"Several fractions of our troops succeeded in crossing to the

right bank of the Yser, north of Dixmude. "The enemy continued an intermittent cannonade near Ramscapelle and on our front stretching before Dixmude, and also on the outskirts of Nordichmon and Pyregael. Our batteries have each

Tonight's official French statement says: "To the north of Dixmude the Belgian troops, who have succeeded in throwing up a bridgehead on the right bank of the Yser, were subject to violent attacks by three German battalions last night. His Recall Would Be Looked Upon as an Exceedingly Friendly Act.

Special to The Toronto World.

WASHINGTON, May 11 .- Dr. Bernhard Dernburg, one-time minister of the colonles in the kaiser's cabinet, will soon be sent back to his fatherland, if any feasible way to do so can be found, it was said here today. There is no secret among officials here that Dr. Dernburg has become one of the greatest nuisances of these trying times. His efforts to prevail upon American citizens to violate President Wilson's neutrality proclama-tion have aroused so much irritation in Washington that it is understood enquiries are on the way to discover some means by which the one-time member of the kaiser's cabinet can either be shipped One Bath Allowed Each Week and Two Letters Each

Month.

NEW YORK, Wednesday, May 12.—An official report was issued last night of the visits paid by Ambassador Gerard to British officers arrested in Germany as a reprisal for Britain's refusal to treat German submarine prisoners as ordinary prisoners of war. The report, which was written by Charles H. Russell, jr., who accompanied the ambassador, says: At Magdeburg fourteen British officers are placed in solitary confinement in a prison. Each is locked in a cell which he is only allowed to leave for an abour in the morning and an hour in the afternoon, during which time the officers are permitted to exercise together in the courty and allowed to take together toget that he spoke with authority. His chief business, apparently, has been openly to carry on a propaganda to cause American citizens to violate the neutrality proclamation of President Wilson. It is pointed out here that Dr. Dernburg, not being a citizen of the United States, is here as a guest of the country, and that he has abused and grossly violated the hospitality of this country by his obnoxious conduct.

vided the excitement of the evening, when the former said: "There must be perfect harmony and no packed houses if the Liberal party are to succeed in this election when it does come." He stated that last year a Liberal who had been looking after one of his districts was concerned in a deal involving \$12,500, and then refused to vote for him. O'Reilly took exception to the utterance and said: "I do not think that Ald McGuire is a capable man to handle civic affairs and make a statement like that," but McGuire said, "This is a country for free speech and I refuse to be chloroformed, and anything that I say I am ready to prove. However, I am only quoting these incidents as happening that must be avoided in the future if the Liberal party is to be elected and enjoy the entire confidence of the voting public."

Frank Regan, acting chairman for the evening, reproved Ald. McGuire for bringing up the matter of money be ing accepted.

The officers elected were: Frank

East End German Shops Wrecked Before Police Gained Control.

INTENSE BITTERNESS

Fears Felt That Disorders on Greater-Scale Are Impending.

LONDON, May 11 .- The east end of London tonight was the scene of seri-ious anti-German riots arising from the indignation over the sinking of the Lusitania and the air raid in Southend early yesterday morning.

Mob attacks on German shops occurred in the Poplar, Limehouse, Stepney, Walthamstow. Bethnal Green and Camden town and other districts. Windows were smashed shutters and doors were torn down and premises wrecked, and in some instances the inmates of the houses were mal-

treated.

Large bodies of police were called out to suppress the disturbances and eventually order was restored, but there is apprehension that the trouble will be renewed tomorrow in an aggravated form, as the feeling is rapidly rising and is being fostered by the demands of the press and many public men that drastic measures be taken against tallen enemy subjects.

Police Baffled.

At Queen's Crescent, Camdentown, where an open-air recruiting meeting was being held, the speakers advised the crowd to refrain from attacks on Germans. This advice was unheeded, however, and directly the meeting ended a crowd of about 5000 persons made a move upon all the German shops in the neighborhood and pelted the windows with brickbats.

The police were unable to control the rioters, and a squad of territorials

was brought to the scene, and to-gether with the mounted police gradually restored brues, not done, however, until a number of shore shops had been

The local men, however, never allowed the matter to wholly drop and yesterday the works department started the 14-foot pavement. Instead, however, of placing it fairly in the centre of the -roadway as expected, they are building the pavement of one side, giving as a reason that the other half of the road will be used for putting down the sewer system. The life of the pavement is five years, and North Torontonians say that the new sewer will not be begun before that fime, and that the plan outlined by the city is an eyesore, and that moreover residents living on the side furthest from the pavement will refuse to pay any front-age tax. An injunction will probably be taken out within a day or two in order to test the validity of the city's action.

In many towns the premises occupied by Germans have been stormed and damaged or have been stormed and damaged or destroyed, and even the exchanges in London and provincial towns, which hitherts had permitted persons with German blood in their veins to rotain their memberships, are taking the drastic steps of barring the doors to them, regardless of all considerations.

Manchester. Sailord and Birkenhead. In Liverpool the Germans have been interned, and those who are naturalized subjects of Great Britain, have been advised to go to interior towns or seek internment. Many of them have decided upon the latter course. A demand is being made by the newspapers that all the 25,000 Germans still at large should be similarly treated. This evening deputations from the stock exchange, the Baltic exchange, Iloyd's and the corn exchange, following a meeting on the steps of the royal exchange, marched to the house of commons and presented a petition to the attorney-general, which called attention to the "grave danger that exists by allowing alien enemie sto remain at large in the country." Pupils of Atherton Furlong Showed Considerable Skill at Second Recital Last Night.

Miss Muriel Sanderson was the bright and particular star on the program at Massey Hall last night, when the second of three recitals was given by the pupils of Atherton Furlong. Altho quite young and her voice not fully developed, she showed remarkable ability in one selection and two encores. She possesses a high, clear soprano and certainly was the delight of the evening.

Ross Robertson, a lad of 11 years, appears to be successor to Wilfrid Morrison as a soprano.

The big feature of the evening was the interpretation of the first part of Act II from Madame Butterfly. Altho handicapped considerably by lack of stage effects the work was well performed. Miss Perle Chelew as Cho-cho-san had an opportunity to show her ability, both as an actress and singer. Her singing was indeed splendid. She was ably assisted by Mrs. Maud Parsons as Suzuki, a contralto of considerable merit. Little Mary Howard as Trouble did everything asked of her in a pretty manner. F. E. Coucher did good work as Goro.

The Miserere scene from II Trovators was well rendered by Miss Alice Rowe. Mr. Augustine Arlidge and a well-trained chorus.

The final recital will to given tonight.
