

unusualness - Well we think we are off to California, with the chicks the end of this month for three. Its a prodigious undertaking but it shuts down one home.

Do you think that there might be the remotest chance of H.A.L. Fisher accepting the Principalship of this University? When men become ex-ministers for an empty period & have to sustain themselves by their pen as I believe he is doing, they sometimes consider offers they w^d. scorn at other times. Think how proudly the western U. could set beside McGill & Toronto if he were our man.

I wish you could have heard Sir Adam Beck last night giving us a dissertation on what he means shortly to put before the Chamber of Commerce on what the Hydro Commission has done for Ontario & what
