

NEWS OF SPECIAL INTEREST TO WOMEN

MANY NOVELTIES SEEN IN LINGERIE

Result of Wide Skirt Influence Upon Under-clothing.

MUSLIN UNDERSKIRT

Need of Clinging Foundation Skirt at Once Apparent.

Already the influence of the wide skirt is being extended to the petticoat realm and many novelties in lingerie are the result.

The need of the clinging foundation skirt is at once apparent when the width of the revived furo frocks is considered, and especially with the dance frock is the crepe underskirt a necessity.

French Designs Favored. Empire effects in night robes are favored by French designers.

One very dainty negligee was composed of an undershirt of the princess order, of pale pink crepe de chine, over which was worn a coat of lace which exploited a tunic reaching almost to the knees.

While white and pink remain the favorite colors for the fashionable undergarments, pale blue appears in many lovely models for the woman who prefers this shade, and many soft tones of yellow are also winning favor.
