MASS.

## SYSTEM

This System uses oil, with a higher pressure of  
air, and is adopted in the United States and Cana-  
da for all kinds of iron and steel forging, temper-  
ing, welding, annealing, etc.; for generating steam;  
for burning lime, cement, sewer pipes, terra cotta,  
brick, etc.; for heating chemicals and asphalt; for  
japanning; for oxidizing lead; for drying sand,  
salt, etc.; for singeing cloth, etc.

Its advantages over coal and wood are—A per-  
fectly even fire, at all times under complete control,  
free from gas and dust, and ready for use in a minute  
after turning valve, and no increase in insur-  
ance rates.

Some of the companies now using this system in  
Canada are:—The Massey-Harris Company, The  
Wilkinson Plough Company (of Toronto), The D.  
F. Jones Manufacturing Company, The Spring and  
Axe Company, and George Gilles (of Gananoque),  
The Dominion Bridge Company (of Lachine).
