

A LEAMINGTON MIRACLE.

THE TERRIBLE EFFECTS OF TYPHOID FEVER.

Mr. Joseph Robson, a well-known Farmer is Restored to Health and Strength after Nine Years of Terrible Suffering—All Hope of Recovery had been abandoned and he looked upon Life as a Burden.

From the Leamington Post. Mr. Joseph Robson, whose home is on the first concession of Merces township, about a mile from Leamington is known to almost every resident of this section.

For years past, Mr. Robson has been a victim of paralysis in its worst form, and his case was regarded as hopeless not only by himself and his friends but by the doctors who had attended him.

To one who knew Mr. Robson's pitiable condition as we did, it was with no small degree of surprise and pleasure that we recently saw him drive through town sitting quite erect on a cross board in a lumber wagon, and controlling a lively team of horses.

Asked what miracle had brought about this changed condition, and asked if he had any objection to the publication of the facts connected with his case. Replying he said he would indeed be a mean man if he refused to let the public know how his wonderful recovery had been brought about.

Mr. Robson then told the story of his illness and recovery about as follows:— "About ten years ago, while living in the state of Ohio, I was taken down with an attack of typhoid fever, and for three months hung between life and death in a perfectly unconscious condition.

Recovering from this I ventured out to work too soon, the result being that I was taken down with a severe cold. During the first stages of my trouble I was able to move about with some difficulty, but the disease gradually fastened itself on me and I found one sense after another becoming paralyzed.

At this time my prospects in life were by no means discouraging. I owned a magnificent farm not far from Toledo, on which we had a comfortable home, and I owned not a dollar to any one.

I continued to doctor with specialists and experts from all parts of the States, each of whom promised to cure me of the disease, which they said was paralysis, but in every case they left me as bad and sometimes worse than they found me physically, and certainly worse financially.

After suffering in this manner for two years my family concluded that a change of climate might do me good, and so we removed to Canada, settling where we now reside.

This hope, however, proved a delusion, and each year found me worse and if possible added to my misery. Life itself became a burden to me and I knew that I was worse than useless to my friends.

I was unable to feed myself as my head and hands shook so that I have frequently left stabs in my child when trying to put my fork to my mouth. It was only occasionally that I could move around at all, and then only with the aid of crutches.

I lost almost entire control of my power of speech and got so bad that members of my own family could not understand what I was saying. My whole nervous system seemed undermined, and I abandoned all hope of ever again being any use to my family.

To Our Subscribers in Arrears.

The Catholics of any community or section cannot expect the secular or other papers to stand up for their interests, hence the necessity for papers of their own. And having such papers they cannot expect the support to come from any but themselves.

Every Catholic should be interested in the great questions that are agitating the world to-day, to say nothing of supplying their families with fine, wholesome reading matter. Such being the case why not remit the small amount of their subscription? Why not induce your neighbor to take a good paper also?

In fine, why not take a little interest in your own paper and help the publisher to make it better and cheaper, thereby encouraging home enterprise.

This Northwest Review, by persistent hard work has, we might say, been placed in the front rank of Catholic journals, and will be constantly improved if you send in the amount of your indebtedness for your subscription. It is a small amount to talk about but we will be highly elated to receive even that.

The total amount thus received would place us in easy financial circumstances. Some of our subscribers would be scandalized, others would be humiliated were we to publish the names of those who have failed to pay their subscription to this paper for from three to six years.

We have a large number of such delinquents on our list. They want the paper, but don't want to pay for it. This is neither business-like nor honest. Come, dear delinquent, pay up your subscription to this paper, and thereby save yourself humiliation. You will feel better yourself, and we will endeavor to make you enjoy the paper more than ever.

Happy the man who sees a God employed in all the good and ills that checker life.

CANADIAN PACIFIC RY. OCEAN STEAMSHIPS. WORTH THEIR WEIGHT IN GOLD. Dr. Morse's Indian Root Pills. Keep the Works in good order. NORMAN, Ont., January 15, 1890. W. H. COMSTOCK, Brockville, Ont. DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first, only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality. Yours faithfully, H. F. ATWELL. The Travellers' Safe-Guard.
