

significance to hundreds of millions of people, and the bearer of the revolutionary movement of the working class throughout the world."

Then it goes on to say:

"The socialist revolution in European and Asian countries has resulted in the establishment of the world socialist system. A powerful wave of national liberation revolutions is sweeping away the colonial system of imperialism."

One does not have to sort out these passages:

"The victorious workers and peasants lacked knowledge of state administration and the experience necessary for the construction of a new society. The difficulties of socialist construction were greatly increased by the fact that for almost 30 years the U.S.S.R. was the world's only socialist state and was subjected to incisive attacks by the hostile capitalist environment."

Then it says again:

"Socialism has done away forever with the supremacy of private ownership of the means of production, that source of the division of society into antagonistic classes. Socialist ownership of the means of production has become the solid economic foundation of society. Unlimited opportunities have been afforded for the development of the productive forces."

Then it also says:

"Under the leadership of Lenin it worked out a plan for the radical transformation of the country, for the construction of socialism. On the basis of a thorough scientific analysis, Lenin elaborated the policy of the proletarian state for the entire period of transition from capitalism to socialism. He evolved the new economic policy...designed to bring about the victory of socialism."

And so Khrushchov goes on. He says that within this generation the Kremlin will have succeeded everywhere in the world in bringing about the changes that are set out in that manifesto. He also indicates that coexistence means the acceptance by the free world of the will of the Communist world.

I think all of us are agreed as to the seriousness of the events of recent days. What should be done? There have been a number of suggestions made, all of them helpful... I am...going to say something regarding the possibility of the United Nations having a larger place in an endeavour to bring about a settlement of this problem.
