Fax: (514) 774-6957

■ Les Plastiques MC specializes in the production of reinforced fibreglass whirlpools and spas noted for their comfort and convenience features. The company undertakes continuous research and development to find new materials and evaluate new shapes and production methods. As a result, the customer knows that an Alcove product from Les Plastiques MC represents the best the market can offer.

The Alcove whirlpool series offers eight jets, two air controls, automatic rinse, $\frac{3}{4}$ hp motor and choice of therapeutic action, depending on model. Available in a wide selection of decorator colours and body-contoured shapes in sizes to fit one or two people, the Alcove tubs provide the ultimate in comfort.

The Alcove spas are designed to accommodate up to five people in luxurious comfort. Produced in a choice of shapes, colours and sizes, the spas feature eight water jets, therapeutic seat, convenient control panel, head rest and heated entry ramp.

Alcove products are especially popular in eastern Canada and the New England states.

Les Thermoformages ACRIMAX Inc.

500, rue Melchers
Berthierville, Québec

■ The ACRIMAX moulded acrylic bathtubs and spas offer luxury, style and comfort in an excellent selection of designs and colours.

The Concept is a European-inspired bathtub that features integrated headrest and six adjustable whirlpool jets. The classic Europa I is a modern whirlpool bath designed for the retrofit market. The larger, deeper Europa II has the same classic styling and such features as cushioned headrest and six adjustable jets. The oval shaped Premice is a spacious, luxurious bathtub with cushioned head rest and adjustable jets. The elegant Oland is designed for easy access and comfort in an affordable whirlpool. The luxurious Coro whirlpool is just the right size for condominiums. The luxury built-for-two Jaffa is a corner tub and the Privilege is the ultimate in comfort for two with its 188 cm (74 in.) length, 145 cm (57 in.) width and 51 cm (20 in.) depth. The most

sumptuous whirlpool in the ACRIMAX line is the Prisma, a redesigned corner tub.

Made of best quality acrylic, the ACRIMAX spas are designed for indoor or outdoor use and each offers a self-supporting base, adjustable jets, convenient control panel, comfort and luxury. Available models will accommodate up to nine people.

The roomy, space-saving ACRIMAX shower enclosures are made of acrylic reinforced fibreglass and shaped with rounded angles at the base and walls for easy cleaning. They are available in the same choice of attractive designer colours as the bathtubs and spas.

ACRIMAX products represent superior quality at a competitive price. Most models carry a 10-year warranty.

Stylish acrylic bathtubs by ACRIMAX are the ultimate in luxury.
