

CORONER'S JURY GET A SURPRISE

Later Evidence Completely
Contradicts That of
First Witnesses.

That the ambulance, driven by Thomas Hitchcock, which overturned near the corner of Christie street and Yorkville, on Nov. 12, after colliding with a Hydro pole, was impacted against the pole, was struck by another auto, was the summary of evidence presented by George Furnival at the inquest into the death of George Simms, held at the morgue last night.

The evidence of Furnival, who was the last witness called, came as a distinct surprise to the jury, as previous witnesses did not see the two autos collide. O'Brien, who was a passenger in the ambulance at the time of the accident, was the only other witness who corroborated this evidence. Other witnesses of the accident gave evidence that the two cars had approached the intersection at practically the same time, and that they had not seen them collide.

George Simms, who was killed when the ambulance overturned, was sitting within the car in the exact position where the impact took place, and did not regard consciousness. Other witnesses of the accident gave evidence that the ambulance, which was driven by Thomas Hitchcock, escaped with minor injuries.

Had Right of Way.
According to the evidence of Furnival, the ambulance was proceeding south on Christie street, and had the right of way over the car approaching from the east along Yorkville avenue. He stated that instead of turning the motor car had made a wide turn, crowding the ambulance close to the curb, and finally striking it in the rear, driving it over the curb and against the pole. The auto did not stop, but proceeded down Christie street.

The inquest was adjourned for a week to get further evidence on the case. Thomas Hitchcock, driver of the ambulance, awaits trial on a charge of manslaughter.

MUNICIPAL PLAN FOR HYDRO-ELECTRIC

(Continued From Page 1.)

Back," said Mr. Ellis, "and I would move that Sir Adam be our representative."

Mr. Hannigan explained that while the members carry on all of the work during the early years, the task is now becoming too heavy for them. "This plan has been given to me by the work extension committee, and the province to the other, so that the executive committee feel that more assistance should be given," he said.

Too Hard-Worked.
"Construction of Hydro radials will be commenced shortly, and we feel that we must do all we can to conserve the life and health of our chairman. He has been working, not only ten or eight hours a day, but often 24 hours, and this cannot be maintained by any person. This is the reason we want two representatives."

C. H. Denton of Tillsonburg objected to the six-year term. "There might be a chance of some men being elected to the commission who would not be capable of acting in the best interests, and it would not be wise to leave them there for so long," said he. "I would suggest that three years be the length of the appointment. If satisfactory, they can be given another term."

The four years' term was finally agreed on.

At a luncheon at noon Sir Adam predicted a great future for municipal ownership in the province, as fore-shadowed by the tremendous success also by the great results obtained in the operation of the first municipally-owned railway, the London and Port Stanley Railway.

Sir Adam took occasion to warn the delegates that "you are not over the peak yet" so far as municipal ownership is concerned. "The Hydro-Electric act is filled with jokers, and one of the first acts he should ask of the now government is to amend the act so that it will make the Hydro-Electric act a municipal undertaking solely, rather than a government-owned plan. It must be made more along the line of the radial railway act."

Public Ownership Unpopular.
Touching on the statement made by a former speaker that Sir Thomas White had been converted to a municipal-ownership view from an opposite, Sir Adam intimated that if the Ottawa powers would do something to show that this was really the case, he would be more willing to accept it. "Letters I have received from senators, members of parliament and others indicate that public ownership is not at all popular with the government at Ottawa," continued Sir Adam. "However, this is as it should be. Let us as municipalities build and operate radials throughout the province as we have distributed Hydro power."

Referring to a statement attributed to Mr. Vanderlip in Toronto at a recent dinner, that public ownership cannot be a success in a democratic country, Sir Adam pointed to the success of Hydro.

It is only because they are not used to taste of what is excellent that the majority of people take delight in silly and insipid things, provided they be new.

NO EMBARGO YET ON SCREENINGS

Board of Commerce Suggest
Interested Parties Settle
Out of Court.

At the conclusion yesterday afternoon of the hearing before the board of commerce of the appeal on behalf of the Canadian Feed Manufacturing Co. to have an embargo placed on the screenings of Canadian grain cleared at the lake head terminal elevators, the claim that a pool or combine, which has control of this commodity, is being operated by the terminal elevator interests, with headquarters in Minneapolis, the parties agreed to act on the suggestion of Judge Hobson that they attempt to settle the matter by negotiation between themselves. If after a period of three or four weeks no settlement is reached, the Canadian Feed Manufacturing Co. will re-appeal.

The appeal was made by the Canadian Feed Manufacturing Co. on behalf of the Canadian Feed Co., and the charges against the terminal elevator interests are embodied in the following statement submitted to the board of commerce yesterday, with the request for the embargo.

"The Canadian Feed Manufacturing Company, Port William, has a capitalization of some \$300,000, was promoted for the purpose of manufacturing stock food out of the screenings of Canadian grain cleared at the Lake Head terminal elevators. This industry is not protected in any way.

"Under the law, screenings cannot be shipped in their unmanufactured state from one part of Canada to another, but can only be exported after they have been manufactured into stock food and supplied as feed for Canadian livestock."

"Owing to a pool or combine operated by the Terminal Elevator interests, all screenings are exported to Minneapolis, and the Canadian Feed Manufacturing Company cannot get screenings to keep going. This industry is being starved for raw material. The thousands of Canadian screenings are being exported to build up the stock food industry in the United States.

"The fact that a pool exists was disclosed by the government's (Prince of Wales) audit, the report of which was laid on the table of the house of commons last session.

"Each terminal company sold screenings to the pool at an agreed-on price, and the company exported the screenings to the United States. They declined to make a price to the Canadian feed manufacturers at all.

"When the audit disclosed that the pool existed, it was dissolved and a new pool formed across the line in Minneapolis under the name of the Superior Feed Company. The officers and shareholders of which are, it is understood, the heads of the same Canadian terminal elevators.

"All screenings are sold and exported to this concern, and the Canadian Feed Manufacturing Company is discriminated against and cannot get supplies to keep it running, thus enabling the price and preventing or lessening competition in, or substantially controlling the manufacture and sale in stock feed in this country, contrary to the provisions of the combines and fair prices act, 1919.

"The representation that only refuse is exported is incorrect, as is disclosed by the official inspection of cargoes showing that better grades, known as elevator screenings and scalings were exported. It is denied that only refuse screenings are exported."

It is only because they are not used to taste of what is excellent that the majority of people take delight in silly and insipid things, provided they be new.

YORK COUNTY AND SUBURBS

BEACHES
ENDORSE REFORMERS

Members of Home and School Club Optimistically Favour Educational Reform Association.

A well-attended meeting of William Road Home and School Club was held last night, when a resolution endorsing and supporting the campaign of the Citizens' Educational Reform Association, was unanimously carried, and they also appointed a committee of one woman and three men for the purpose of developing the campaign and devising ways and means to raise funds. J. Asher was appointed convener.

A. Farmer spoke interestingly on the value of a vocation, and Miss Basterville played several solos on the piano, a gift of the Home and School Club to the William Road School.

Thos. Learte occupied the chair. The members present spoke with enthusiasm of the new Reform Association, and optimism was the keynote of the meeting.

Educational Reformers Meet;
Officers Elected for Year

A representative meeting of the Citizens' Educational Reform Association was held last night in the city hall when permanent officers were appointed. The following were the officers elected: T. L. Howard, president; Mrs. L. H. Siegel, first vice-president; Norman McEwen, secretary-treasurer, and C. F. Baker corresponding secretary. Finance committee: Joseph Kent, J. Hemphill, T. Z. Howard and J. Asher. Candidate committee: G. Shields, Ward 8; George Smith, Ward 1; Mrs. Payne, Ward 5; Mrs. Passey, Ward 3; Mrs. Irwin, Ward 4; T. Z. Howard, Ward 5; Mrs. Ewens, Ward 6, and Mrs. Duncan, Ward 6.

Following resolutions were adopted: "That a candidate committee be appointed to wait upon the board of commerce and for the purpose of drawing up a slate of candidates for the board of education," and "to co-operate with the Local Council of Women in the matter of candidates for the board of education only."

George Shields suggested that the organization should merge with the Central Council of Ratepayers. It was eventually decided to call another meeting at the earliest possible date.

HOW BIBLE IS DISTRIBUTED.

Rev. A. F. MacKenzie, of the Upper Canada Bible Society, who was the special preacher at Waverley Road Baptist Church on Sunday morning, told the children of the church in the British Foreign Bible Society and its marvelous work of printing and distributing the Bible in 517 languages and dialects.

CHRISTMAS BOX FUND SWELLS.
Gifts of clothing and contributions amounting to \$53.50 have been received by Mrs. Boyd, president of Waverley Road Baptist Church, for the Christmas box fund to date.

AN INFORMAL RECEPTION.
An informal reception was recently held at the home of Mrs. Campbell, in honor of Mr. and Mrs. Colin Campbell. Many friends from the Beaches were present. Mrs. Campbell's daughter, Mrs. A. T. Couric, member of the board of education.

CELEBRATE CRYSTAL WEDDING.
To celebrate the crystal wedding of Mr. and Mrs. Hartley Snider, Beech avenue, a surprise party was given at their home recently, when many neighbors and friends were present. Games and music were the order of the evening. An enjoyable time was spent.

WEST TORONTO

PURPLE STAR L.O.L. MEETS.
Carlton Purple Star L.O.L., No. 602, held its annual meeting and election of officers last night in St. James' Hall. The new officers are: George Duncan, W.M.; R. Yetman, D.M.; F. Sanson, chaplain; E. Steadman, recording secretary; W. Hissam, financial secretary; E. Connolly, treasurer (for the thirtieth consecutive year); C. Yetman, D. of C.; C. Foley and A. Scott, lecturers; and J. Kingston, C. A. Carter, George Lea, J. R. Nichols and N. A. Boylen, committee. The election was conducted by W. Bro. John Thompson, district master, and was assisted by W. Bro. W. J. Dempster, district chaplain, and W. Bro. J. Begley, deputy district master. Eighteen members of the lodge were enlisted for overseas service will be tendered a banquet by the lodge on Dec. 29. W. Bro. F. McVean, the retiring worshipful master, leaves next week to take up residence in Detroit.

TODMORDEN

U.V.L. BRANCH MEETING.

A meeting of the Todmorden Branch, U.V.L., will be held in Torrens Avenue School on Monday evening next, when the election of officers will take place. According to the statement of James Macdonald, organizing secretary, a large number of members have been received to date.

WESTON

GROUSE HILL L.O.L. BANQUET.

Grouse Hill L.O.L., No. 191, held its annual banquet in Oddfellows Hall, Church street. About one hundred members and their families were present. W. Bro. C. Bull, worshipful master, presided. After the banquet a concert was held. An address on "Orangemen" was given by W. Bro. W. J. Douglas, past county master. At the close of the concert the members held an old-time country dance, with W. Bro. Arthur Varcoe as director of the dancing.

Grouse Hill L.O.L. was organized over eighty years ago by members of the Griffith family. A fac-simile of the certificate of the late W. Bro. Mathew Griffith adorns the lodge-room. It was granted by his Orange lodge in London in 1813. W. Bro. Thomas Griffith, former warden of York county, is a past master.

CLOTHING AND FOOD COSTS ARE PROBED

Commerce Board, in Hamilton, is Told Why Suits Prices Soar.

Hamilton, Ont., Nov. 18.—The board of commerce held sittings this morning and afternoon in the city council chamber.

Vice-Chairman O'Connor and Commissioner James Murdoch represented the board. The report of Col. F. Morrison, the local fair-price commissioner, was presented, and the manufacturing and wholesale clothiers were under examination this morning, and the retail clothing men this afternoon. H. C. Beckett also laid before the board some recommendations on behalf of the wholesale grocers.

Discuss Clothing Prices.
In taking up the retail clothing trade this afternoon, the chairman of the board, after Col. Morrison had submitted a number of statements with reference to the cost of the goods, brought the price commissioner, said: "I am going to ask you a very bold question. Do you know of any individual case that you as a lawyer in court could establish as a case of what we call familiar knowledge?"

"I don't think so," replied Col. Morrison. "I don't think that there is one of the companies doing something today that they have not done in past years."

"Or is it a case of looking for better methods in the future, rather than trying to get the dealers for the acts of the past?" suggested Mr. O'Connor.

"Yes, I think so," replied Col. Morrison.

The actual cost of the cloth of four or five different grades put into suitings was first considered in the clothiers' investigation. There were five grades of cloth, the cost of a suit made of the first grade being \$12.95, overhead and selling expenses bringing the complete cost to the trade was \$15.50.

In 1914 this cloth cost 48 cents a yard and the selling price was \$6.50.

Cloth jumps 400 per cent.

It should be ascertained that all cloth made in Canada in the last five years had increased from 300 to 400 per cent., while that made in England had gone up 500 per cent.

Grade two suit cost \$2 per yard; three being the same amount of cloth—3½ yards in a suit, making the cloth for the suit cost \$7.75; shrinkage, cutting, lining, trimming and making added \$1.85; overhead and selling costs made the complete cost \$11.15, and the trade got this suit for \$12.95.

Grade three suit was \$2.25 per yard, the material costing \$7.83; shrinkage, cutting, lining, trimming and making brought the cost to \$13.18, while overhead and selling expenses made the price \$15.93 to the trade. The manufacturers sold this for \$25.

Grade four suit cost \$3 per yard, costs of making bringing it up to \$24.34, which overhead and selling costs further increased to \$30.50. This suit was sold to the trade for \$30; the reason for this being, according to Col. Morrison, that the suit was so attractive a suit and a poor seller.

Grade five suit cost \$4.75 per yard, the material price being \$30.61, increased by overhead and selling expenses to \$38.74. This suit sold for \$40 to the trade, and the manufacturers sold it for \$50.

PREPARING VICTORY FAIR.

Active preparations are now under way for the "Victory Fair," which will shortly be held in the parish hall, First avenue, for the benefit of the church fund. The memorial window in memory of the fallen soldiers of the parish are now being made up by a local firm, and will be ready for unveiling, it is expected, at Christmas.

DANFORTH

SECOND SCHOOL ADDITION

The work of construction in connection with the second school new west end is now well under way and will, it is expected, be completed next January. It is proposed to proceed with the building of the east wing as soon as possible.

It is estimated that the building enlargement will cost in the neighborhood of \$80,000.

RESIDENTS IRATE.

Much dissatisfaction is expressed in the Danforth Park and Woodbine area regarding the delay in installing the electric street and house lights by the Hydro-Electric Commission.

A definite assurance that the matter would be attended to and the installation completed by Christmas.

According to a statement of W. Miller, president of the Woodbine Heights Ratepayers' Association, an indignation meeting of residents will be held within the next few days, when the matter will be freely discussed.

NORWAY

POND A MENACE.

The residents of the Norway district are up in arms regarding the stagnant pond in the centre of the roadway near the intersection of the main road. It has been a menace to the health of the district for twelve months, according to J. Lennox, a prominent resident, many ratepayers are threatening to take action against the city.

LEASES

DEMOLITION PROCEEDS APACE.

The big forge at Leaside is now razed to the ground and the work of tearing down the tool room, a square brick building adjoining the forge site, is stated to be about to commence. The large pile of steel girders and beams used in the construction of the forge are piled on the ground awaiting shipment.

The large building known as "C" plant, and now used as a store, is about half full of machinery and is being dismantled across the line by the United States government.

Jellicoe Accepts Invitation

To Speak at Ottawa Luncheon

Ottawa, Nov. 18.—A telegram was received today by J. E. MacPherson, president of the Canadian Club, from Vice-Admiral Jellicoe, who is now in Vancouver, accepting the club's invitation to speak at a luncheon in the Chateau Laurier on Nov. 23. Vice-Admiral Jellicoe will arrive here two days earlier, and will be a guest at Government House.

PRINCE OF WALES NEW YORK'S GUEST

(Continued From Page 1.)

Burch of the Episcopal diocese of New York. The presentation was made on behalf of the New York Bible Society, which gave a similar Bible to the late King Edward VII. on his visit to this country and, the incognito of Baron Renfrew.

A visit to Fifth avenue had been planned for the afternoon, but the prince's visitors were too numerous and he was unable to leave the cruiser until it was time for him to go to the Waldorf Hotel, where he was the guest of Anne, of Henry P. Davison, representing the former war council and the American Red Cross.

Praise for Red Cross.
The prince praised the relief work of the seven American welfare organizations represented at the dinner. Explaining that his "very modest services as a junior officer in the great war" had enabled him to see "the noble service done in Belgium, France and Italy." The prince said:

"I am glad of this opportunity of meeting you and expressing my appreciation of your work. Some of the societies represented here tonight are more familiar to me than others. I believe their organization is international and very broad in scope. But I have been able to read a short account of what all the societies here have done during the war."

"I understand that all the societies are engaged in permanent work, and I know that much of it is being organized on international lines. I wish you all possible success in the efforts which you are making to relieve suffering and spread happiness in this and other lands."

Truly Democratic.
General Pershing recalled the visit of the prince to his headquarters overseas to review the American troops mingling with us in a truly democratic spirit that made us feel that he was really at the heart of an American. He asked the prince to take back to the British people the thanks of America "for all that they have done for us," and the assurance "that if the time should again come, when the principles of liberty, humanity and justice are put to the test, the men of America will again be found shoulder to shoulder with the men of Great Britain, fighting together in a common cause."

Other speakers were Elthu Root and Mr. Davison.

In a statement tonight to the press, Prince Albert declared that his visit in New York was so much warmer than expected, and that he was taken aback and could not express his feelings adequately in his short address at the city hall.

"Now that I am a New Yorker in my own right," he added, "I can tell you exactly what I think about New York."

Two things that impressed him most, he continued, were "the hearty and dignified of the towering sky line of the city, and the friendly welcome, which intensified the hope that this, my first visit to New York, may be by no means the last."

An enthusiastic welcome was given to the prince by the mayor, who said that he was proud to have the prince as a guest in New York.

The prince's visit to New York was the first of his tour of the United States, and he is expected to spend several days in the city before leaving for other parts of the country.
