RULES FOR AUTOMOBILISTS. Provincial Secretary Issues Regula-

tions for Drivers of Go-Devils, Automobilists will take notice of the

The number on the marker must not be allowed to be obscured by dust.

From sunset to sunrise the marker must be illuminated by a lamp.

The marker number must be painted in black figures not less than two inches in height on the illuminated glass of a lamp to be carried prominently in front of the automobile, the glass being ground or stippled with white paint.

Not more than 10 miles per hour.

Automobile, where the marker is a decomposition propoly company failing to carry out its undertaking—to be allowed to other upon the work of power development.

Automobile and the first two metals have been found at several other localities in Ontario, and at Calumet Island, Quebec. Cobalt bloom occurs sparingly in some of the magnetite deposits near the Town of Madoc, in Eastern Ontario.

Smelted in Europe.

It is stated in The Mineral Indus-

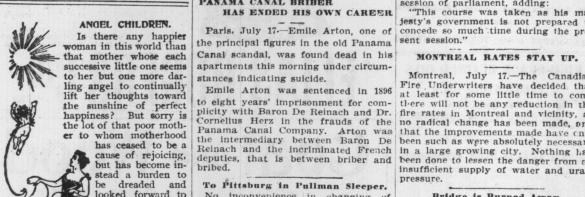

Probate has been applied for for the will of the late Ada S. Chadwick. The \$\text{siloo}\$ left by her will be divided among her husband and five children.

To Anna V. Oldbury will go the entire estate of the late William Oldbury, amounting to \$1855.

The prices have kept up better than it was expected they would two each clause of the redistribution of the redistribution of the speaker, Mr.

London, July 17.—On the speaker, Mr.

Lowther, agreeing on the contention of John Redmond, the Irish leader, that than it was expected they would two

cause of rejoicing, but has become in-stead a burden to

Mrs. Nellie Carl, of Myrtlepoint, Coos Co., Oregon, "my health was very poor. I had been troubled for about eight years with female disease. I doctored with good physicians but obtained no relief, so I wrote to the World's Dispensary Medical Association, and was advised to take Dr. Fierce's Favorite Prescription and Golden Medical Discovery." I did so, and am happy to say my fleaith began to improve and I did my work up to the last, and felt splendid. "I got along finely during confinement, and have the healthiest baby I eyer saw. When he was three months old he weighted eighteen pounds; he is now seven months old and weighs pentiled with the second pounds. I can say I have had no witurn of my old troubles. I thank you very much for the good you have done me."

Any woman may write to Dr. R. V.

Any woman may write to Dr. R. V. Pierce, of Buffalo, N. Y., a statement of her case, which will be considered in absolute confidence by this physician who stands among the foremost specialists of

diseases. He will send her (in a plain, sealed envelope) sound, sensible, valuable advice free of all charge.

Dr. Pierce's great thousand-page, illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 31 one-cent stamps, to pay the cost of mailing only, or cloth-bound for 50

Exported to Europe to Be Smelted. But Chief Value of Ore is

A good deal has been written about the cobalt discoveries in the Township of Coleman, on the line of the Temiskaming and Northern Ontario Railway, but very few people have any dea of what the uses of cobalt are. Cobalt is a metal belonging to the on group and very much resembles nickel in its properties. It can be used for many purposes for which nickel is used. Its principal use is not in its immediate inspection of the parting a brilliant blue color to porce-

ain, glass, tiles and other things of like nature. Cobalt occurs in the ores taken out in this district as an arsenide; that is, in chemical combination with arsenic, in the form of the compound smallite or chloanthite. It must be separated from the arsenic in the treatment of the ores

Silver Chief Element. "

polishes the delicate enamel, but does not scratch, thus it prevents the accumulation of tartar, without injuring the enamel, a property found only in SOZODONT. 3 FORMS: LIQUID, POWDER, PASTE.

# TOWN'S CONGRATULATIONS

In Spite of Much Discouragement, Ontario Niagara Power Co. is Now Supplying Electricity.

recently started its first instalment of electric power-10,000 horse-power-and The chief element of value in the the city council of Niagara Falls has ores is the silver, and nickel is also found there. The ore is sent to New York, and finds a market in the United States, England, France and Germany. Cobalt parish suffer the Cobalt parish suffer many. Cobalt oxide sells for \$2.25 a pound, and there is from 12 to 15 per cent. of cobalt in the ore. rent. of cobalt in the ore.

The deposits of cobalt-nickel were discovered during the construction of the Temiskaming Railway thru this district, and were made public in the autumn of 1903. When on a visit to the district Thomas W. Gibson, director of mines, received samples of the mintee was appointed who will prepare tor of mines, received samples of the minerals and recognized that they represented valuable ore.

mittee was appointed who will prepare a suitable address, which will be prepared to Mr. Paine.

The subject is dealt with in the last report of the bureau by Willet G. Miller. He gives analyses of minerals taken from four veins. One of the veins shows the following properties: Nickel 23.24, cobalt 4.11, silver 2.78, antimony, none, sulphur 2.18, arsenic 67.17, total 99.48.

Cobalt Ores Elsewhere.

Sented to Mr. Paine.

To Mr. Pa had to face the most discouraging con-ditions. By the folly or worse of the then government of the province and the park commissioners another comsordered by the legislature. The provincial secretary has issued the following for the guidance of those who own or drive automobiles:

A marker, issued with permit, on registration, must be prominently and securely fixed on back of the body of the automobile.

Islet and some of the other mines was at times coated with cobalt bloom. Niccolite and other minerals carrying cobalt and nickel occur in small amounts in some of these deposits. The only deposits in which quicksilver has been found in Ontario side of the cataract. Mr. Paine and his associates knew this, but they also knew that there were certain conditions in the agreement between the monopoly company and the province which the former were unable to fulfil, so they asked to be permitted—in the event of the monopoly company failing to carry out its undertaking—to be allowed to inter-

to comply with the conditions which would perpetuate their monopoly. Gave would perpetuate their monopoly. Gave in 100 yards, a horse going in the same arts, chiefly in the form of cook possings and procedure. As the form of cook possings and bridges speed must be slackenomed in the state of the season of the sea
