

3. Notwithstanding the provisions of paragraph 2, subparagraph (a), as long as according to the laws of Iceland dividends paid by a company which is a resident of Iceland may be deducted from the taxable profits or may be carried forward as an operating loss of such company for income tax purposes, dividends paid by such company to a resident of Canada may also be taxed in Iceland and according to the laws of Iceland, but if the beneficial owner of the dividends is a resident of Canada, the tax so charged shall not exceed 15 per cent, on such part of the dividends which is deductible from the company's taxable profits or can be carried forward as an operating loss of the company.

4. The term "dividends" as used in this Article means income from shares or other rights, not being debt-claims, participating in profits, as well as income which is subjected to the same taxation treatment as income from shares by the laws of the State of which the company making the distribution is a resident.

5. The provisions of paragraphs 2 and 3 shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in the other Contracting State of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such case the provisions of Article 7 or Article 14, as the case may be, shall apply.

6. Where a company which is a resident of a Contracting State derives profits or income from the other Contracting State, that other State may not impose any tax on the dividends paid by the company, except insofar as such dividends are paid to a resident of that other State or insofar as the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State, nor subject the company's undistributed profits to a tax on undistributed profits, even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in such other State.

7. Nothing in this Convention shall be construed as preventing a Contracting State from imposing on the alienation of immovable property situated in that State by a company carrying on a trade in immovable property or on the earnings of a company attributable to a permanent establishment in that State, a tax in addition to the tax which would be chargeable on the earnings of a company which is a national of that State, provided that any additional tax so imposed shall not exceed 5 per cent of the amount of such earnings which have not been subjected to such additional tax in previous taxation years. For the purpose of this provision, the term "earnings" means the earnings attributable to the alienation of such immovable property situated in a Contracting State as may be taxed by that State under the provisions of Article 6 or of paragraph 1 of Article 13, and the profits, including any gains, attributable to a permanent establishment in a Contracting State in a year and previous years after deducting therefrom all taxes, other than the additional tax referred to herein, imposed on such profits in that State.
