URE.—DICTIONARY OF ARTS,

Manufactures, and Mines, containing a clear Exposition of their Principles and Practice. By Andrew Ure, M. D., F. R. S., &c. Illustrated with 1240 Engravings on wood. One thick volume of 1340 pages, bound in leather \$5 00, or in two volumes, \$5 50.

In every point of view, a work like the present can but be regarded as a benefit done to theoretical and practical science, to commerce and industry, and an important addition to a species of literature the exclusive production of the present century, and the present state of peace and civilization.—*Athenæum.*

Dr. Ure's Dictionary, of which the American edition is now completed, is a stupendous proof of persevering assiduity, combined with genius and taste. For all the benefit of individual enterprise in the practical arts and manufactures, and for the enhancement of general prosperity through the extension of accurate knowledge of political economy, we have not any work worthy to be compared with this important volume. We are convinced that manufacturers, merchants, tradesmen, students of natural and experimental philosophy, inventive mechanics, men of opulence, members of legislatures, and all who desire to comprehend something of the rapidly accelerating progress of those discoveries which facilitate the supply of human wants, and the augmentation of social comforts with the national weal, will find this invaluable Dictionary a perennial source of salutary instruction and edifying enjoyment.—*National Intelligencer.*
