

TESTIMONIALS.

The following Testimonials taken from a number received, will suffice to show the very high estimation in which the "Unique" Telephones are held by those using them:—

MESSRS. JOHN STARR SON & Co., Ltd., Halifax, N. S.

ARICHAU, C. B., June 30th, 1892.

Dear Sirs,—Replying to your enquiry, as to our experience with the "Unique" Telephones purchased from you, we have to say that in every way they have given us the utmost satisfaction.

We started Exchanges, in Arichat, and Descousse nearly two years ago, during all of which time we have not had any trouble with them of any kind: one point we especially note, is that the Transmitter never requires adjustment, and is always the same, being unaffected by atmospheric changes, etc.

The switch boards are very neat and simple and the whole installation has been a complete success.

We are making considerable extensions this summer and adding new exchanges, making six in all, and all the instruments and supplies for which we purchased from you. We are pleased to recommend the "Unique" Telephones.

Yours very truly,

THE UNION TELEPHONE CO.,

GEO. M. SHAW, *Manager*.

JOHN STARR, SON & Co., Ltd., Halifax, N. S.

MIDDLETON, N. S., October 25th, 1892.

Dear Sirs,—We have yours of the 21st inst., asking us to state our experience with the "Unique" Telephone, and in reply would say, that in September, 1891, we purchased thirteen of your No. 3 Instruments, which we put up in series on sixteen miles of single circuit, and which gave such satisfaction that we were led to extend our lines throughout the Annapolis valley, and we have altogether sixty-three "Unique" Telephones in use, all giving perfect satisfaction. We have eighty-five miles of Trunk Line with eight different Exchanges, and wherever the "Unique" is put, it gives satisfaction.

As you claimed, these Telephones never require re-adjustment, and we have never had to alter a Transmitter on any we have had. They are very clear and distinct, and we can converse easily over our entire circuit.

We may also mention that the Wire, Batteries and other supplies furnished by you have given excellent satisfaction.

Yours very truly,

VALLEY TELEPHONE CO.

T. A. PEARSON, *Secretary*.

JOHN STARR, SON & Co., Ltd., Halifax, N. S.

ANTIGONISH, N. S., October 20th, 1892.

Dear Sirs,—Replying to your enquiry as to the result of the alterations made by you in our Telephones, by putting on the "Unique" Transmitter, Switch and Receiver, we are pleased to say that our Exchange is now giving entire satisfaction, which it had never done before the telephones were altered by you.

We are perfectly satisfied with the "Unique" and expect to use them in our further extensions.

Yours very truly,

ANTIGONISH TELEPHONE Co., Ltd.,

RUFUS HALE, *Manager*.

MESSRS. JOHN STARR, SON & Co., Ltd., Halifax, N. S.

STELLARTON, N. S., October, 24th, 1892.

Dear Sirs,—We are pleased to say that the Telephones which you altered for us are giving good satisfaction, and since received from you are working well. They are very distinct and always the same.

Yours very truly,

ACADIA COAL CO., LTD.,

H. S. POOLE, *Agent*.
