

March
Fifteenth
1920.

Dr. C.E.Moyse,
Arts Building.

Dear Dean Moyse:-

You will remember that about the opening of the session I sent to you an application from Miss Jacqueline M. Norton for a position, I think in the Royal Victoria College. Her name was brought to my attention by Sir John Kennedy. You informed me that there was no position for her at that time, which information I passed on to Sir John.

He has now written to me again, enclosing a letter from Miss Norton, asking whether we can find any position for her now that the staff is being made up for next year. I am again passing the letter on to you, with a request that you will kindly communicate directly with Sir John Kennedy giving him information with reference to the chances of Miss Norton securing a position with McGill University, and at the same time returning Miss Norton's letter to Sir John, as he requests.

Yours very sincerely,

Encls.

Acting Principal.
